Select Descriptive Catalogue of the

Unrivaled Collection of Fruit & Ornamental

Trees and Shrubs, ...

1857 & 1858.

PRINCE'S

Select Descriptive Catalogue

OF THE

UNRIVALED COLLECTION

OF

FRUIT & ORNAMENTAL

TREES AND SHRUBS,

VINES, CREEPERS, PÆONIES, &c.,

CULTIVATED AT THE

LINNÆAN BOTANIC GARDEN & NURSERIES,

FLUSHING, NEAR NEW YORK,

WM. R. PRINCE & CO.

"A wood coeval with himself he sees,
And loves his own cotemporary trees."

N. B.—Orders should be addressed us at Flushing, and sent per Mail.

Catalogues, which are sent to purchasers of Trees, and to applicants who inclose stamps.—No. 1, Fruit and Ornamental Trees, Shrubs and Plants. No. 2, Roses, Dahlias, Bulbous and Herbaceous Flowering Plants, &c. No. 3. Extra large Fruit Trees, Evergreens, and other Ornamental Trees and Shrubs. No. 4, Wholesale Catalogue for Nurseries and Dealers, comprising Trees. Shrubs, Plants, Stocks for Engrafting, and Tree and Shrub Seeds, &c. No. 5. Catalogue of Garden, Agricultural, and Flower Seeds. No. 6, Descriptive Catalogue of the Finest Strawberries. No. 7, Rare American Trees, Plants, and Seeds, suitable for sending to Europe. No. 9, Supplement Catalogue of Bulbous Flowers, New Dahlias, Pæonies, Chrysanthemums, Phlox, Carnations, and oth-r Rare Flowering Plants. No. 10, Wholesale Catalogue of Bulbous and Tuberous Flowers. No. 11, Treatise on Culture of Chinese Potato, or DIOSCOREA BATATAS; on Licorice, Tanner's Sumach, Fig, Almond, and Olive.

FORTY-SECOND EDITION.

Baker & Godwin, Printers, No. 1 Spruce St., N. Y.

1858.

Remarks on Summer and Autumnal Planting.

THE MONTHS of August and September are the preferable periods in the State of New York, and in the States to the North of it, for transplanting the following articles, and the month of September and October for the States adjoining on the South, as far as the Potomac, and the months of October and November for the more Southern States.

STRAWBERRIES.—These, if planted at periods above stated, will produce a fair crop the ensuing summer. They should be planted in beds of three feet wide, with four rows of plants lengthwise, and at a foot each way, and allowed to form a dense bed. This width will admit of all the fruit being gathered from the sides. A path of about 15 inches wide should be left between the beds.

RHUBARB FOR TARTS, of all the large and fine new varieties.

ASPARAGUS, of the large Dutch and Giant varieties.

HORSE-RADDISH, SEA KALE, GLOBE ARTICHOKE, MADDER, AND PATIENCE DOCK, the latter the best of early spring greens, very hardly and permanent. All these will, when planted thus early, become well rooted and established before winter. They should have frequent waterings during the first two weeks after planting.

Also BULBOUS AND TUBEROUS FLOWERS of all the hardy species, such as the different varieties of Hyacinths, Tulips, Lilies of all the fine species a d varieties. Crown Imperials, Fritillaries, Crocus, Single and Double Narcissus, Polyanthus Narcissus, Jonquils, Gladiolus Communis and other hardy varietie , Snowdrop, Snowflake, Ornithogalum, Squills, Bulbous Iris of different kinds, Allium, Amaryllis aurea, Arum, Dens Canis, Calochortus, Ranunculus Anemone, Bulbocodium vernum, Convallaria, Trillium, Uvularia, Cypripedium, Yellow Aconite, and many other species, and all the magnificent varieties of Herbaceous and Shrubby Pæonies. All these splendid Flowering plants, when planted thus early, will become more vigorous, increase more freely, and bloom with much greater vigor. It is to be understood, that before planting any of the preceding, the ground should be well ploughed or dug, and plentifully manured for the Herbaceous, and moderately so for the Bulbous Flowers.

FRUIT AND ORNAMENTAL TREES, SHRUBBERY and ROSES cannot be safely transplanted in this latitude until the 1st of October, and those intend d for the South should not be forwarded until the 1st of November, at which time vegetation will have become sufficiently dormant for their safe removal. To the Western States inland, they may be safely forwarded the beginning of October.

NOTE.—The wholesale prices of Blackberries, Raspberries, Currants, Gooseberries and Strawberries have been greatly reduced. Native Grapes of the fine new hardy varieties at moderate prices. Of Strawberries this is the only General Collection in the Union, and comprises every estimable variety at the lowest prices, of which a Descriptive Catalogue with directions for culture will be sent to applicants.

Priced Catalogues of every Department will be sent to those who enclose stamps.

WM. R. PRINCE & CO.,

Linnæan Gardens and Nurseries, Flushing, New York.

REDUCED PRICES.

SELECT DESCRIPTIVE CATALOGUE.

FIRST.—The SMALL FRUITS enumerated in this Catalogue, such as GRAPES, RASPBERRIES, BLACKBERRIES, CURRANTS, GOOSEBERRIES, CRANBERRIES, &c., will be found enumerated in the *Supplementary Catalogue* (sent herewith) at reduced prices, with the addition of all the *New Varieties.*

SECOND.—The Department of ORNAMENTAL TREES AND SHRUBS, and especially of EVERGREENS. commencing at page 36, we have now reduced the prices of in a great many instances where quantities are wanted, and the Evergreens such as *Norway and other Spruces, Pines, Junipers, Arbor Vitæ,* &c., will now be supplied at a large reduction from the prices herein named.

CHINESE PÆONIES, *Tree and Herbaceous,* will be found in Catalogue No. 9 at greatly reduced rates, and there are also numerous *New Varieties*—RHUBARB, *and other Esculents at reduced prices in Supplementary Catalogue* No. 16.

WM. R. PRINCE & CO.

FLUSHING, NEAR NEW YORK.

ANNOUNCEMENT AND GENERAL REMARKS.

The Senior Proprietor, Wm. R. Prince, having devoted more than half a century to Pomological and Horticultural pursuits, and desiring now to withdraw from all active business, has transferred the control of the Nurseries to his son, *William Prince*, who, with his associates, will conduct the establishment in its future operations. W. R. P. will, however, give his general supervision to some of the most prominent objects.

Since the publication of the last General Catalogue of Trees, Shrubs, and Plants, an additional plot comprising 40 acres of excellent Farm land, very favorably situated, has been added to the Nurseries, on which are now growing several hundred thousand trees, in addition to our previous extensive stock.

This and the other Nurseries are all on what may be termed *new soil* (in regard to Tree culture), no trees having been previously grown on them; as the building innovations have pressed upon our path so rapidly that the lands formerly occupied by our Nurseries are now populous streets, studded with dwellings. The natural strength and fertility of the soil of this locality is such, that it ensures a most healthy and vigorous growth to the trees, which seem to become hardened and confirmed as they progress, and is devoid of that rank, stimulated, and unnatural exuberance which trees so generally exhibit when reared on lands that have never been subjected to previous culture. The Trees thus cultivated, after making at first a rapid development, are so sensitive to cold, that the winter easily affects them, and they gradually pine away till they become feeble and unproductive.

The climate of *Long Island* being subject at all times to the boisterous winds of the Ocean and the Sound, seems to be particularly favorable to perfecting the hardihood of Trees. The vacillations of alternate cold and mild periods during the winter, accompanied by the frequent freezings and thawings to which trees are here subject throughout all stages, prepares them for the endurance of the utmost degree of cold and rigor incident to the most northern latitude; it being found that trees, like men, become much more hardened in a changeable climate than in one regularly cold where the constitution is not subjected to trials.

It is doubtless from this cause that the Long Island trees, with which New England has been generally supplied, and also those which have been sent to the coolest regions of the West, have been found to better withstand the severest winters, than those which have been obtained from other localities. Indeed it can be readily realized that trees so robust and hardy, and yet so vigorous, must possess a great superiority over those grown in localities where the mercury sinks each year to 10° and 20° below zero during a very prolonged winter, thus retaining the trees in a frozen, torpid and death-like state for many months, freezing and bursting the inner vessels, affecting the sap, and weakening them to such a degree that they can never regain their original health and strength. Some lessons may be derived from the fatal experience of the two past winters at the West, to which may be superadded the inconsiderate use by many nurseries of unsuitable stocks for budding and grafting, and especially of the tender Mazzard stock for Cherries, instead of the hardy Mahaleb, the latter alone being suited to the North and West.

Our large General Catalogues, which have been distributed throughout the Union, comprise every estimable variety of Fruit ripening throughout the year, and especially such as have been recommended by the different Pomological Conventions, and embrace Trees of the usual sizes for planting in Orchards and Gardens. All are in the most healthy and vigorous state, and will be supplied at the rates named in the present Catalogue; and it may be taken as a rule that we will at all times sell as low, and many articles lower than they can be obtained elsewhere, *of equal size and quality. The Extra-Large sized Trees*, which are in a bearing state, have required many years to bring them to their present size, and *are such as can seldom be obtained elsewhere*, and are worthy of the special attention of those who desire *Fruit Trees for immediate bearing*, whereby many years are gained in the planting of Orchards and Gardens. The Extra-Large sized Ornamental Trees and Shrubbery, including the Large sized Evergreen, are worthy the particular attention of those who desire to promptly embellish their Lawns, Avenues, and other Grounds, and many of them are especially adapted to Cemeteries. None of the Apples and Pears, or other Fruit Trees, are grafted on pieces of roots, as has been inconsiderately the practice elsewhere.

Our collection of estimable Fruits of every class, and of Ornamental Trees and Shrubs, including Evergreens, is more general and extensive than any other in our Country. We do not here, as is customary and necessary in the western Nurseries of our State, cover three fourths of our grounds with Apple Trees and other common Fruits; but in accordance with the general demands of our Correspondents, we embrace an assortment very enlarged and comprehensive. It will consequently be seen that of Ornamental Trees and Flowering Shrubs, Evergreens, Roses, Climbers, Bulbous Flowers, and Herbaceous Flowering Plants of every Class, there is no comparison between the collections in the Flushing Nurseries and some distant ones, which have been unduly puffed *for their extent in*

acres. Distant purchasers, and especially those located in the new and rising States of the North and West, should not allow themselves to be duped by gross misrepresentations emanating from interested sources, but should make it an indispensable duty to visit and inspect the Long Island Nurseries to their perfect satisfaction. We append hereto (on the cover) a list of the ten Catalogues, comprising all the departments of our Nurseries, each with prices annexed.

In consequence of the railroad which connects Flushing with the city of New York being laid 2,000 feet through one of our largest Nurseries of fifty acres, we will supply Nurseries and others requiring large numbers of Trees at reduced rates, and on the most liberal terms, as that portion of our lands is required for building lots. We especially suggest to younger Nurseries the importance to them of securing genuine warranted fruit Trees of our superior varieties, many of which are not obtainable elsewhere.

All trees, &c., are labeled and packed in a superior manner, in matted bales or boxes, so that it is scarcely possible that any can be injured; and we charge for the packing barely the actual cost. We ship the packages, or send them by Railroad, by the Transportation Lines, or Express Lines, precisely as ordered, and we send the receipt for the packages with the invoice to the purchaser, and there is consequently the best security for their delivery. After being thus expedited by us, they are at the risk of the purchaser, and the forwarders alone are to be held responsible therefor. Remittances may be made by Check or Draft; but if Bank Notes are sent they should be forwarded through the United States Express, American Express, or Adams' Express Co's., and the Agent's receipt therefor be sent to us. New York or Eastern Bank Notes are best, as there is a discount on Western notes.

Orders for Trees, &c.—It is indispensable that every order be plainly and regularly made out, naming the edition of the Catalogue selected from, and also that plain directions stating how the packages are to be marked and forwarded should immediately follow the order, and that these be entirely distinct from the letter. It is also necessary to state in the orders for Fruit trees, whether Standards, Pyramids, or Dwarfs are wanted, and on what stock each kind is preferred. When any variation is allowed as to the precise kinds, by substituting others equally good or better, or when the selection of all or part of the varieties is left to us, we will exercise our judgment for the interest of the purchaser; and we cultivate none but the choicest varieties. If an error of any kind should occur, we desire to be promptly notified, that it may be rectified at once.

Specimen Trees.—Whenever single specimen Trees are ordered by any Nurseryman or other person, they will be charged at the retail price without discount, the extra time required to make such selections being important to us, and their accuracy of vital importance to the purchaser. We have never employed any Traveling Agents, and caution the public against a scoundrel who professes to represent the Flushing Nurseries and has repeatedly stated he acted for us. If we should conclude to employ any Agents, their names will be announced in the Horticulturist; but we much prefer to do our own business by direct correspondence.

N. B. It seems almost superfluous to remark, that all the Trees and Shrubs in this Catalogue not stated to be tender, are hardy.

APPLES—PYRUS MALUS.

Standard Trees of usual size for Orchards, 25 cents.
" of larger size, 4 to 5 years grafted, 37 cts.
" very large, 6 and 7 years grafted, 50 cts.

N. B.—The two last-named sizes are such as are seldom obtainable from Nurseries.

Dwarf Trees, 25 to 37 cts.

Above 400 varieties are cultivated, comprising every estimable variety described by Thomas, Downing, Manning, Barry, Kenrick, and Ives, and by the London Horticultural Society. The following comprise a selection of the most estimable, and we exclude a large number of worthless varieties which are comprised in many Catalogues.

SUMMER VARIETIES.

1 Benoni, *very fine.*
2 Bevan's Favorite.
3 Blinkbonny, *very fine,* 50 cts.
4 Buffington Early.
5 Corse's Favorite, *fine,* 50 cts.
6 Early Harvest.
7 Early Joe.
8 Early Red Margaret.
Red Juneating.
9 Early Strawberry.
10 Garretson's Early, *very fine.*
11 Golden Sweeting,
12 Keswick Codlin.
13 Large Yellow Bough.
Early Bough.
14 Lyman's Large Summer.
15 Primate.
16 Pumpkin Sweeting.
17 Red and Green Sweet (*monstrous*).
18 Red Astrachan.
19 Sinequanon.
20 Summer Bellflower.
21 Summer Hagloe.
22 Summer Pearmain (*Amer.*)
23 Summer Queen.
24 Summer Rose.
25 Summer Russet.
26 Summer Sweet Paradise.
27 Williams' Favorite.

AUTUMN VARIETIES.

28 Autumn Bough.
29 Autumn, or Late Strawberry,
30 Autumnal Swaar.
31 Beauty of the West.
32 Belle et Bonne.
33 Belle d'Aout, 50 cts.
34 Boxford.
35 Cooper (Ohio).
36 Doctor, or De Witt.
37 Drap d'Or.
Orange Pippin.
38 Fall Pippin.
Summer Pippin.
39 Gravenstein.
40 Hawley—Dowse.
41 Holland Pippin.
42 Jewett's Red.
43 Lindley's Nonpareil (Southern).
44 Lowell.
45 Lyscom.
46 Maiden's Blush.
47 Monstrous Bellflower.
48 Nyack Pippin.
49 Orne's Early.
50 Pearmain, Autumn.
51 Pearmain, Gardener's Sweet.
52 Pearmain, Scarlet.
53 Pineapple Russet.
54 Pomme royale, *Dyer.*
Tompkins—Beard Burdin.
55 Porter.
56 President.
57 Princeall.
58 Pumpkin Russet (Sweet R't.)
59 Rambo.
60 Republican Pippin.
61 St. Lawrence.
62 Sweeting, Haskell.
63 Sweeting, Jersey.
64 Sweeting, Lyman's Pumpkin.
65 Sweeting, Peachpond.
66 Sweeting, Sawyer.
67 Sweeting, Spice.
68 Sweeting, Superb.
69 Sweeting, Tifft's.

WINTER VARIETIES.

70 Aunt Hannah.
71 Bailey Sweet.
72 Baldwin.
73 Bellefleur, White.
74 Bellefleur, Yellow.
75 Bellefleur, Brabant, *crooked growth.*
76 Belmont.
77 Bourassa.
78 Broadwell.
79 Carthouse, *Gilpin.*
Red Romanite, of Ohio.
80 Chandler.
81 Cogswell.
82 Cumberland Spice.
83 Dickskill.
84 Domine.
85 Downton Nonpareil.
86 Dutch Mignonne.
87 Eustis, or Ben.
88 Fallawater.
89 Fameuse, or De Neige.
90 Fort Miami.
91 Golden Ball.
92 Gooseberry, 50 cts.
93 Hubbardstone Nonesuch.
94 Jonathan.
95 King (*Tompkin's County.*)
96 Lady—Pomme d'Api.
97 Maclean's Favorite.
98 Marston's Red Winter.
99 McLellan.
100 Melon.
101 Middle Apple, *extra fine.*
102 Minister.
103 Mother.
104 Murphy.
105 Newark King.
106 Northern Spy.
107 Old Nonsuch.
Red Canada.
108 Ortley, *Jersey Greening.*
Woolman's Long.
109 Pearmain, Blue.
110 Pearmain, Claygate, 50 cents.
111 Pearmain, Herefordshire (*true.*)
112 Pearmain, Sweet.
113 Pearmain, Winter.
114 Peck's Pleasant, *fine variety of Newtown Pippin.*
115 Pennington Seedling.
116 Pickman (Pippin.)
117 Pippin, American Golden.
118 Pippin, Bullock's.
American Golden Russet.
119 Pippin, Cranberry.
120 Pippin, Easter.
French Crab.
121 Pippin, Michael Henry.
122 Pippin, Monmouth.
123 Pippin, Newark, *crooked growth.*
124 Pippin, Green Newtown (rough bark.)
125 Pippin, Yellow Newtown (smooth bark.)
126 Pippin, Red Sweet.
127 Pippin, Ribston.
128 Pippin, Springhill, *fine variety of Newtown pippin,* 50 cents.
129 Pippin, Sturmer.
130 Pomme de Lettre (keeps a year), 50 cts.
131 Pomme Grise.
132 Pound Royal.
133 Prince's Yellow Winter, 50 cts.
134 Pryor's Red.
135 Rawle's Jannet.

SELECT APPLES.

CLASS I.—SUMMER APPLES.

Benoni, medium size, roundish, deep red, striped, flesh yellow, tender, subacid, rich flavor, good bearer. Aug.

Blinkbonny, medium size, oblate, pale straw color, acid, spicy, the finest flavored of all early apples, productive, a great acquisition. Aug.

Corse's Favorite, medium, oblate, pale yellowish green, tender, very sprightly, subacid flavor, excellent for cooking, very productive, ripens gradually through August. A favorite fruit of Lower Canada.

Early Harvest, medium size, roundish oblate, pale yellow, tender, acid, rich, fine, ripens in succession, of slow growth, with slender shoots, but very productive. End of July and Aug.

Early Joe, rather small, oblate, deep red, tender, subacid, spicy, excellent, very productive. Last of Aug.

Early Strawberry, rather small, roundish, deep red, faint stripes, tender, subacid, pleasant, productive. Middle to end of Aug.

Garretson's Early, rather large, roundish oblate, yellow, tender, subacid, rich, excellent, productive, a great acquisition. Aug.

Golden Sweeting, large, roundish, pale yellow, sweet, good, fair, vigorous, productive. Late in Aug.

Keswick Codlin, rather large, conical, pale yellow, pleasant acid, juicy, good, excellent for cooking, very productive. Late in Aug.

Large Yellow Bough, or Early Bough, large, roundish, greenish yellow, sweet, very tender, excellent flavor, regularly productive. Aug.

Lyman's Large Summer, large, roundish, pale yellow, subacid, high flavor; a moderate bearer until the tree becomes large. Aug.

Primate, medium size, pale yellow, with a blush, tender, mild and good flavor, vigorous, productive. Aug. and Sept.

Red Astrachan, large, roundish oblate, bright crimson, beautiful, crisp, acid, juicy, good; vigorous, productive. Aug.

Sinequanon, medium size, greenish pale yellow, tender, spicy, high flavored, excellent, grows slow and slender, productive. Aug.

Summer Pearmain, American, medium size, oblong, striped and dotted with red, tender, subacid, high flavored, excellent, ripening for several weeks; growth slow, very productive. Throughout August.

Summer Queen, rather large, conical, yellow striped with red, handsome, flesh yellow, subacid, rich, spicy, fine flavor, fine for cooking, vigorous growth. Aug.

Summer Rose, medium size, roundish oblate, yellowish blotched with red, very tender, crisp, juicy, mild subacid, excellent; grows rather slow, productive. Middle to end of Aug.

Williams' Favorite, medium size, oblong, crimson striped, mild, agreeable, moderately juicy, excellent, handsome, of moderate growth, productive. Ripens in succession during Aug.

CLASS II.—AUTUMN APPLES.

Autumn, or Late Strawberry, medium size, roundish, tender, juicy, agreeable subacid flavor, estimable, vigorous, and productive. Sept., Oct., and Nov.

Autumn Bough, medium or rather large, roundish, whitish, sweet, pleasant flavor, much esteemed, very productive. Sept.

Cooper (of Ohio), rather large, round oblate, greenish yellow, striped with red, crisp, juicy, pleasant, not high flavor, productive, much esteemed in Ohio. Midautumn.

Drap d'or, or Orange Pippin, large, roundish, golden yellow, showy, mild subacid, agreeable, moderately vigorous, productive. Sept. and Oct.

Fall Pippin, very large, roundish, rich yellow when ripe, flesh yellowish, rather firm, tender at maturity, rich, aromatic, excellent, vigorous, productive, greatly esteemed. Oct. to Dec.

Fameuse, or De Neige, medium size, round, red, flesh very white, subacid, juicy, spicy, pleasant, much esteemed at the North, vigorous. Oct. and Nov.

Gravelnstein, rather large, roundish, yellow striped red, tender, juicy, subacid, rich, high flavored, excellent, handsome, vigorous, very productive, well suited to the North. Sept. and Oct.

Hawley, or Dowse, quite large, roundish, pale yellow, tender, fine grained, mild, rich fine subacid flavor, very valuable, rather slow growth, productive. Midautumn.

Holland Pippin; this is not the Summer Pippin as is erroneously stated in some Catalogues, but is an autumnal fruit totally distinct; very large, roundish, somewhat oblong, pale yellow, dull red cheek, flesh white, rather acid, secondary flavor, vigorous growth. Oct. and Nov.

Jersey Sweeting, medium size, round ovate, greenish yellow, striped with red, tender, juicy, very sweet, popular for table and cooking, vigorous, and productive. Sept. and Oct.

Jewett's Red, medium size, roundish, yellow, striped red, very tender, mild acid, aromatic, fine grained, excellent, vigorous, productive, suitable for the North. Oct. and Nov.

Lowell, or Orange, large, roundish oblong, fair, rich yellow, rather coarse, rich acid, excellent, vigorous, productive, and early bearer. Sept.

Lyscom, large, round, pale red stripes on yellowish ground, fine grained, mild subacid, moderately rich flavor, good second rate. Oct. and Nov.

Maiden's Blush, rather large, oblate, regular form, fair, pale yellow, red shaded cheek, beautiful, tender, pleasant subacid, good second rate, very productive. Midautumn.

Porter, rather large, oblong conical, bright yellow, fair, tender, rich subacid, fine flavor, a good Northern fruit, productive. Sept.

Pomme Royale, Dyer, or Tompkins, rather large, roundish, pale yellow, tender, very fine grained, very juicy, rich acid flavor, excellent, equaled by few, productive. Sept., Oct., and Nov.

Pumpkin Russet, or Sweet Russet, very large, round, slightly flattened, yellowish green russet, sweet, rich flavor, esteemed, vigorous growth. Oct. and Nov.

Rambo, medium, oblate, streaked and marbled yellow and red, tender, mild subacid, rich, juicy, fine flavor, vigorous growth, productive, much esteemed everywhere, Oct. to Dec. at the North, but autumnal at the South.

Spice Sweet, large, pale yellow, with a blush, handsome, sweet, tender, fine flavor, productive. Sept. There is an inferior variety known under the same name.

St. Lawrence, large, roundish, dark red stripes on greenish yellow, rather acid, somewhat rich, agreeable, handsome, productive, a popular Canadian fruit. Midautumn.

CLASS III.—WINTER APPLES.

Bailey Sweet, large, ovate, bright red, beautiful, tender, mild, rich sweet, excellent, vigorous, upright growth. Nov. to Jan.

Baldwin, large, roundish, bright red striped and shaded on yellow ground, crisp, mild, rich subacid flavor, handsome, vigorous and rapid upright growth, very productive. A first rate winter-keeping apple, and very suitable in connection with the Newtown Pippin for exportation; ripens throughout the winter.

Blue Pearmain, large, roundish, with dull purplish red stripes, a conspicuous bloom, flesh yellowish, mild, subacid, good; of slow growth, and produces only a thin crop. Oct. to Jan. The Flushing Spitzemberg much resembles it, and is a much more valuable variety.

Bourassa, rather large, ovate, dark orange russet, subacid, fine grained, rich, fine flavor, highly esteemed in Lower Canada, and in our most Northern States. Oct. to Mar.

Belmont, or Gate, rather large, ovate, pale yellow with a blush, flesh firm, crisp, becomes tender, mild, rich, subacid, fine flavor, very productive, highly valued in some of the Western States. Dec. and Jan.

Claygate Pearmain, medium size, ovate, yellowish striped with red, flesh subacid, juicy, sprightly, fine flavor, first quality for the dessert. Nov. to Mar.

Danvers Winter Sweet, medium size, roundish, yellow with sometimes a blush, flesh yellow, sweet, rich, tender, vigorous, and productive. Nov. to Mar.

Dutch Mignonne, quite large, roundish, orange with faint stripes, beautiful, firm flesh, becomes tender, rich, subacid, high flavor, rather coarse, growth erect, productive. Nov. to Mar.

Gooseberry, large, roundish oblate, yellow, sprightly, acid, peculiar flavor, first quality, a favorite London cooking fruit. Jan. to May.

Green Sweeting, medium size, roundish, fair, greenish, very sweet, tender, spicy flavor, productive, and a long keeper, growth moderate. Nov. to May.

Hubbardston Nonsuch, large, roundish ovate, yellow ground striped and dotted with light red, flesh yellow, tender, juicy, very rich, slightly subacid, blended with a rich, sweet, and excellent flavor, superior to the Baldwin in flavor, vigorous growth, very productive. Nov. to Jan.

Jonathan, Medium size, round ovate, striped with bright red on yellow, very juicy, subacid, spicy, moderately rich, always fair and handsome, assimilating to the Spitzemberg character, shoots slender and divergent, very productive, Nov. to April.

Laquier, rather large, oblate, striped red on greenish yellow, flesh fine grained, firm, crisp, agreeable, mild subacid. Dec. to March.

Lady Apple, or Pomme d'Api, Quite small, flat, uniform, brilliant deep red cheek on light yellow, flesh tender, crisp, juicy, mild, slight subacid, good flavor, a beautiful fancy apple for parties, commands twice the price of any other apple; growth vigorous but not rapid, forms a beautiful regular conical tree with luxuriant foliage, some trees near Flushing have attained the height of 50 feet, each yielding 9 to 11 Barrels. There is no variety of apples, large or small, that produces greater crops. Nov. to May.

Melon (Nortons), large, roundish, pale yellow with bright-red stripes and dots, flesh white, tender, subacid, spicy, very juicy, fine flavored, an excellent and beautiful fruit, of slow growth, productive. Nov. to Feb.

Minister, large oblong conical, striped red on pale yellow, flesh yellowish, subacid, moderately rich, second rate, fair and showy, vigorous growth, very productive. Nov. to Jan.

Monmouth Pippin, rather large, yellow with a bright red cheek, tender, juicy, fine flavor, vigorous and productive, a very estimable winter fruit. Dec. to April.

Mother, large ovate, rich red, flesh yellow, mild subacid and mixed with sweet, rich, very aromatic, somewhat juicy, very productive. It is well suited to the North. Nov. to Jan.

Northern Spy, large, roundish oblate, often flattened, red striped, dark crimson on the sun side with a delicate bloom, beautiful, flesh juicy, rich, highly aromatic and retains its freshness of flavor until late in the Spring, a highly estimable fruit and suitable for exportation; growth very vigorous and erect, very productive. Leaves and fruit buds open late, thereby rendering it very suitable to the North. Dec. to June.

Old Nonpareil (often called Red Canada), medium size, roundish conical, red dotted with white, flesh firm, fine grained, rich subacid, high, excellent flavor, much esteemed, growth rather slender, with a moderate crop. Nov. to May.

Pearmain, Herefordshire, We do not believe that more than one Nursery besides our own in the whole Union possesses this genuine variety; and that one obtained it from us. They all appear to have confused the common Winter Pearmain with this; and even Mr. J. J. Thomas, whom we deem a generally reliable author on Apples, has fallen into the same error. It is a much larger fruit than the Winter Pearmain, form oblong ovate, with dull red stripes on a pale greenish ground, flesh pleasant, sprightly acid, aromatic, juicy, tender, fine grained, high and pleasant flavor, will keep a month longer than the other variety, and is much the most valuable, productive. Nov. to March.

Peck's Pleasant, large, roundish, fair, pale yellow, with a brown cheek, flesh firm, very tender, mild, rich, clear subacid, fine Newtown Pippin flavor, a very estimable variety. Nov. to April.

Pennington's Seedling, medium size, oblate, yellowish russet, flesh yellow, firm, crisp, brisk acid, high flavored, excellent, first quality. Dec. to March.

Pippin, Green Newtown, full medium and occasionally large, roundish oblate or flattened, dull green, becoming yellowish green, often dotted, with a brownish red cheek, flesh white, firm, crisp, fine grained, juicy, with a high aromatic flavor, unsurpassed in excellence, keeps long and preserves its freshness; growth rather slow, but quite equal to many other varieties, *rough bark* after the second year's growth. Immense quantities are grown on Long Island, and on the Hudson river, and it will doubtless succeed in any Apple region, on good free soil, with proper culture. Quantities of the finest fruit come from Western New-York. Nurserymen have prejudiced purchasers against this tree, because its slower growth renders it less profitable to them than the rapid growing varieties.

Pippin, Yellow Newtown. Scarcely any Nursery on this Island or elsewhere in the State possesses this very distinct and genuine variety; but many cultivate and sell the preceding under the two distinct names of green and yellow, and they have thereby caused the confusion as to identity. It is found disseminated in orchards to which we have supplied the true variety during the last 60 years. A blind man can distinguish this tree from the preceding one by its *perfectly smooth bark.* The fruit is rather large, more flattened than the preceding, clear light yellow, with a bright red cheek, fairer and handsomer, possessing the same qualities, but not quite equal in flavor, keeps during the same period, and is

also suitable for exportation. The tree has a more thrifty appearance and grows faster than the preceding.

Pippin, Ribston, medium or rather large, roundish, yellow and red, flesh yellow, crisp, juicy very rich, sprightly acid flavor, productive. Succeeds well in the most northern localities, where it is a winter fruit, but it matures here in Oct. and Nov. and is also valueless.

Pippin, Springhill, a seedling of the Green Newtown Pippin, grown by Judge B. W. Strong, seems identical in character with the parent, and of equal excellence. It may prove of more thrifty growth,

Pippin, Sturmer, medium, conical, greenish yellow, sprightly acid, high flavor, excellent, first quality, one of the best late apples for dessert and cooking, very productive. Dec. to June.

Pomme Grise, small, roundish, gray russet, very tender, fine grained, rich, high flavor, good for dessert and cooking; the tree productive, well suited to the North, and a favorite in Canada. It is an old European variety.

Prince's Yellow Winter, medium, or rather large, roundish oblate, pale yellow, tender, juicy, fine flavor, a very estimable variety. Nov. to April.

Rawles Jannet (Neverfail), medium size, roundish, conical, striped pale red on light yellow, firm, crisp, juicy, rich, mild subacid, fine grained, first quality, slow growth, very productive. Keeps very long, and is highly esteemed at the South and Southwest.

Reinette, Canada, quite large, flattened, greenish yellow, often a brown cheek, flesh firm, becomes tender, juicy, rich, sprightly subacid, vigorous growth, productive. It is a French variety, and succeeds well in Canada. Nov. to Mar.

Rhode Island Greening, large, roundish oblate, greenish yellow, fair and handsome, with a dull blush cheek, flesh yellow, subacid, tender, juicy, very pleasant, excellent for table and cooking; strong oblique growth, spreading, very productive; a most valuable market fruit. Nov. to Mar. at the North, but a fall apple at the South.

Rome Beauty (of Ohio), very large, beautiful, roundish, bright red on pale yellow ground, flesh yellow, crisp, mild, subacid, juicy. Oct. to Dec.

Russet, Boston, or Roxbury, rather large, roundish oblate, rough russet on yellowish ground, often a dull brown cheek, flesh coarse, rather crisp, good subacid, not high flavor; growth vigorous and spreading, very productive. Nov. to June.

Russet, Pine Apple, large, roundish, ovate, yellowish, covered with russet, flesh yellow, crisp, subacid, tender, juicy, aromatic, exceedingly rich, first quality. Oct. and Nov.

Russet, Poughkeepsie, erroneously called by some "English Russet," small, roundish, ovate, brownish russet, flesh firm, subacid, aromatic flavor; very productive, and keeps till July or longer. It is probably of foreign origin, but very distinct from and much smaller than the following.

Russet, English Golden, this appears to be the "English Russet," as described and figured by Downing, medium size, roundish oblate, yellowish russet, fair and handsome, flesh firm, crisp, tender, rich, aromatic, juicy, estimable, growth vigorous, productive. Nov. to Mar.

Seeknofurther, Westfield, medium to large, roundish, fair, striped with dull red, partially russeted, flesh tender, spicy, rich, fine flavor, growth vigorous, productive. Succeeds well at the North and in Ohio. Nov. to Feb.

Seeknofurther, White, medium size, roundish oblate, greenish yellow, flesh fine grained, subacid, juicy, very agreeable flavor. Nov. to Mar.

Spitzemberg, Esopus, rather large, ovate, bright red, flesh yellow, firm, crisp, very aromatic, rich, subacid, unequaled in high flavor; growth slow, rather slender, moderate bearer, esteemed among the very best. Nov. to Mar.

Spitzemberg, Flushing, large, round, conical, dark red, with white dots, and a thin bloom, flesh white, nearly sweet, aromatic, pleasant, good second-rate flavor, growth very vigorous, dense luxuriant foliage, moderately productive. Nov. to April.

Spitzemberg, Springhill, a beautiful seedling of Esopus Spitzemberg grown by Judge B. W. Strong, medium size, ovate, bright red, flesh subacid, aromatic, rich flavor, estimable. Nov. to Mar.

Swaar, rather large, roundish, often oblate, pale lemon yellow, flesh yellowish, firm, fine grained, tender, spicy, slight subacid, mild, very rich, esteemed one of the best, growth moderate, very productive. Nov. to May.

Talman Sweeting, medium size, roundish oblate, whitish yellow, flesh white, firm, very sweet, secondary flavor for dessert, excellent for cooking; growth vigorous, very productive. Nov. to April.

Tewksbury Blush, small, round oblate, yellow with red cheek, flesh yellow, firm, juicy, good flavor, vigorous growth, very productive, keeps till July. It requires a long season to mature, and is therefore best suited to the South.

Twenty Ounce, very large, fair, and very beautiful, roundish oblate, striped rich red on yellowish ground, a monstrous Pearmain variety, flesh rather coarse, subacid, assimilating in flavor to the winter Pearmain, second rate, excellent for cooking, growth upright, productive. Popular at market, Oct. to Jan.

Vanderveer, usually misspelt "Vandervere," medium size, round oblate, pale red stripes on yellow ground, deep red on sunside, flesh light yellow, mild, subacid, rich, excellent flavor, growth fair, good bearer, does best on light soils. Oct. to Mar.

Wagener, medium to large, oblate, yellow striped pale red, deep red on sunside, flesh yellowish, aromatic, excellent, very productive. Dec. to May.

Winter Pearmain, medium or under, ovate, ends flattened, stripes of dull red on pale yellow, flesh dull yellow, very tender, subacid, aromatic, very pleasant, high flavored, growth moderate, very productive. An old and universal favorite. Nov. to Mar.

Yellow Bellflower, or Bellefleur, large, often very large, oblong ovate, yellow, with a blush cheek, flesh fine grained, very tender, subacid, crisp, juicy, sprightly aromatic, excellent, a splendid and favorite fruit, growth vigorous, very productive. Well adapted to the Northern and Middle States, and as far west as Kentucky. Nov. to April.

PEARS—PYRUS COMMUNIS.

Note.—There is never any *Pear Blight* or *Sap Blight* on Long Island, and the Trees are never injured by the winter.

The stock of Pears is the finest in the Union, and the prices low for the quality, and we can supply the leading and most esteemed varieties on both Pear and Quince. Such as do not succeed on the Pear we can supply on the Quince, and contrarywise.

Standards on Seedling Pear stocks, 3 to 4 years budded, . . . 50 cts.
Do. do do extra size, 4 to 6 years, . 75 cts. to $1 50
Do. do. largest size, 8 years bearing age, . 2 00
Pyramids and Dwarfs on Anger's Quince, 2 to 3 years, . . . 50 cts.
Do. do. do. do. 4 to 8 years, in full bearing, 75 cts. to $1 50, according to age and size.

Secondary sized Trees to those priced at 50 cts. will be supplied at 37½ cts.

☞ The Extra Large-sized Trees are such as are seldom to be had, and are often sold at $3 to $5 each.

N. B.—The American Varieties are denoted by an asterisk, *.

Summer Thorn
Swan's Egg.
Verte longue panaché.
Windsor.
Winter Bon Chretien.
Winter Crassane.

CLASS I.—SUMMER PEARS.

Amiré Joannet, small, obovate, yellow, reddish cheek, rather juicy, becomes dry, pleasant, moderate flavor, tree very productive, valued principally for its earliness. The Sugar top is the variety that next follows it in maturity.

Bartlett, large, pyriform, clear yellow, often a blush, fine grained, very tender and buttery, sweet with a slight subacid, perfumed, moderately rich flavor, a splendid fruit, tree bears young, very productive, commands the highest market price.

Beau Present d'Artois, rather large, half melting, very juicy, fine flavor, first quality, tree vigorous and very productive. A new and highly esteemed variety.

Beurre Benoist, medium, melting, slightly perfumed, agreeable flavor, first quality, tree vigorous and productive.

Beurre Giffard, medium, melting, juicy, pleasant flavor, greatly esteemed, tree very productive, fruit larger than the Madeleine, and equally good.

Bloodgood, medium, obovate, yellow, russetty, buttery, sweet, rich aromatic flavor, rather slow growth, moderate crop.

Brandywine, medium, pyriform, yellowish green, melting, very juicy, fine flavor, tree very productive.

Canandaigua, has erroneously been called *Catharine,* very much resembles the Bartlett, but not quite as large or as good; tree vigorous and very productive, the fruit ripens at same period as the Bartlett.

Dearborn's Seedling, small, turbinate, clear yellow, fine grained, melting, juicy, fine flavor, but has been unduly extolled, when its size and quality are contrasted with others; tree of slow growth, bears young.

Doyenne d'été, small, obovate, yellow, bright red cheek, melting, juicy, sweet, pleasant, not high flavor, tree bears very young.

European Honey, medium or under, roundish, yellow, sweet, good flavor, tree productive.

Heathcot, medium, obovate, pale whitish yellow, russety, fine grained, very buttery, perfumed, excellent flavor, tree very hardy, and very productive.

Hessel, medium, obovate, yellowish green, melting, juicy, very pleasant flavor, tree vigorous, very productive, estimable.

Jargonelle, English, rather large, long pyriform, greenish yellow, brownish cheek, juicy, pleasant subacid, moderate flavor, very productive, valuable for market.

Kingsessing, rather large, obovate, green shaded, buttery, delicate, rich flavor.

Madeleine, medium, obovate, yellowish green, melting, very juicy, slight acid, delicate, agreeable refreshing flavor vigorous growth, very productive; one of the best early Pears.

Moyamensing, rather large but variable, obovate, pale yellow, buttery, melting, good flavor, productive.

Muscadine, medium, obovate, yellowish green, buttery, melting, somewhat coarse and astringent, rather rich, good flavor.

Osband's Summer, medium or under, obovate, yellow, reddish cheek, sweet, mild, and excellent flavor, one of the finest early Pears.

Queen of August, large, roundish ovate, very fair, pale yellow, tender, melting, very juicy, pleasant flavor, excellent, tree very vigorous. A new and very valuable seedling variety, originated by ourselves, the largest of early pears, ripe during the last half of August.

Rostiezer, rather small, sometimes medium, pyriform, brownish green, reddish cheek, melting, juicy, sweet, very high perfumed flavor, of great excellence, one of the finest late summer pears.

Summer Francreal, medium, obovate, yellowish green, sometimes a blush, fine grained, buttery, melting, rich and excellent, much esteemed; tree thrifty, very productive.

Tyson, medium, pyriform, bright yellow, reddish cheek, fine texture, buttery, very melting and juicy, nearly sweet, perfumed, high and excellent flavor, tree vigorous, very productive.

Williams's Early, rather small, roundish, bright yellow, half buttery, juicy, somewhat musky, rich flavor, handsome.

CLASS II.—AUTUMN PEARS.

Ananas, or Henry IV., medium, obovate, greenish yellow, melting, juicy, rich, perfumed, mostly first rate in flavor, tree vigorous, very productive.

Andrews, medium, pyriform, fair, yellowish green, reddish cheek, very juicy, melting, very agreeable flavor, very productive.

Angleterre, medium, pyriform, light green dotted over with russet, brownish cheek, buttery, melting, juicy, secondary flavor, very productive. Sold in great quantities in the markets of Paris.

Beurre Bosc, rather large, pyriform, deep yellow, buttery, juicy, sweet, perfumed, excellent; growth slow, fair crop.

Beurré, Brown, large, oblong obovate, yellowish green, russeted, very juicy, melting, buttery, rich subacid vinous flavor; much esteemed, growth slow and flexuose, and requires high cultivation.

Beurré d'Amanlis, large, obovate, yellowish green, some russet, reddish cheek, buttery, melting, juicy, rather rich, good, not high flavor, growth vigorous, productive.

Beurré d'Amanlis panaché, fruit similar in quality to the preceding, but both the wood and the fruit singularly striped with red and yellow.

Beurré d'Anjou, rather large, obovate, greenish yellow, somewhat russeted, red cheek, fine grained, buttery, melting, rich, vinous, delicious flavor.

Beurré Capiaumont, medium, obovate, yellow, red cheek, buttery, melting, sweet, often astringent, second rate, tree hardy, vigorous, productive.

Beurré Diel, very large and splendid, obtuse pyriform, dull yellow, some russet, buttery, juicy, rich, firm flavor, vigorous growth, productive, and on the Quince often weighs a pound.

Beurré, Golden Bilboa, medium, obovate, fine yellow, some russet, fine grained, very buttery, melting, moderately rich, sometimes a slight acid astringency, not high flavor, productive.

Beurré Goubault, medium, roundish, juicy, melting, sweet, fine flavor, estimable, tree very vigorous, and productive.

Beurré Langelier, large and handsome, juicy, melting, high flavor, excellent, first quality, tree vigorous and productive.

Beurré Superfin, large, handsome, buttery, melting, high flavor, very excellent, one of the finest varieties, tree vigorous and productive.

Bonne d'Ezee, large and beautiful, yellow and red, buttery, melting, perfumed, first quality, greatly esteemed, productive.

Bergamotte Buffo. or Beurre Crapaud, medium, yellow, red cheek, fine grained, melting, juicy, perfumed, high flavored, excellent, much resembles white Doyenné.

Bergamotte Cadette, or Beurré Beauchamps, medium, roundish obovate, greenish yellow, often russeted, with reddish brown cheek, buttery, melting, sweet, quite rich, slightly perfumed, excellent, productive, highly esteemed.

Bergamotte, Gansels, medium, rather large, roundish, oblate, yellowish brown, faint brownish blush, melting, juicy, sweet perfume, rich, first rate flavor, highly esteemed.

Beurré Van Marum, medium, or rather large, pyriform, yellow, juicy, melting, sweet, very agreeable flavor, estimable, tree productive, and soon in bearing.

Bezi de Montigny, medium, obovate, yellowish green, half buttery, melting, juicy, sweet, perfumed, good flavor.

Buffum, a seedling of the white Doyenné, medium, fair, obovate, yellow, reddish cheek, somewhat russeted, buttery, sweet, good flavor, tree very vigorous, produces great and regular crops.

Compte de Lamy, medium, roundish, yellow, orownish blush cheek, fine grained, buttery, melting, rich, high flavor, esteemed.

De Louvain, distinct from Beurré de Louvain, which is a baking pear, medium, obovate, light yellow, somewhat russeted with reddish dots, buttery, melting, rich, fine flavor, an estimable variety.

Delices d'Hardempont (of Belgium), medium, pyriform, pale yellow, buttery, melting, rich, excellent flavor, much esteemed.

Dix, large, pyriform, deep yellow, sweet, juicy, rich, excellent, sometimes rather acid, valuable, but tardy in bearing.

Doyenne Boussoch, large and showy, thick obovate, lemon yellow, somewhat russeted, often a reddish cheek, buttery, melting, very juicy, first rate flavor.

Doyenne, Gray, medium, obovate, cinnamon russet, very buttery, melting, rich, perfumed, delicious flavor, much esteemed, very productive.

Doyenne Sieulle, medium, roundish obtuse, pale yellow, slight blush, fine grained, buttery, rich, excellent flavor, tree vigorous, productive.

Doyenne, White. This is the Virgalieu of the New York markets, and the Butter Pear of Philadelphia. Medium, or rather large, obovate, fine grained, buttery, melting, juicy, rich, excellent flavor, none more highly esteemed, and commands the highest price; tree of vigorous growth, and produces great crops on standard trees in the interior of this State, and on the Quince it yields well everywhere. The Striped Doyenne is valueless.

Duchesse d'Angouleme, very large, often weighing a pound or more, obovate, greening yellow, rather coarse, buttery, juicy, very good on Quince, worthless on the Pear stock.

Dunmore, large, oblong obovate, greenish with brownish russet dots, buttery, melting, perfumed, rich, fine flavor, growth vigorous, productive.

Flemish Beauty, large and splendid, always fair, obovate, reddish brown russet on pale yellow ground, juicy, melting, usually very rich, sweet, and excellent flavor, but variable, and sometimes not high flavored, a very valuable fruit, tree vigorous, productive.

Fondante d'Automne, or Belle Lucrative, medium, obovate, yellowish green, slightly russeted, fine grained, very juicy, melting, rich, perfumed, excellent, one of the finest of Pears, tree vigorous, very productive, and comes soon into bearing.

Forelle, or Trout Pear, medium, pyriform, clear yellow, deep vermilion cheek, buttery, melting, agreeable, second rate, a beautiful fruit.

Fondante Charneuse, or Waterloo, large, beautiful, pyramidal, melting, juicy, high flavor, excellent, much esteemed, tree vigorous and productive.

Frederick of Wurtemberg, large and beautiful, short pyriform, yellow, brilliant red cheek, very melting, buttery, juicy, variable in quality, sometimes delicious, often inferior, tree very vigorous, productive, a beautiful market fruit.

Fulton, nearly medium, roundish oblate, dark cinnamon russet, half buttery, melting, sprightly, agreeable rich flavor, estimable, tree vigorous, produces large and regular crops.

Jalousie de Fontenay, medium, thick pyriform, yellowish green, somewhat russeted, often faint red cheek, buttery, melting, mild, rich, fine flavor, estimable.

Louise Bonne of Jersey, large, pyriform, yellowish green, dull red cheek, very juicy, buttery, rich, faintly subacid, fine flavor, tree vigorous, very productive, succeeds admirably on Quince, and is relied on for its great crops, and as a favorite market fruit.

Long Green—Verte Longue, medium, long pyriform, very juicy, agreeable, good flavor, productive.

Marie Louise, very crooked and irregular growth, fruit large, pyriform, yellowish, somewhat russeted, buttery, melting, vinous, rich, fine flavor, but variable, and often 2d or 3d rate. Requires high cultivation to perfect the fruit.

Napoleon, medium, pyriform, yellowish green, extremely juicy, melting, moderately rich, good flavor, sometimes astringent, tree hardy, thrifty, very productive.

Nouveau Poiteau, above medium, obovate, pale green, with a few blotches of russet, fine grained, melting, juicy, rich aroma, excellent, very highly esteemed, tree vigorous and bears promptly and abundantly.

Onondaga, or Swan's Orange, very large and splendid, obtuse oval, rich yellow, often brown cheek, slightly coarse, buttery, melting, rich, high flavor, estimable but not first quality, vigorous growth, productive.

Oswego Beurré, medium, obovate, yellowish green, melting, juicy, fine sprightly vinous flavor at first, then becoming nearly sweet, tree very hardy and vigorous, and greatly productive, an estimable and reliable variety.

Paradise d'Automne, rather large, pyriform, deep yellow, same appearance and qualities as the Beurré Bosc, more melting and sprightly, and the growth more vigorous, which gives it a decided preference.

Plougastel, large, pyriform, greenish yellow, russeted crown, rather coarse, half melting, juicy, rich, good but not high flavor, about equal to the Bartlett.

Seckel, a tree of slow, compact growth, fruit small, in clusters, yellowish brown, deep dull red cheek, fine grained, sweet, very juicy, melting, buttery, delightful musky aroma, the richest and highest flavored of pears. Requires a rich soil and high culture.

St. Ghislain, medium, pyriform, pale yellow, buttery, juicy, fine flavor, estimable, tree vigorous, productive.

Saint Nicholas, or Duchesse d'Orleans, medium to large, pyriform, golden yellow, often russeted, red cheek, buttery, melting, rich, delicious, very handsome.

Stevens' Genessee, large, round obovate, often flattened, half buttery, sweet, rich, fine flavor, nearly first rate, tree vigorous, productive.

Triomphe de Jodoigne, very large, pyriform, deep yellow, dark red cheek, juicy, melting, good flavor, growth vigorous, productive.

Urbaniste, rather large, obovate, pale yellow, slightly russeted, melting, buttery, delicious perfumed flavor, very fine, growth vigorous.

Van Assche (Van Assene, erroneously), rather large, obovate, dull yellow, buttery, melting, rich fine flavor.

Van Mons Leon le Clerc, very large and splendid, long pyriform, yellowish green, fine grained, buttery, melting rich, fine flavor, the body and branches are grooved, and have an unthrifty appearance, productive.

Washington, medium, obovate, clear yellow, red dots on sun side, very juicy melting, rich, perfumed, very sweet, first rate flavor, tree vigorous, very productive.

CLASS III.—WINTER PEARS.

Alexandre Bivort, medium, greenish russet, juicy, very melting, sweet, very highly perfumed, excellent flavor, succeeds well on quince.

Belle de Noel, or Fondante de Noel, medium, obovate, greenish yellow, dark red cheek, melting, juicy, fine flavor, much esteemed.

Beurré d'Aremberg, large, short pyriform, greenish yellow, partially russeted, buttery, melting, rich, high subacid flavor, very productive, tree unthrifty, of slow growth, the shoots covered with small wart-like excrescences. It should be superseded by the Soldat Laboureur and Gloux Morceau.

Beurré Bachelier, large, fair, yellow, buttery, rich flavor, excellent, first rate, one of the most valuable new varieties.

Beurré, Easter, large, obovate, yellowish green, partially russeted, reddish cheek, fine grained, very buttery, melting, and when well ripened of excellent first rate flavor, tree vigorous, and succeeds well on quince.

Beurré Rance, medium, pyriform, dark green, melting, sweet, juicy, fine flavor, better at the south than at north, tree vigorous, productive.

Beurré gris d'hiver nouveau, medium, obovate, greenish, considerably russeted, buttery, melting, very juicy, rich, slight subacid, resembling in flavor the Beurre d'Aremberg, very valuable.

Chaumontel, succeeds only on Quince, a large, noble fruit, pyriform, yellowish mingled with brownish red, deep red cheek, buttery, melting sugary, excellent flavor, it requires warm rich culture.

Columbia, large, fair, and handsome, obovate, pale yellow, buttery, melting, moderately rich, second rate flavor, tree vigorous, very productive.

De Spoelberg, medium, or rather large, obovate, yellow, purplish cheek, buttery, melting, rich, fine flavor, requires rich soil and good culture.

Doyenne d'Alencon, or Doyenne d'hiver nouveau, medium, obovate, yellowish green, buttery, melting, excellent flavor, highly esteemed, keeps well through the winter, tree vigorous, and exceedingly productive. This is a most valuable and reliable fruit to grow for the markets and for exportation. It succeeds well on both Quince and Pear.

Doyenne Goubault, medium size, very melting, juicy, fine flavor, first quality, highly esteemed, very productive, grows well on the Quince.

Fondante de Malines (Esperin), medium size, melting, very juicy, excellent flavor, first rate, one of the finest new varieties, tree hardy and vigorous, succeeds well on the Quince.

Glout Morceau, large, short pyriform, greenish yellow, fine grained, buttery, melting, sweet, without acid, rich, excellent flavor, tree exceedingly vigorous and productive, succeeds remarkably well on the Quince. This is the *original and true* Beurré d'Aremberg. The blunder of substituting an erroneous one originated at Boston, as we may explain hereafter.

Josephine de Malines, medium, roundish, obovate, yellow, blush cheek, melting, juicy, vinous,

fine flavor, greatly esteemed, and by many placed in the highest rank.

Lawrence, rather large, melting, juicy, rich flavor, much esteemed, tree very hardy, very vigorous, and exceedingly productive. It is admirably suited for barreling to send to our distant cities, and for exportation, and is destined to be among Pears what the Newtown Pippin is among Apples.

Monarch, Knight's, large, obovate, yellowish brown, reddish cheek, buttery, melting, rich, fine flavor. Spurious kinds have been sold under this name.

Passe Colmar, medium, pale yellow, fine grained, buttery, juicy, sweet, rich, excellent, first rate flavor, tree of flexuose, irregular growth, over productive, and the fruit must be thinned out.

St. Germain, an old variety of great excellence, large, pyriform, yellowish green, faint brown cheek, juicy, melting, sweet with a sprightly subacid, very agreeable flavor, first rate, highly esteemed. It does not do well on the Pear at the North, and should be grown there on the Quince. It will probably suit the South much better.

St. Germain, Prince's, rather large, obovate, green, much russeted, dull red cheek, melting, juicy, slightly vinous, very agreeable fine flavor. one of the very best winter pears, tree vigorous, very productive. This is a most valuable Pear to be grown for barreling and supplying our distant markets, or for exportation.

Soldat Laboureur, large yellow, buttery, melting, high flavored, excellent, first rate, tree very vigorous and productive. This is much to be preferred to the Beurré d'Aremberg, which is similar in quality, but of very unthrifty growth, and advances but slowly in comparison with this variety.

Suzette de Bavay, yellow, speckled reddish brown, very juicy, half melting, sweet, high flavor, excellent, greatly esteemed.

Vicar of Winkfield, quite large, very fair and handsome, long pyriform, pale yellowish green, dull red cheek, buttery, juicy, good second rate flavor, sometimes slightly astringent, but when ripened in a warm temperature, it is a good dessert pear, tree very vigorous and exceedingly productive, and it forms a noble tree even on the Quince stock. The long keeping of the fruit and its excellence for cooking render it eminently valuable, and it may be grown most profitably for market and exportation to any extent.

Winter Nelis, medium or under, roundish, obovate, yellowish green, much russeted, fine grained, buttery, very melting, rich, sweet, perfumed, high and excellent flavor, growth slender, flexuose and straggling, very productive, early in bearing.

CLASS IV.—BAKING AND STEWING PEARS.

Bergamot, Easter, medium or rather large, round obovate, yellowish green, firm, buttery, melting, juicy, third rate for dessert, but excellent for cooking throughout the winter.

Black Worcester (Iron Pear of Boston), rather large, short ovate, dark russet on light green surface, firm, coarse, rather austere, but cooks well with a rich flavor, and is highly esteemed, tree of straggling, irregular growth, produces heavy crops, which are very profitable for market.

Bonchretien, Spanish or Vermilion, rather large, pyriform, deep yellow, bright red cheek, crisp, rich and first-rate for cooking.

Bonchretien, Flemish, medium, obovate, pale green, brown cheek, crisp, juicy, tender when cooked, a first rate culinary fruit throughout the winter.

Catillac, very large, turbinate, yellow, often reddish cheek, firm, but valuable for cooking, becomes tender and excellent.

Chaptal, large, obovate, estimable for cooking, tree vigorous and productive.

Uvedale's St. Germain, or Pound, very large and showy, has weighed two pounds, pyriform, yellowish green, brown cheek, flesh solid, suitable for long keeping, a first-rate culinary pear, tree of very strong and vigorous growth, and attains the loftiest dimensions, producing great and regular crops. Great quantities are sold in the New York markets for exportation, and it may be grown and barreled with as much facility as Apples are.

CHERRIES—PRUNUS CERASUS.

Standard Trees, of large growth, 2 to 3 years, . . .	37 to 50 cts.
Pyramid and Dwarf Trees, of low growth, 2 and 3 years, .	37 to 50 cts.
Trees of both the above classes, 4 to 7 years old, in a bearing state,	75 cts. to $1, and $1 50
Dwarf Standards on Mahaleb, ...	37 to 50 cts.

Note.—All the Cherries we cultivate for the North and West are on the Mahaleb Stock, as Trees on the Mazzard stock will scarcely survive the severe winters of those regions.

CLASS I.—HEART CHERRIES.

American Amber, medium, obtuse heart shape, dark pink color, tender, sweet, rich, excellent; tree very vigorous and productive, an indispensable variety. Ignorant persons condemn it, not having seen it, and confuse it with other varieties.

Baumann's May, one of the earliest, ten days before Mayduke, rather small, heart shape, dark red, becoming black, sweet, juicy, moderate flavor, growth very vigorous, exceedingly productive.

Black Eagle, medium, roundish, nearly black, very sweet and rich, high flavor, excellent.

Black Tartarian, quite large, splendid, heart shaped, shining black, half tender, consistent, sweet, rather rich, fine flavor, tree vigorous, remarkably upright, very productive.

Belle d'Orleans, earliest of all, white, shaded with pale red, tender, juicy, delicious, growth very vigorous, productive, highly esteemed.

Brant, large, heart shape, reddish black, half tender, sweet, juicy, rich flavor.

Burr's Seedling, medium, heart shape, bright red on pale yellow, half tender, sweet and juicy, growth slender.

Champagne, (Downing,) medium, roundish, heart shape, bright red shaded, juicy, sprightly, rich flavor.

Columbia, a large and estimable Seedling variety, originated at Newtown, Long Island.

Cumberland, may prove a synonym, large, obtuse heart shape, purplish crimson, rather firm, fine flavor, first quality.

Coe's Transparent, medium, nearly globular, pale amber, red cheek, very tender, sweet, melting, excellent, tree very vigorous, productive.

Delicate, medium, roundish, yellow and light red, mottled, sweet, tender, juicy, high flavor, excellent.

Doctor, medium, roundish, pale yellow and red, sweet, tender, juicy, delicious flavor.

Downer's late red, medium, round heart shape, bright red, mottled with amber, tender, sweet, delicious, not subject to rot by rainy weather.

Downton, large, round heart shape, cream color shaded with red, tender, rich, delicious flavor.

Early purple Guigne, very early, ripe next after Belle d'Orleans, and at same time as Baumann's May, size medium, heart shaped, dark red, nearly black, tender, sweet, juicy, rich flavor, tree less vigorous than most others of this class.

Early Black Heart, medium to large, heart shape, black, tender, juicy, excellent, very estimable, tree vigorous and productive.

Favorite, (Elliott's) medium, round, yellow marbled, carmine cheek, sweet, juicy, delicate, requires high culture to perfect its size and flavor, otherwise is inferior.

Golden Guigne, medium, round, bright golden color, honeyed sweet, tender, delicious, thin skin, beautiful, a very distinct fruit, tree vigorous, very productive, in clusters.

Governor Wood, largest size, roundish, pale yellow, marbled with carmine, half tender, sweet, juicy, rich, high flavor, very estimable.

Graffion.—Bigarreau.—Yellow Spanish. This is not a genuine Bigarreau, that title applying only to *firm and crackling* cherries. Fruit very large, obtuse heart shaped, clear yellow, pale red cheek, beautiful, tender, rich flavor, excellent, tree vigorous, very productive. This variety is greatly esteemed for its size, beauty, and abundant crops. It was introduced by William Prince, from England, under the name of Yellow Spanish.

Hovey, large, heart shape, amber nearly covered with bright red, rather firm, tender, sweet, fine flavor, tree vigorous, productive.

Jocosot, large, heart shape, shining liver color, almost black, tender, sweet, juicy, rich flavor.

Kirtland's Mary, large, roundish, light and dark, glossy red mottled on yellow, firm, sweet, juicy, rich, very high flavored.

Knight's Early Black, large, heart shape, black, tender, juicy, very rich, high flavor, excellent.

Large Black Heart, considerably larger than the common Black Heart, (which we reject,) beautiful, shining black, obtuse heart shape, tender, sweet, juicy, excellent, first quality, tree exceedingly vigorous and productive.

Logan, medium, heart shape, purplish black, rather firm, sweet, juicy, rich flavor, tree hardy, vigorous, moderately productive.

Madison, called by some Bigarreau, medium, heart shape, yellow marbled with red, half tender, sweet, fine flavor, very productive.

Mammoth, (Kirtland's) very large, but not equal in size to the Large Red Prool, yellow marbled with red, tender, sweet, juicy, fine flavor, and moderately productive.

Manning's Mottled, medium, round heart shape,

amber mottled with red, tender, sweet, good flavor, second rate, productive.

Ohio Beauty, large, heart shaped, dark and pale red marbled, tender, juicy, high flavor, tree very vigorous, productive.

Osceola, medium to large, heart shape, purplish red, nearly black, sweet, juicy, rich flavor.

Pontiac, large, heart shape, purplish red, nearly black, tender, sweet, juicy, pleasant flavor.

Powhattan, medium, roundish, bright liver colored, half tender, sweet, juicy, pleasant, not high flavor, tree vigorous, productive.

Robert's Red Heart, large, obtuse heart, bright red, excellent flavor.

Sparhawk's Honey, medium, round heart, pale amber to bright red, sweet, juicy, fine flavor, rather late, very productive.

Tecumseh, medium to large, heart shape, reddish purple, mottled, half tender, sweet, very juicy, not high flavor, hardy, late in blossoming.

Werder's Early Black, medium, roundish heart, purplish red, nearly black, tender, sweet, juicy, rich flavor.

White French Guigne, rather large, creamy white, sweet, tender, juicy, excellent, tree vigorous, very productive. White Cherries are not liable to attack from Birds, as Red and Black Cherries are.

CLASS II.—BIGARREAU CHERRIES.

Bigarreau de Mezel, very large, heart shaped, dark red, firm, sweet, excellent, beautiful, highly esteemed, growth very crooked and irregular.

Black Bigarreau of Savoy, very large, roundish heart, shining black, beautiful, firm, fine flavor, excellent, tree vigorous, productive. One of the most admired varieties.

Black Hawk, large, heart shape, deep purplish black, sweet, juicy, rich, fine flavor, estimable.

Buttner's Yellow, medium, roundish, pale yellow, firm, sweet, good flavor, late, tree vigorous.

China Bigarreau, medium, heart shape, amber, beautifully mottled with red, half tender, sweet, peculiar flavor, second rate, rather late. Grown from seed by William Prince.

Cleveland, large, roundish, bright red on yellow, juicy, rich, fine flavor, very vigorous, and very productive.

Elton, or Flesh-colored Bigarreau, large, pointed heart, pale yellow shaded red, flesh firm, becomes rather tender, rich, high flavored, excellent, one of the finest cherries in all respects.

Florence, large, heart shaped, amber, yellow marbled with red, red cheek, firm, sweet, juicy, rather late. Resembles Graffion, but later.

Holland, large, oval heart, creamy white, mottled red next sun, firm, sweet, good, not high flavor.

Keokuk, large, heart shape, dark purplish black, tender, rather coarse, deficient in flavor, does well for market, tree very vigorous.

Late Bigarreau (Kirtland's), large, obtuse heart shape, yellow, bright red cheek, firm, sweet, juicy, pleasant flavor.

Leather Stocking, medium, heart shape, deep red at maturity, very firm, sweet, good flavor, bears distant transportation, vigorous, moderately productive.

Large Heart Shaped, or Gros Cœuret, very large, heart shape, shining blackish red, firm, sweet, rich, excellent flavor, a splendid fruit, tree vigorous, productive.

Large Red Prool, Great Bigarreau of Downing, introduced by William Prince from the south of France, the largest of all Cherries, oval, heart shape, splendid, shining blackish red, flesh firm, red, very sweet, rich, excellent flavor, tree very vigorous, productive, the first of Cherries in estimation. We have disseminated this splendid Cherry for above 30 years, and other Nurseries are now beginning to cultivate it.

Napoleon, very large, heart shape, pale yellow spotted with deep red, very firm, fine flavor, scarcely first rate, rather late, tree vigorous, very productive, a suitable market fruit.

Red Jacket, large, heart shape, amber shaded with pale red, tender, juicy, good, but not of high flavor, very productive, ripens late.

Rockport, large, roundish, bright red mottled on pale yellow, firm, sweet, juicy, rich, delicious flavor, very vigorous, productive.

Tradescant's Black, or Elkhorn, large, oval heart, black, firm, leathery, not juicy, fine flavor, a very beautiful variety, ripening rather late after other kinds are scarce, well suited for distant carriage to market.

Wendell's Mottled, medium or large, obtuse heart, dark red nearly black, mottled, firm, crisp, high flavored, rather late.

CLASS III.—DUKE AND MORELLO CHERRIES.

The fruit of this class is generally round, or nearly so.

Belle de Choisy, medium, pale amber mottled with red, bright red cheek, very tender and very juicy, mild subacid, nearly sweet, moderately productive.

Carnation, creamy white, mottled with red, firmer than others of this class, partially bitter at first, then mild acid, rich, pleasant flavor, second quality, distinct Spanish variety.

De Planchoury, large, dark red, sweet, tender, juicy, estimable.

Donna Maria, medium, dark red, tender, subacid, juicy, estimable for cooking, forms a small compact tree, very productive.

Duchesse de Palluau, large, dark red, acid, tender, juicy, excellent.

Jeffrey's Duke, medium, bright red, tender, juicy, rich, fine flavor, growth slow, very compact.

Kentish, or Early Richmond, medium, full red,

acid, very juicy, fine flavor, excellent for early cooking, ripens early and hangs long free from rot.

Late Duke, large, rich, deep red, subacid, not so rich as Mayduke, ripens very late, productive.

Magnifique de Sceaux, or Belle Magnifique, quite large, rich red, mild flavor, not highest quality, productive, one of the best late varieties.

May Duke, or Holman's Duke. Three fourths of the trees sold under this name are spurious, they being a late variety. The genuine is one of the earliest Cherries, large, red, becoming nearly black at full maturity, acid, very juicy, rich, excellent and grateful flavor, very hardy and productive.

Morello, English, medium to large, dark blackish red, rich acid, slight astringency, juicy and good, very productive, growth slow, like all others of the Morello family.

Morello, Imperial, good size, round, dark purplish red, tender, juicy, rich acid, estimable, very productive,

Morello, Plumstone, large, roundish heart, deep red, rich acid flavor, juicy, excellent, very late, the Stone long and pointed. Most valuable of Morellos.

Reine Hortense, large, sprightly subacid, juicy, rich, excellent, ripens late and hangs long, moderately productive, a valuable acquisition.

Royal Duke, very large, dark red, tender, juicy, rich, excellent, rather late.

Shannon, or Kirtland's Morello, medium, globular, deep purplish red, tender, juicy, acid, ripens late.

PLUMS—PRUNUS DOMESTICA.

Usual size, 50 cents each. Extra large trees, of bearing size, 4 to 7 years, $1 to $1 50. Dwarf trees, 37 to 50 cents, according to age.

DESCRIPTIONS OF PLUMS.

Autumn Gage, medium, ovate, pale yellow, juicy, sweet, pleasant, free.

Bingham, large, deep yellow, red spots next sun, juicy, rich, delicious, handsome, productive.

Bleeker's Gage, medium, ovate, yellow, sweet, rich, luscious, free.

Bradshaw, very large and showy, oval, dark purple, juicy, good flavor, tree vigorous, erect, highly productive.

Cherry, or Early Scarlet, nearly medium, round, brilliant red, subacid, tender, juicy, melting, not rich, second rate, cling, tree vigorous, very ornamental by its early and profuse bloom. The Golden Cherry is similar in quality, but of a golden yellow color. Both varieties are free from knots on Long Island.

Coe's Golden Drop, very large, oval, pale yellow, often dotted, firm, sweet, rich, not fine grained, cling, an excellent late variety.

Columbia, very large, handsome, globular, brownish purple, blue bloom, moderately juicy, rich, good flavor, rather coarse, not first rate, free, the fruit is liable to rot, tree very productive.

Denniston's Red, medium, ovate, pale red, fawn dots, rich, good second rate flavor, free.

Denniston's Superb, medium, roundish, yellowish green, mottled with purple, not juicy, but rich, vinous, and free.

Downton Imperatrice, unusually free from the curculio, medium, oval, pale yellow, acid becoming rather sweet, melting, valuable for preserves, ripens late.

Duane's Purple, very large, oblong oval, reddish purple, lilac bloom, moderately sweet, juicy, second rate flavor, cling, esteemed for its large size and beauty, a very profitable market fruit.

Elfrey, under medium, oval, blue, firm, dry, very sweet, quite free, healthy growth, free from knots here, very productive.

Emerald Drop, medium, long oval, yellowish green, juicy, rather rich, cling, second rate.

Frost Gage, rather small, roundish, deep purple, tolerable for eating, but well suited for preserves. The tree is more subject to knots than any other variety, and we have nearly ceased to cultivate it.

General Hand, largest of plums, golden yellow, sweet, moderate, not high flavor, highly attractive for its size and beauty, tree remarkably vigorous, very productive.

Green Gage, the true variety is full medium, and not small as misrepresented, round, yellowish green, dotted red at base, sweet, melting, aromatic, exceedingly rich. The tree is so unthrifty that it has been nearly abandoned, and the Imperial Gage, a seedling from it, now takes its place almost universally.

Huling's Superb, one of the largest, roundish, yellowish green, rather firm, sweet, rich, sprightly, excellent, free, tree vigorous, large foliage.

Ickworth Imperatrice, medium, or rather large, obovate, purple, sweet, juicy, rich flavor, ripens late, becomes drier and sweeter, and keeps into winter.

Italian Damask, medium, roundish, brownish violet, firm, sweet, high flavored, estimable, free, tree vigorous, productive.

Italian Prune, or Fellemberg, a most vigorous and productive tree and unusually free from the curculio, and also free from knots. Fruit large, oblong, purple, handsome, estimable for dessert, and also for preserving, or drying.

Imperial Gage, large, oval, pale yellowish green, juicy, melting, rich, free, tree very vigorous, remarkably and regularly productive, better suited to all localities than any other variety. Always free from knots on Long Island, and less subject than most others to the attacks of the curculio.

Imperial Milan, large, oval, deep purple, sweet, juicy, estimable.

Imperial Ottoman, medium, oval, greenish yellow, marbled, sweet, very juicy, excellent, scarcely adhering, tree hardy, succeeds in Maine, exceedingly productive.

Jefferson, large, oval, greenish yellow, very juicy, rich, excellent, nearly free, one of the largest and most estimable.

Lawrence's Favorite, large, roundish, yellowish green, juicy, rich, excellent, high flavor, free.

Lombard, unusually free from the curculio, medium, ovate, violet red, pleasant flavor, not rich, but of fine quality, tree hardy, very prolific.

Long Scarlet, or Scarlet Gage, medium, oblong, yellowish red, bright red cheek, acid, juicy, rich, cling, good market fruit for preserves.

Magnum Bonum, Yellow, or Yellow Egg, very large, egg shaped, beautiful, coarse, but excellent for cooking, tree vigorous, very productive, profitable for market. The White variety differs only in being of a paler color, and the Red or Purple is so coarse it has been rejected.

Mammelonné, medium, round, greenish, red spotted, juicy, rich flavor, free.

Manning's Prune, or Long Blue, a good variety of German Prune, large, long oval, dark purple, blue bloom, firm, rather juicy, sweet, pleasant, free, very productive.

McLaughlin, medium, roundish, russet yellow, tinged over with red, rather firm, sweet, juicy, excellent.

Orange, one of the largest, oval, yellow, showy, rather coarse, tree very vigorous and highly productive, a profitable market fruit, it is free from knots on this Island.

Orleans, Early, medium, ovate, reddish purple, second rate, moderate flavor,

Orleans, Smith's, large, ovate, dark reddish purple, blue bloom, juicy, rich, nearly first rate, tree very vigorous, productive in nearly all soils, shoots reddish purple, perfectly straight.

Peach, very large, roundish, varies from salmon to brownish red, juicy, sprightly, good flavor, free, rather coarse but esteemed for its size, beauty, and early ripening, tree vigorous, productive.

Prune d'Agen, a famous variety for drying as prunes, medium, oblong, purple, blue bloom, sweet, estimable, free, very late, profusely productive.

Purple Favorite, medium, or rather large, roundish, brownish purple, tender, juicy, sweet, excellent, free, tree grows slow.

Red St. Martin, or Coe's late red, medium,

roundish, light purplish red, blue bloom, firm, rich, vinous, tree vigorous, very productive. A valuable very late variety.

Reine Claude de Bavay, ovate, greenish yellow, spotted red, rather firm, juicy, sugary, rich, excellent quality, adhering slightly, growth vigorous, very productive.

Red Gage, Prince's, medium, round, ovate, brownish red, juicy, mild sweet, rich, unusually pleasant and refreshing flavor, free, tree vigorous, dark red shoots, very productive.

Schenectady, often called Catherine, small, roundish, deep purple violet, sweet, melting, rich, excellent, growth rather slender.

Shropshire Damson, small, same size as Winter Damson, obovate, purple, first quality for preserves, cling, tree much more vigorous than the other Damson named, not so subject to knots, exceedingly productive. The Winter or Late Damson resembles this, but is very subject to knots.

Washington, very large, ovate, yellowish green with a blush, rather firm, sweet, mild, moderately rich, free, tree free of knots at Long Island.

Yellow Gage, Prince's, medium, oval, golden yellow, rich, sugary, melting, excellent, tree very vigorous and productive, and on Long Island is free from knots.

PEACHES—AMYGDALUS PERSICA.

Price, 25 cts., except where otherwise noted.

N. B.—Large quantities at very reduced prices. Trees suitable for Dwarfs or Espaliers can be supplied at 37 to 50 cts. Peaches on the Plum stock are valueless for Orchards.

SELECT PEACHES, FOR MARKET, ETC.

Admirable, Early, rather large, roundish, pale straw, marbled, with bright red next the sun, sweet, melting, rich flavor, a firm fruit, keeps well, and bears carriage, very productive.

Admirable, Yellow, very large, round, beautiful, orange color, flesh same color, pleasant Apricot flavor. A rare and estimable vatiety, ripening late in October, well suited to the South, but cannot mature north of this locality.

Barnard, Early (Alberge erroneously), rather large, deep yellow, red cheek, juicy, melting, good second rate, productive, inferior to Bergen's Yellow.

Barrington, large, regular oval, beautiful, pale straw, marbled with light red, very tender, sweet, very juicy, rich, and luscious, very estimable.

Bergen's Yellow, very large, roundish, deep orange, broad crimson cheek, juicy, rich, luscious, excellent, greatly esteemed.

Brevoort, medium, round, white, bright red cheek, sweet, rich, high flavor.

Cole's Early Red, medium, roundish, mottled red, bright red cheek, juicy, rich, fine flavor, early, very productive, white, bright scarlet cheek, melting, juicy, rich, faint acidity.

Cooledge's Favorite, medium, roundish, white, bright scarlet cheek, very melting, juicy, rich, faint acid flavor, much esteemed.

Crawford's Early (Melacoton), very large, oval, showy, yellow, red cheek, very juicy, faint acid, rich, good but moderate flavor, productive. A favorite market variety.

Crawford's Late (Melacoton), very large, roundish, splendid appearance, yellow, broad, deep red cheek, rich, juicy, vinous, good, but moderate flavor, productive. A very showy and favorite market variety.

Early Newington, of Downing (not Smith's Early Newington, which is a cling), an old variety renamed, medium size, roundish, white, marbled with red, rich, red cheek, juicy, fine rich flavor, early and valuable.

Early York, Large (also called Haines' Early, and by many other names), large, roundish, whitish, with red dots, deep red cheek, very juicy, mild, rich flavor, excellent, greatly esteemed. Originated, by William Prince, from the Red Rareripe.

Early York, Serrate (an European variety renamed), medium, roundish, ovate, greenish white, dark red cheek, tender, juicy, rich, slight acidity, very productive, early.

Early White Globe, ripens immediately after the Nutmegs, medium size, round, white, sweet, good flavor, not very juicy, a favorite and peculiar variety, differing from all others that ripen at the same period.

Fox's Seedling, rather large, round, white, red cheek, sweet, juicy, estimable, ripens late.

George IV. (a synonym, but best known under this name), large, round, whitish, dotted with red, dark red cheek, juicy, melting, rich, excellent, moderate bearer.

Grosse Mignone, a rare variety, although the *name* is in every catalogue, *large flowers,* fruit large, rounded, some rather ovate, pale yellow, mottled with red and yellow, deep velvety purplish red, and red about the stem, juicy, melting, sweet, very rich, vinous flavor, luscious, unsurpassed.

Heath Free (this is not at all similar to Ken-

rick's Heath, as many erroneously state), rather large, oval, greenish straw color, often slightly shaded with red near the stem, flesh white to the stone, juicy, tolerably sweet, subacid, not high flavored, sometimes bitterish, second rate for dessert, but makes admirable preserves.

Heath Cling, very large, oval, white, tinged red next sun, quite downy, very juicy, sweet, high, rich, excellent flavor, it must be ripened in the house in same manner as pears, and then surpasses all other peaches in flavor.

Howard's Splendid, large, oval, white, sometimes tinged with red next sun, ripens late, suited to the South.

Jacques (Rareripe), large, roundish, deep yellow, shaded with red, juicy, melting, good, second rate quality.

Large White Cling, large, round, beautiful, white, light red cheek, very juicy, sweet, rich, high flavored, delicious. It is best when ripened for 4 or 5 days in the house, which is the only proper course with all Clingstones.

Late Admirable, large, roundish, pale green, pale red cheek, marbled with darker red, juicy, delicate, excellent flavor.

La Grange, rather large, oval, white, seldom any tinge of red, juicy, rich, fine flavor, much esteemed, ripens late.

Lemon Cling, very large, splendid, oval, rich yellow, bright red cheek, high lemon flavor, rich, aromatic, excellent, makes admirable dumplings and preserves.

Nivette, or Orange Free, large, ovate, pale lemon color, sometimes a faint red cheek, juicy, melting, very sweet, luscious, rich flavor, has few or no superiors.

Noblesse, large, ovate, pale green, dull red cheek, very juicy, rich, high flavor, delicious.

Oldmixon Free, large, roundish, white marked red, dark red cheek, tender, rich, luscious, excellent, very productive, a favorite market fruit.

Oldmixon Cling, large roundish oval, yellowish white, dotted red, deep red cheek, juicy, rich, high flavor, productive.

Orange Melacoton, very large, splendid, roundish, deep yellow, broad deep red cheek, juicy, sweet, luscious, devoid of the acidity that attaches usually to yellow-fleshed peaches, a most estimable new variety.

Pavie de Pompone, or Monstrous Pompone, the largest of peaches, ovate, greenish yellow marbled with red, very dark red cheek, juicy, sweet, rich, fine flavor, requires a long summer to mature in this latitude, well suited to the South. Distinguishable by its broad foliage and vigorous growth. Flowers small. Nearly all sold under this name are spurious, and even Mr. Downing never saw the genuine, and states mistakenly that it has large flowers.

Pavie Tardive, or October Scarlet, large, ovate, beautiful, palestraw, deep red cheek, sweet, juicy, excellent, very productive. It is the most valuable of all late peaches to grow for the market, but is rarely to be met with in the nurseries.

President, rather large, ovate, white, dull red cheek, very juicy, luscious, fine flavor.

Prince's Excelsior, very large, round, splendid, entirely bright orange color, flesh golden yellow to the stone, parts freely, sweet, very juicy, extra rich, delicious, exquisite orange flavor, none superior, a remarkable acquisition, ripens middle of October, well suited to the South.

Prince's Paragon, large, showy, oval, pale yellow, slightly red shaded cheek, juicy, rich, luscious, fine flavor. An erroneous variety is often sold under this name.

Rareripe, Golden, large, yellow, red cheek, juicy, rich, good flavor, handsome.

Rareripe, Red, or Morris' Red, rather large, white, dark red cheek, juicy, rich, high flavored, excellent.

Rareripe, Prince's Late Red, large down to medium, roundish, pale yellow, partially reddened next sun, sweet, juicy, rich, very luscious, first quality.

Rareripe, White, or Morris' White, medium, roundish, white, sometimes purple tinge on cheek, juicy, melting, rich flavor, much esteemed.

Rareripe, Yellow (Yellow, Alberge of some), large, roundish oval, deep orange, rich red cheek, mealy, without juice until fully ripe, then sweet, juicy, rich, good flavor, second rate.

Red Cheek Melacoton, large, ovate, yellow, deep red cheek, juicy, rich, luscious flavor, very productive, estimable for market.

Scott's Magnate (Rareripe), very large, splendid, roundish, oblate, whitish, deep red cheek, flesh white, juicy, excellent, a new and very beautiful variety.

Scott's Nectar (Rareripe), large, roundish, whitish, bright red cheek, flesh white, very sweet, delicious flavor, a beautiful and excellent new variety.

Scott's Nonpareil, large, roundish, deep yellow, red cheek, flesh yellow, sweet, juicy, and fine flavor, resembles Crawford's Late, but far superior in quality.

Strawberry, medium, oval, mostly marbled with deep red, melting, rich fine flavor, early.

Stump the World, large, ovate, white, red cheek, juicy, rich, fine flavor, productive, a favorite market fruit.

Van Zant's Superb, medium, oval, white beautifully mottled with red, sweet, juicy, fine flavor. A spurious *round* variety is almost universally disseminated by this name.

White Blossom Incomparable, rather large, oval, entirely white, juicy, good, with moderate flavor; Flowers white, large. The *Snow* peach is inferior to this, and is distinguished by its small flowers.

NECTARINES—AMYGDALUS NECTARINA.

Price 37½ cents except those *noted.*

C denotes Clingstones—all others are Freestones.

27 St. Ambroise, 75 cts.
28 Turkey.
29 Viard, $1.

SELECT APRICOTS.

Alsace, very large, juicy, rich, excellent; tree vigorous and hardy.

Black or Purple, round, medium size, purple, juicy, pleasant; a native of Siberia, very hardy, ripe in August.

Breda, small, round, deep orange and red, fair second quality, very productive, one of the most hardy, early in August.

Early Golden, very similar in size and quality to the above, and probably a seedling from it, hardy and very productive; middle July.

Early Peach, large, yellow and red, rich, high flavored—August.

Kaisha, medium, sweet, juicy, pleasant flavor flesh transparent; early in August.

Lafayette, very large equal to a medium sized

peach, oblong, orange and red, rich, high flavored, delicious, the most splendid of all. An American seedling.

Large Early, large, oval, yellow and red, juicy, good flavored, very vigorous, very productive, one of the most reliable for crops; early in August.

Large Early Red, large, roundish, deep yellow, juicy, rich flavor; tree vigorous and hardy.

Large Peach, very large, roundish, yellow, red cheek, juicy, rich flavor, one of the finest; tree very vigorous, very distinct from the Moorpark. August.

Moorpark, large, roundish, yellow, red cheek, sweet, juicy, rich, excellent; tree very productive. August.

Orange, medium, spherical, orange color, good second quality, slightly acid, excellent for tarts and preserves; tree vigorous.

Red Masculine, earliest of all, medium size, roundish, yellow and red, good second quality, very productive; tree vigorous. Early in July.

Roman, large, sweet, good, but rather dry, useful for tarts and preserves; tree vigorous, hardy, and very productive.

Royal, large, oval, orange, juicy, rich, excellent flavor; tree vigorous and hardy. End of July.

St. Ambroise, large, juicy, pleasant flavor, one of the finest early varieties.

Viard, large, juicy, rich, excellent; tree hardy, vigorous, productive.

ALMONDS.

Those marked thus (†) are 37 cts. and the others 50 cts.

N. B. Sweet Almonds, for Orchards, $25 per 100.

1 †Sweet hard shell, *most hardy.*
2 Ladies' thin shell (*for the South*).
3 Pistachia (*for the South*).
4 Sultan (*for the South*).
5 Long hard shell.
6 Soft shell.
7 †Great fruited, *Macrocarpa, or Languedoc. most hardy.*

ORNAMENTAL VARIETIES.

8 Large double blush flowering.
9 Dwarf double red, 25 cts.
10 Chinese double white, $1.

QUINCES.

No. 1 is at maturity in Sept. and Oct., and the others in Oct. and Nov. Nos. 4 and 5 will keep well till January.

	Price—Cts.
1 Orange or Apple, *very large, excellent for preserves, very productive,*	25
2 Pear shaped	30 to 35
3 Portugal, *very large and fine*	35
4 Winter Pear shaped	38
5 Anger's Orange, *large*	25 to 38
6 Constantinople, *very large and estimable*	$1 00
7 Musk, or French Apple shaped, *large, fine*	50
8 Chinese scarlet flowering, fine foliage, *very large fruit*	37 to 50

N. B. Extra large sized Trees, 7 years old, in a bearing state, at $1 each, and smaller sizes by the 100 or 1,000, at low rates.

Note. The *Japan Quince—Pyrus Japonica,* of different varieties, will be found under head of Ornamental Shrubs; and Quince Stocks for ingrafting Pears, will be found under the appropriate head.

MULBERRIES.

	Cents.
1 Black English or Chinese, *very acid, tree tender,*	50 to 75
2 Red American, *excellent fruit*	38 to 50
3 Black Circassian, *sweet fruit, very hardy*	50
4 Multicaulis, *good sweet fruit*	25
5 Alpine, or Moretti, *black fruit*	25
6 White Italian	25
7 Lhou Chinese, *new and rare*	$1 00
8 Paper Mulberry. (See Ornamental Trees.)	

N. B. Mulberries for Silk Culture, by the 1,000, at low rates.

WALNUTS, CHESTNUTS, AND FILBERTS.

	Price.
1 Madeira Nut, (English Walnut)	37 to 50
2 Madeira Nut, *extra large size*	$1 00
3 ——— Prolific Dwarf	$1 00
4 Pecannut	50
5 Shell bark Hickory, or Kiskytom	37 to 50
6 Black Walnut, round	38
7 Butternut, oblong	38
8 American Chestnut	25 to 38
9 Spanish or Lisbon Chestnut	50
10 French Chestnut, *very large fruit*	50
11 Maron de Lyon Chestnut, *very large fruit*	50 to 100
12 Prolific Chestnut, or Maron	50
13 Downton Chestnut	50
14 Chinquapin, or Dwarf Chestnut	50
15 Prince's do., *large fruit*	$1 00
16 Red Filbert	25
17 White do	25
18 Spanish do. or Large Cobnut	25
19 Barcelona Filbert	25
20 Prolific do. or Cobnut	35
21 Cosford do. *thin shell*	38
22 Frizzled do	38
23 Cobourg do	38
24 Purple leaved do., *ornamental*	50
25 Constantinople Filbert, *a large tree,*	50
26 American Hazlenut	15
27 Cuckold do	25

N. B. Extra large Trees of the five preceding kinds, 7 to 13 feet, $1 to $2.

MEDLARS, PERSIMONS, PAPAW, SHEPHARDIA AND NANDINA.

	Price.
1 Dutch Medlar	50
2 Nottingham do. *small fruit*	50
3 Seedless do	50
4 Monstrous fruited do	50
5 Japan Medlar, or Loquat, *splendid evergreen foliage, fruit in clusters*	$1 50
6 Diospyros kaki, Chinese Medlar	1 50
7 American Persimon	25
8 American Persimon, *extra large trees*	$1 00
9 European Date Plum, or Lotus	50
10 Pierquin do	1 00
11 Smooth Papaw, *Custard apple*	50
12 Shephardia argentea—Buffalo berry	50
13 Nandina domestica—Chinese Nandina	75

SELECT FIGS—FIGUIERS.

The culture of this delicious fruit has recently become an object of particular attention, and the Trees require no more care or protection in winter than the delicate kinds of Grapes, and can be grown at Baltimore, and South of it, in any quantities for market; and we may soon expect the markets of New York and other Northern cities to be supplied from the more Southern localities. The Trees are exceedingly productive and produce two regular crops in a season. We have rejected a number of varieties, such as Cyprée, Clementine, &c., which have been found the least worthy of culture.

Those marked ‡, 50 cents. Those not marked are 75 cents. By the hundred, a discount of one-third in price will be made; and where 25 are taken, 25 per cent. discount.

1 Adam's Fig, *enormous size,* $2.
2 ‡Angelique.
3 ‡Black St. Michael, *delicious, great bearer.*
4 ‡Bonne Dame, *early.*
5 ‡Bourjasotte grise.

POMEGRANATES—GRENADIERS.

This fruit requires in this latitude that the trees should be well bound with straw, or have a temporary frame of boards over them. All produce fruit except the double flowering varieties.

1 Fruit bearing	$0 50	11 Double white flowering	75
2 Large Malta	1 00	12 Yellow flowering do., with yellow fruit	75
3 Algiers Sweet fruited	1 50	13 Double yellow flowering	1 00
4 Spanish	1 50	14 Dwarf profuse do	50
5 Desportes, or Hybrida	1 50	15 Large seedless	1 50
6 Provence	1 50	16 Chinese double variegated, scarlet and white, large and splendid	1 50
7 Double crimson	50	17 Desfontaines, *fine fruit*	1 50
8 Royal double crimson	1 00		
9 Prolific	1 50		
10 White flowering and fruited	75		

EUROPEAN OLIVE—OLEA EUROPEA.

Four fine varieties, each $2.

GRAPES—VIGNES.

Our collection of Foreign Table Grapes is remarkably select, and comprises only the most approved varieties. We recommend J. F. Allen's "Practical Treatise on the Grape Culture" to all Amateurs.

N. B. The prices of Vines will in all cases be as low or lower than any other Nursery. (For prices of Cuttings see an after page.)

FOREIGN VARIETIES.

Vines of one year, grown in pots, 50 cents; and 2 years, 75 cents. $4 to $6 per dozen.
N. B. Extra Large Plants, selected, $1 each.

CHASSELAS GRAPES.

1 Bar sur Aube.
Child's Superb, of Utica.
2 Chasselas à longue grappes, 75 cents,
3 Blanc précoce de Kienzheim.
4 Blussard Blanc, 75 cts.
5 Cioutat, or Austrian.
6 Chasselas Musqué.
Joslyn's St. Albans.
7 De Pondicherry, 75 cts.
9 Early White Malvasia.
Early White Muscadine.
10 Gros Coulard (*Froc Laboulaie*) early, 75 cts.
11 Golden Chasselas.
Chasselas de Fontainbleau.
Chasselas de Paris.
12 Tokay des Jardins.
13 Rose or Red Chasselas.
14 Royal Red Chasselas.
Purple, or Violet Chasselas.
15 Royal Muscadine.
16 White Sweetwater.
White Chasselas.

FRONTIGNAN AND OTHER MUSCAT GRAPES.

17 August Muscat, *very early.*
18 Black Frontignan.
19 Canon Hall Muscat.
20 Early Rhenish Muscat.
Petit Rauschling.
21 Early Muscat, Wilmot's.
23 Early Black Muscat, 75 cts.

125 Graham	1 00	149 California Grapes, 6 varieties, each	1 00

CLASS I.—FOREIGN GRAPES.

Aleppo, Striped, medium, round, large cluster, berries white, black, and half of each color on the same cluster, sweet, sprightly flavor, very productive, hardy, of easy culture.

Austrian Muscat, deemed to be the earliest of grapes, small, black, ovate or roundish, musky, good flavor, the vine of weak growth.

Barbarosa, large, round, purple, large cluster, good flavor, not rich, hangs long on the vine, estimable.

Black Burgundy, or Black Cluster, small ovate, pleasant sprightly flavor, cluster small and very compact, early, hardy, suited to open culture.

Black Hamburg, very large, roundish, large clusters, much shouldered, sweet, rich, first quality, very productive, a most popular variety, universally cultivated in Grape-houses and otherwise.

Black Morocco, large oval, dark red or violet, large cluster, sweet, good flavor.

Black Prince, large, ovate, long cluster often shouldered, sweet, rich, productive, excellent quality.

Black Portugal or Ferrar, medium, oval, handsome, large compact cluster, crisp peculiar cherry-like flavor, much esteemed by many and contrary-wise by others.

Black Prolific, large, round, large cluster, sweet, good, very productive, ripens irregularly.

Black Lombardy, large, ovate, large cluster, sweet, sprightly flavor, excellent quality; one of the best.

Black St. Peter's, large, roundish, long cluster, first quality, ripens late, hangs long after maturity, requires powerful heat.

Bowker, an American Seedling, large, white, ovate, large cluster, as handsome as white Hamburg and of better quality, pleasant flavor, very productive.

Chaptal, large, ovate, white, very large cluster, sweet, excellent, very productive.

Chasselas Golden, or Fontainbleau, large, round, pale amber, sweet, very juicy, refreshing, excellent, very productive in vineries or against walls, a general favorite, and more extensively cultivated than any other variety.

Chasselas Bar sur Aube, large, round, pale amber, splendid, large long clusters, sweet, juicy, excellent. This is probably the best of all the white Chasselas varieties, but is much more rarely met with. It is one of the earliest of its class.

Chasselas Rose or Red, large, round, pale red, sweet, good flavor, very productive.

Chasselas Musquée, medium, round, pale amber, very rich, high musk flavor, excellent.

Constantia of Zante, medium, oval, greenish white, sweet, productive.

Decandolle, large, round, purple, beautiful, very large cluster, sweet, good quality, very productive; requires powerful heat to mature well.

Deccan's Superb, large, oval, amber, beautiful, large cluster, requires great heat to ripen perfectly.

Early Black July, earliest of all, small, round, black, small compact cluster, pleasant sprightly flavor, productive.

Esperione, small, round, dark purple, very large cluster, sprightly flavor, third quality; the vine hardy, vigorous growth, very productive, and suited to outdoor culture.

Early White Malvasia, or Early White Muscadine, medium, round, pale amber, similar in quality to the Golden Chasselas, but ripens ten days earlier. It is so hardy that it will fruit well under outdoor culture.

Frontignan, Black, medium, round, long cluster, rich, musky, excellent, productive, early.

Frontignan, Grizzly, medium, round, gray, becoming red at maturity, medium sized cluster, rich musky flavor, excellent, first quality, early, very productive.

Frontignan, White, medium, round, pale amber, rather large cluster, sweet, musk flavor, excellent, ripens rather early with the Chasselas varieties, vine hardy, productive, and may be grown under open culture in this latitude.

Gros Coulard, large and beautiful, white, delicious flavor, first quality—an early variety of Chasselas.

Lombardy, or Flamed Tokay, round, bright red, sweet, medium flavor, second quality, very large cluster, very productive.

Macready's Early White, large, oval, beautiful, thin skin, very juicy, excellent flavor, hardy, productive.

Miller's Burgundy, this fruit is same in quality and the plants equally hardy as the Black Cluster, but is distinguished by the white down on its foliage.

Mill Hill Hamburg, large, purple, excellent flavor, ripens a month after Black Hamburg, requires heat.

Muscadé Verdal, medium size, musky, rich purple, good flavor.

Palestine, Raisin de, small, oval, white, enormous cluster, much branched, berries scattering, pleasant flavor.

Pitmaston White Cluster, medium, round, compact cluster of medium size, sweet, fine flavor, estimable, quite early.

Portien noir, large, roundish, black, very handsome, peculiar flavor, much esteemed, very late.

Prince Albert, large, ovate, black, large shouldered cluster, handsome, good flavor, ripens late.

Regnier de Nice (*erroneously Reine or Queen of Nice*), large, oval, white, shaded with rose color, very beautiful, large cluster, fine flavor.

Red Traminer, small, roundish, rose color, compact cluster, sweet, aromatic, pleasant for dessert, very productive. An esteemed Wine grape in Burgundy, and much extolled in Ohio.

Raisin de Calabre, large, round, white, large cluster, juicy, rich, musky flavor, excellent, valuable for hanging late.

Royal Muscadine. In size, color, flavor, and excellence, this corresponds exactly with the Golden and Bar sur Aube Chasselas, but in the size of the cluster it is very distinct, and often weighs 4 to 6 pounds.

Syrian White, very large, oval, immense cluster, firm, and when allowed to hang until fully matured, is very good, requires powerful heat to perfect its fruit.

Tokay des Jardins, a beautiful variety of Chasselas, small, rose colored, very sweet, rich Chasselas flavored berries, very estimable.

Verdelho, a Madeira grape, small, oval, white, finest quality, a great favorite, vine of strong growth, very productive.

Victoria Hamburg, closely resembles the Black Hamburg, but appears to be an improved variety.

Wilmot's Black Hamburg, very large, round, compressed, very black, quality variable, often fine. It must hang long after coloring in order to mature the fruit.

White Bual, pale amber, obovate, compact cluster, good flavor, ripens late.

White Corinth. This is not the Sultana; it is a small, white, seedless grape, in compact clusters, very beautiful, sweet, and very pleasant flavor.

White Gascoigne, large, ovate, large compact cluster, shouldered, fine flavor.

White Hamburg, large, oval, very handsome, large cluster, good second quality in flavor.

White Muscat of Alexandria, large, oval, pale amber, long loose branching cluster, crisp, sweet, highest aromatic musky flavor, ripens late. A most exquisite fruit. Cannon Hall Muscat is a variety of this, and the Tottenham Park and Portuguese Muscats greatly resemble it.

White Riessling, small, compact cluster, sweet, pleasant flavor, very productive, a celebrated Rhenish wine grape, and of easy outdoor culture here—being very hardy.

White Sweetwater, or Chasselas Blanc, medium, round, loose cluster, sweet, good flavor, estimable, but secondary to others of the same class.

White Tokay, medium, ovate, compact cluster, moderate size, sweet, perfumed, in flavor similar to the Golden Chasselas, much esteemed, hardy, productive, and suited to open culture.

Xeres, or White Nice, small, medium, round, monstrous shouldered loose cluster, sweet, agreeable, not rich, vine of strong growth, requires heat to mature well, very productive.

Zinfardel (erroneously Zinfindal), medium, round, black, with a thick bloom, large, double shouldered cluster, requires to hang long after coloring to perfect its maturity. Introduced by the late George Gibbs, of Long Island, from Germany.

CLASS II.—NATIVE HARDY GRAPES.

Alexander, medium, round, black, prolific, sweet, juicy, slight musk flavor, a good wine grape, only tolerable for eating. It is also known as the Schuylkill Muscadel.

Amber Catawba, a beautiful seedling variety of the Catawba, pale color, same size, ripens 2 or 3 weeks earlier, sweet, slight musky aroma, mild, pleasant flavor, very estimable.

August Coral, medium, red, sweet, very pleasant flavor, thick skin, very hardy, will succeed in Maine, very productive, ripe in August. A new variety.

Bland, large, round, pale red, juicy, sweet, very pleasant flavor. *It has no pulp whatever,* is an excellent table fruit, and makes a mild but not strong wine.—The genuine can scarcely be found in any Nursery in the Union; the Catawba has been almost invariably substituted for it.

Catawba, well known to every one as an excellent table and wine grape, rather late in ripening for the New England climate. It is grown very extensively for the markets as a table fruit, and in Ohio and other western States, vineyards exist covering some thousands of acres.

Clinton, small or medium, round, black, small compact cluster, juicy, moderately sweet, fair quality, ripe two weeks before Isabella, exceedingly productive, and sufficiently hardy for any of the northern States.

Concord, large, round, black, with a bloom, rather musky, very juicy, pleasant flavor, very hardy.

Delaware, medium or small, round, bright red, sweet, delicate flavor, delicious—the climax in flavor of all northern native grapes—very productive, hardy.

Diana, large, round, red, compact cluster, sweet, pleasant flavor, two weeks earlier than the Catawba, and valuable in localities where that does not mature its fruit.

Early Isabella, a new variety, in appearance precisely like the common Isabella, but ripens full 10 or 12 days earlier, which alone distinguishes it.

Elsingburg, small, black, blue bloom, sweet, juicy, excellent, large cluster, very hardy, vigorous growth, productive.

Isabella, so well known, no description is needed. It is well suited for market as a table fruit, and may also be grown advantageously for wine.

Missouri, small, round, black, sweet, pleasant, but little pulp, good for table and for wine; growth slow, moderately productive.

Norton's Virginia, a Virginian variety, bunch long, fruit small, round, dark purple, vinous, not much juice, somewhat pulpy, rather harsh, but pleasant, rich, and deep colored; vine vigorous, very hardy, and exceedingly productive.

Pond's Seedling, small, round, blue, long cluster, fair quality, very hardy.

Scuppernong, White, rather large, round, white, without pulp, very sweet, finely flavored for table, and very estimable for wine, the aroma of which surpasses all imported wines. A traveled ignoramus says this vine is a native of Greece. It covers naturally a region of our Country more than twenty times the extent of Greece, and no similar plant was ever found in the Eastern Hemisphere.

Shurtleff's Seedling, round, black, loose cluster, good flavor; the vine grows slowly, and is only a moderate bearer.

Sumpter, or Le Noir, small, round, dark purple, large cluster, sweet, juicy, free from pulp, excellent for table, good for wine. A native of S. Carolina, and assimilates to several other varieties found at the South. Not a seedling of any European grape.

Warren (Ohio, of Longworth). This is often called at the South "*Jack Grape.*" It was sent to N. Longworth, of Cincinnati, and mystified. It is a Georgian variety, received by us from Warren County in that State, about 20 years ago. Cluster large, long loose shouldered, berries small, round, purple, blue bloom, thin skin, tender, sweet, juicy, excellent, free of pulp, few seeds, growth slow when young, then very strong, large, pale peculiar foliage, very productive. It matures its fruit well in this latitude.

N. B. The Charter Oak is the old Red Fox grape, a downright humbug; the Hartford Prolific is nearly as bad, and the Northern Muscadine is very inferior and has been condemned by several Horticultural Societies. The Sage grape is another miserable native, palmed upon the public as of superior excellence. The silly dupes who have paid one to five dollars each for such trash, could have had Grape Vines of approved excellence for 50 cents.

RASPBERRIES—FRAMBOISIERS.

All the varieties are red except those designated otherwise, and all are ripe in July except the Twice Bearing kinds, which produce a second crop in September or October. The leading kinds will be supplied at reduced rates by the hundred or thousand.

	Each.	Dozen.

DESCRIPTIONS OF RASPBERRIES.

American Red, ignorantly called "English Red" by some, red, medium size, excellent flavor, very productive perfectly hardy, never injured by the winter.

American White, similar to the Black Cap, in quality, and only varying in color, very hardy.

Antwerp, Large, dark red; fine flavor, very productive, makes admirable preserves, bears carriage, requires winter covering.

Antwerp, Large yellow, fine flavor, excellent, very productive, requires winter covering.

Antwerp, Red, of Hudson River, a much weaker plant than the genuine above named, fruit large, fine flavor, bears carriage to market, requires winter covering.

Cushing, resembles Red Antwerp, large red, fine flavor, productive, requires winter covering. It sometimes produces a second crop in October on the shoots grown during the summer.

Fastolf, red, very large, fine flavor, very productive, requires winter covering during the severest winters.

Franconia, dark red, large, good flavor, very productive, the most hardy of the European kinds, and will usually stand without winter covering.

French, red, good flavor, productive, vigorous but needs winter covering.

Knevett's Giant, red, large, fine flavor, growth remarkably vigorous, one of the most hardy.

Magnum Bonum, yellow, medium size, excellent flavor, in clusters, vigorous, very hardy, seldom requires winter covering.

Large Monthly (Rivers), bright red, large, good flavor, produces a second crop in October.

Orange (Brinckle), buff color, good size, fine flavor, vigorous, one of the most hardy. We have no perfectly hardy variety derived from European parentage, and will not have, until the stupidity of propagating from tender foreign varieties in preference to American hardy varieties ceases to have influence.

White Smooth Cane, large, yellow, fine flavor, productive, the stalks almost spineless.

Prince's Fastolf Seedling, this closely resembles the Fastolf, its parent, but appears to be much more hardy and reliable.

Salmon Berry, California, large, fine fruit, very productive; it appears to be very hardy in this climate.

CURRANTS—GROSEILLERS A GRAPPES.

When wanted by the hundred or thousand, they will be supplied at reduced rates.
Extra large-sized bushes, four years' old, can be supplied at a reasonable price.

	Each.	Dozen.

9 Cowslip, Red and Yellow	75
10 Vinca, Green, and Variegated-leaved	50
11 Bush Alpine Strawberry, Red and White	50

SCIONS AND CUTTINGS.

Scions of all kinds of Fruit Trees, suitable for grafting, will be supplied when 40 or more kinds are ordered, more or less of each, as convenient to us, at 25 cents per parcel, or at 50 cents per dozen of each variety where the price of a tree does not exceed that sum (50 cents); but where it does, the same price will be charged for the dozen scions, or for a parcel where the kind is very rare, as for a tree of the same kind. When a large number of scions are wanted, of the leading varieties, they will be supplied at $1 50 per 100, or at the following rates per 1000, all correctly *labeled:* Apples, $5, Pears, $6, Cherries, $6, Plums, $10.

Scions of Anger's Quince, for budding Pears on, $1 50 per 100, and $10 per 1000, and Scions of Currants, Gooseberries, Raspberries, Berberries, Mulberries, Poplars, Willows, Altheas, Roses, and of all other Trees and Shrubs that will grow from cuttings, $2 50 per 100 and $20 per 1000, and Figs and Pomegranates $5 to $8 per 100; but no quantity is sent amounting to less than the price of a Tree or Shrub of the same kind. Scions of the six finest species of Osiers, most celebrated for baskets, &c., $1 per 100 and $2 to $5 per 1000. It is better that such orders be sent in the fall or winter, and the scions can be forwarded by express if so ordered.

Scions of Grapes, of a number of the finest Foreign kinds, can be supplied if applied for in season, at from $6 to $8 per 100, or in less quantities; but in no case will scions of any variety be sent to a less amount than the price of a vine; and of the very rare varieties three scions, and of others six scions of any one variety will be considered equivalent in value to a vine. Scions of Isabella, Catawba, Alexander, Clinton, and several other varieties of Grapes, $10 to $15 per 1000.

STOCKS FOR FRUIT TREES.

	PER 100.	PER 1000.

11 Anger's Quince Cuttings, *true, with directions to insure success*	1 50	10

ORANGE, LEMON, CITRON, SHADDOCK, and LIME TREES, and all other GREEN HOUSE TREES and PLANTS, can be supplied at reasonable rates.

CORRECTIONS.

Grapes, page 26—" Child's Superb of Utica," should be a synonym of 56, Deccan's Superb, and not of No. 1, Bar sur Aube.

Raspberries, page 30.—Catawissa, should not be a synonym of Ohio Everbearing—it being a distinct and estimable Red American Everbearing—a variety of No. 1.

Ornamental Department.

SELECT DECIDUOUS ORNAMENTAL TREES.

The following comprise a *Select Assortment* of the most beautiful and estimable species, which our long experience has enabled us to arrange with precision. The inferior species we have omitted.

We have divided them into four classes. The first class comprises those of majestic growth, which attain great stature and ample development; the second class, those which attain a medium size; the third class, those of low stature; and the fourth class, such as are comparatively of slow growth, requiring a long period before they attain the size of a small tree, and which, therefore, it would be more appropriate, in ornamenting grounds, to rank among large Shrubs.

The prices stated are for trees of fair size; but where extra large-sized trees are desired for Streets, Avenues, &c., in order to impart immediate ornament, such can be supplied at proportionate rates, and varying in height from ten to twenty feet, of many of the most estimable species.

Botanical Name.	Common Name.	Class.	Price.
1 Acacia Julibrissin	Sensitive tree	4	$1 00
Acer.	**Maple.**		
2 Acer dasycarpum	Silvery leaved	1	50
	Silvery do extra size, 12 to 14 feet.	1	1 00
3 Acer macrophyllum	Oregon	1	50
4 Acer platanoides	Norway	1	50
5 Acer variegata	Silver striped leaved	3	1 00
6 Acer rubrum	Scarlet flowering	2	38
7 Acer saccharinum	Sugar, Hard, or Rock	1	50
8 Acer striatum, and 8 other species	Striped bark	2	50
9 Acer pseudoplatanus	European Sycamore	1	50
10 Acer argen, varieg	Striped leaved do	4	75
Æsculus.	**Horse Chestnut.**		
11 Aesculus flava	Yellow flowering	2	50
12 Aesculus glabra	Green do	2	50
13 Aesculus hippocastanum	White do	1	50
14 Aesculus flore pleno	Double do *splendid*	2	1 50
15 Aesculus pavia	Scarlet do	4	75
16 Aesculus rubicunda	Coral, or Reddish colored	2	1 00
17 Aesculus pallida, dark glossy foliage, holds late, pale yellow flowers	Ohio Buckeye	1	50
18 **Ailanthus** glandulosa	**Ailanthus,** Chinese	1	50
19 **Alnus** incana	**Alder,** European hoary	1	50
20 Alnus lasciniata	Alder, Cut leaved	2	75
21 **Amygdalus**	**Almond,** Flowering (See page 24.)		
22 Amygdalus	**Peach,** Flowering, (See page 21.)		
23 **Aralia** spinosa	**Prickly Ash,** or Hercules' club	2	38
24 Aralia japonica	Japan do., unique and showy	2	75
25 **Betula** alba	**Birch,** Scotch drooping	1	50
26 Betula laciniate	Birch, Cutleaved	3	1 00
27 **Broussonetia** papyrifera	**Paper Mulberry**	2	50
28 **Carya**	**Hickory Nut.** (See page 25.)		
29 **Castanea**	**Chestnut.** (See page 25.)		
30 **Catalpa** syringæfolia	**Catalpa,** Variegated flowers	1	38
31 Catalpa Daytoni	Catalpa Dayton, new	1	75
32 Catalpa Bungeana	Catalpa, Japan, *beautiful*	2	1 00
33 Catalpa Kempferii	Catalpa, Kempfer's Japan, new	2	1 00
34 Cerasus	**Cherry,** Double Flowering. (See page 15).		
35 Cerasus padus	Cherry, European Bird, beautiful	3	50
36 **Cercis** canadensis	**Judas tree,** American	2	50
37 Cercis siliquastrum	Judas tree, European	4	50
38 Cercis *album*	Judas tree, White flowering	4	1 00
39 Cercis Californica	Judas tree, Californian red	2	1 00
40 **Chionanthus** virginica	**Fringe tree,** White	3	50
41 Chionanthas maritima	Fringe tree, Carolina	3	50

Botanical Name.	Common Name.	Class.	Price.
42 **Cornus** florida	**Dogwood,** White flowering	2	25
43 **Cratægus**	**Hawthorn.** (See Shrubs.)		
44 **Cytisus** laburnum	**Laburnum,** or Golden chain	3	50
45 Cytisus alpinum	Laburnum, Scotch broadleaved	3	50
46 Cytisus grandiflorum	Laburnum, Large flowering	3	50
47 Cytisus purpureum	Laburnum, Purple flowering	3	50
48 Cytisus pendulum	Laburnum, Weeping yellow	3	1 50
49 **Diospyros**	**Persimon.** (See page 25).		
50 **Fagus** ferruginea	**Beech,** American	1	50
51 Fagus sylvatica	Beech, European	2	38
52 Fagus *purpurea*	Beech, Purpleleaved	2	1 00
53 Fagus *pendula*	Beech, Weeping, 2 varieties	2	1 50
54 **Fraxinus** acuminate	**Ash,** American White	1	38
55 Fraxinus atrovirens crispa	Ash, Curl-leaved	3	75
56 Fraxinus aurea	Ash, Gold bark	2	75
57 Fraxinus aurea pendula	Ash, Weeping gold bark	2	1 50
58 Fraxinus excelsior	Ash, European, rapid growth	1	25
59 Fraxinus do pendula	Ash, European Weeping	2	1 00
60 Fraxinus lentiscifolia do	Ash, Asiatic Weeping	2	1 50
61 Fraxinus platycarpa	Ash, Carolina	2	50
62 Fraxinus pubescens	Ash, Pubescent	1	50
63 Fraxinus sambucifolia	Ash, Black	1	50
64 Fraxinus viridis	Ash, Green	3	50
65 **Gleditschia** triacanthos	**Honey Locust**	1	38
66 Gleditschia sinensis	Chinese do	2	50
67 **Gymnocladus** canadensis	**Kentucky Coffee**	2	50
68 **Halesia.** (See Shrubs).			
69 **Juglans**	**Walnut.** (See page 25).		
70 **Kœlreuteria** paniculata	**Kœlreuteria,** Japan panicled	3	50
71 **Larix** europea	**Larch,** European Drooping	1	50
72 Larix *pendula*	Larch, Weeping	3	
73 Larix Microcarpa	Larch, American		38
74 **Laurus** sassafras	**Sassafras**	2	25
75 **Liquidamber** styraciflua	Sweet Gum, Mapleleaved	1	50
76 **Liriodendron** tulipifera	Tulip tree, or Whitewood	1	50
77 Maclura aurantiaca	**Osage Orange,** male and female	2	50
78 Magnolia acuminata	Magnolia, Blue flowering	1	50
79 Magnolia auriculata	Magnolia, Auriculate white fragrant.	2	2 00
80 Magnolia conspicua	Magnolia, Chinese splendid White..	3	2 00
	Ditto, Large and splendid trees 6 to 10 feet		$5 to 10 00
81 Magnolia *Alexandrina*	Magnolia, Alexandrian, Crimson striped	3	2 00
82 Magnolia *Fischeri*	Magnolia, Fischer's	3	5 00
83 Magnolia *Norbertiana*	Magnolia, Norbert's deep-striped	3	2 00
84 Magnolia *Soulangiana*	Magnolia, Soulange's Pink striped	3	2 00
85 Magnolia *Speciosa,* or *Striata*	Magnolia, Splendid-striped	3	2 00
86 Magnolia *Superba*	Magnolia, Superb striped	3	2 00
87 Magnolia cordata	Magnolia, Yellow twice-flowering	2	2 00
88 Magnolia glauca	Magnolia, Glaucous Fragrant	3	50
89 Magnolia longifolia	Magnolia, Long-leaved Glaucous	2	75
90 Magnolia macrophylla	Magnolia, Largest flowered, white, crimson center	2	$1 to 2 00
	Ditto, Large and splendid trees, 6 to 10 feet		$3 to 6 00
91 Magnolia tripetela	Magnolia, Umbrella-leaved	2	50
N. B. Extra large Magnolia trees at proportionate prices.			
N. B. For other Magnolias, see Flowering Shrubs, and Evergreens.			
92 **Melia** azederach	**Pride of India**	2	1 00
93 **Negundo** fraxinifolia	**Negundo,** Ash leaved	2	38
94 Negundo violacea	Negundo, Californian Violet	2	1 00
95 **Ornus** europeus	**Ornus,** or White fringe	2	50
96 Ornus latifolia	Ornus, Broadleaved Fringe	2	1 00
97 Ornus rotundifolia	Ornus, Roundleaved do	2	1 00
98 **Paulownia** imperialis	**Paulownia,** Imperial	2	75
99 **Platanus** occidentalis	**Buttonwood, or Sycamore**	1	38
100 Platanus orientalis	**Oriental** Plane	1	50
101 Platanus Californica	**Californian** Plane	1	1 00

	Botanical Name.	Common Name.	Class.	Price.
102	**Populus** auriplia	**Abele,** Snowy Mapleleaved	1	50
103	Populus balsamifera	**Poplar,** Balsam, or Tacmahac	1	38
104	Populus fastigiata	Poplar, Lombardy	1	50
105	Populus græca	Poplar, Athenian	1	50
106	Populus grandidentata	Poplar, Great Dentated	1	50
107	Populus lævigata	Poplar, Cotton tree	1	50
108	Populus tremula	Poplar, European Aspen	1	50
109	Populus tremula-pendula	Poplar, Weeping do	2	1 00
110	**Prunus**	**Plum, Double flowering.** (See page 6.)		
111	**Pyrus** americana	**Mountain Ash,** American	2	50
112	Pyrus aucuparia	Mountain Ash, European,	2	50
112	Pyrus *fructu aurea*	Mountain Ash, Golden fruited	2	50
113	Pyrus *pendula*	Mountain Ash, Weeping	2	75
114	Pyrus Domestica	**Service tree, or Sorb**	2	50
		Apple, Double flowering. (See page 3.)		
		Pear, do do (See page 10.)		
115	**Quercus** Cerris	**Oak,** Turkey	2	50
116	Quercus Californica	Oak, Californian Colossal	1	2 00
117	Quercus laurifolia	Oak, Laurel-leaved	1	1 00
118	Quercus Lucombeana	Oak, Lucombe's	3	1 00
118	Quercus macrocarpa	Oak, Mossy cup	1	50
119	Quercus peduncularis	Oak, Long peduncled	1	1 00
120	Quercus phellos	Oak, Willowleaved	1	50
121	Quercus robur	Oak, English Royal	1	50
	N. B. A Collection of American Oaks at low rates by 100.			
123	**Rhus** cotinus	**Purple Fringe,** or Smoke tree	3	50
124	**Robinia** pseudacacia	**Yellow Locust**	1	25
125	Robinia viscosa	**Acacia,** Blush flowering	3	50
126	Robinia spectabilis	Acacia, White do	2	75
127	Salisburia adiantifolia	**Japan Gingko tree,** splendid, and of rapid growth	1	1 00
		Ditto, Extra Large, 4 to 12 feet.		$2 to 6 00
128	**Salix** alba	**Willow,** White or Huntingdon	1	38
129	Salix argentea	Willow, Californian Silvery	2	1 00
130	Salix Babylonica	Willow, Weeping	1	50
131	Salix annularis	Willow, Weeping Ringlet	2	50
132	Salix purpurea			
133	Salix Sacramentis	Willow, Californian Broadleaved	1	1 00
134	Salix vitellina	Willow, Golden	1	38
	N. B. *For other Willows, see Osiers.*			
135	Sophora japonica	**Sophora,** Japan	3	50
136	Sophora *pendula*	Sophora, Weeping	3	1 50
137	Taxodium distichum	**Cypress,** American	1	50
138	Taxodium *pendulum*	Cypress, Weeping	2	1 50
139	Tilia americana	**Linden,** American Basswood	1	50
140	Tilia argentea	Linden, Silvery-leaved	1	75
141	Tilia argentea-pendula	Linden, Weeping Silvery	2	1 00
142	Tilia aurea	Linden, Golden twigged	1	75
143	Tilia heterophylla	Linden, Maple, or Cut-leaved	2	75
144	Tilia macrophylla	Linden, Umbrella-leaved	1	1 00
145	Tilia platyphylla	Linden, European	1	50
146	Tilia rubra	Linden, Red-twigged	1	50
147	**Ulmus** americana	**Elm,** American Weeping	1	50
148	Ulmus campestris	Elm, English pyramid	1	50
149	Ulmus *asplenifolia*	Elm, Fernleaved	2	1 00
150	Ulmus *crispa*	Elm, Curled-leaved	2	50
151	Ulmus fulva	Elm, Red, or Slippery	1	50
152	Ulmus montana	Elm, Scotch, or Wych	1	50
153	Ulmus *pendula*	Elm, Weeping	2	1 00
154	Ulmus suberosa	Elm, Dutch Cork-barked	1	50
	N. B. *Twelve other varieties can be supplied.*			
155	Virgilia lutea	Yellow-wooded Virgilia	2	1 00

SELECTIONS OF ORNAMENTAL TREES, ETC.

The Trees most suitable for planting in Streets and Avenues, are the Silver, Norway, and Sugar Maples, European Sycamore, the various Elms, Ohio Buckeye, with dark glossy foliage, Paulownia, Oriental Plane, Snowy Abele, the beautiful Salisburia of Japan, Tulip tree, Magnolia acuminata and maxima, American Cypress, European Ash, Red twig Linden, and Silver-leaved Linden.

The common variety of European Linden, and the common Horse Chestnut, drop their foliage so early in autumn that they are entirely unsuited for streets, but will answer for other locations. The Catalpa forms too spreading and irregular a head for planting in streets. The European Alder will best suit any wet locality. The Ailanthus has latterly fallen into disrepute on account of the odor of its blossoms; an evil easily remedied, however, by proper selection, as the odor proceeds only from one sex, latterly introduced, and therefore this objection does not apply at all to the tree originally introduced, which was of the other sex.

All the above-named trees are appropriate for extensive Lawns, to which may be added the Weeping Willow, one of the most elegant and graceful of all trees, and the Ring-leaved Weeping, the Huntingdon Green, and the Golden-bark and Silvery-leaved Willows to aid in the picturesque. The Liquidamber and Scarlet Maple are desirable not only for general ornament, but for their reddening foliage in early autumn, thereby imparting a most pleasing diversity. The trees I have enumerated are not suitable for ordinary small yards and other circumscribed positions; and for this object, we should select trees of secondary stature, such as the Mountain Ash, Magnolia tripetela, Macrophylla, and Auriculata, White Fringed Ornus, Laburnum, Japan Angelica, European Bird Cherry, Blush Acacia, and Virgilia tutea.

We come next to the third Class of Trees, which may be more properly ranked as large Shrubs, as they branch low, and to the largest class of Flowering Shrubs, all of which may be pruned to suit the space to be occupied; such as the Magnolia Norbertiana, beautifully striped, the M. Soulangiana with paler stripes, M. Glauca and conspicua with white flowers, and the Japan purple, and Chinese Purple and White flowering, the Halesia, Purple Fringe, Japan Sophora, Hawthorn, Cornelian Cherry, Silvery Eleagnus, European Euonymus, the beautiful varieties of Double Althea, Rhamnus carolinus, &c. These will serve to fill up the complement in adornment.

WEEPING TREES OF FAIR SIZE.

	Price each.		Price each.
1 Ash, 2 species	$1 to 1 50	8 Laburnum	$1 to 1 50
2 Beech, 2 varieties, Green & Purple	1 50	9 Larch	2 00
3 Birch	1 00	10 Mountain Ash	1 00
4 Cherry, 2 varieties	1 to 1 50	11 Peach	50
5 Cytisus, 2 species	1 00	12 Poplar	1 00
6 Elm	1 00	13 Sophora	1 50
7 Linden	1 50	14 Willow, 3 varieties	50 to 1 00

DECIDUOUS ORNAMENTAL SHRUBS.

The following comprises a *Select Assortment* of the most beautiful and estimable species. The inferior species are omitted. N. B. Extra large Shrubs of most of the kinds can be supplied at proportionate prices.

Botanical Name.	Common Name.	Price.
1 **Abelia** floribunda	**Abelia,** Profuse flowered	$0 38
2 Abelia rupestris	Abelia, Sylvan	38
3 Abelia triflora	Abelia Three flowered	50
4 Abelia uniflora	Abelia Solitary flowered	50
N. B. *The above are beautiful flowering Dwarf Shrubs, that require some protection in this latitude.*		
5 **Acacia** Julibrissin	**Sensitive tree**	1 00
6 **Amelanchier** botryapium	**Mespilus,** Snowy flowered	38
7 Amelanchier arbutifolia,	Mespilus, Scarlet-berried	50
8 **Amorpha** fruticosa	**Indigo Shrub**	25
9 Amorpha canescens	Indigo Shrub, Hoary	25
10 **Amygdalus**	**Almond,** Flowering. (See page 24.)	
11 **Andromeda** paniculata	**Andromeda,** panicled	50
12 Andromeda racemosa	Andromeda, Racemed	50
13 Andromeda speciosa, &c	Andromeda, Splendid, and others	75
14 **Artemesia** abrotanum	**Southernwood,** or Citronelle	25

Botanical Name.	Common Name.	Price.
15 **Azalea** nudiflora	**Azalea,** Pink colored	38
16 Azalea viscosa	Azalea, White fragrant	50
17 Azalea Californica	Azalea, Californian	2 00
18 Azalea aurantiaca	Azalea, Orange-colored	1 00
19 Azalea Belgica	Azalea, Belgic, of 30 splendid named varieties	75 to 1 00
20 Azalea coccinea major	Azalea, large Scarlet	1 00
21 Azalea Calendulacea	Azalea, Calendulacea, 12 splendid varieties	50 to 1 00
22 Azalea tricolor	Azalea, Tricolored	1 00
23 Azalea Pontica	Azalea, Pontic Yellow	50
24 Azalea do	Azalea, Pontic, 6 fine varieties	75

N. B. *A Special List of the Collection of Azaleas will be sent to Amateurs.*

25 **Baccharis** halimifolia	Snow-drift tree	50
26 **Benthamia** fragrifera	**Benthamia,** Strawberry fruited	75
27 **Berberis** emarginata	**Berberry,** Marginate	50
28 Berberis nepalensis	Berberry, Nepal	25
29 Berberis sibirica	Berberry, Siberian	50
30 Berberis wallichiana	Berberry, Wallich's	25

N. B. See other Species, page 32, and among Evergreen Shrubs.

31 **Borya** ligustrina	**Borya,** Privet leaved	60
32 Borya acuminata	Borya, Acuminate	50
33 **Buddlea** Lindleyana	**Buddlea,** Lindley's	50
34 **Callicarpa** japonica	**Callicarpa,** Japan	75
35 **Calycanthus** lævigatus	**Sweet-scented Shrub,** purple	25
	Ditto, larger size	50
36 Calycanthus floridus	Sweet-scented shrub, Downy-leaved Red	25
37 Calycanthus glaucus	Sweet-scented shrub, Glaucous-leaved Red	25
38 Calycanthus pennsylvanicus	Sweet-scented shrub, Pennsylvanian purple	38
39 Calycanthus semperflorens	Sweet-scented shrub, Frequent flowering	75
40 Calycanthus viridiflorus	Sweet-scented shrub, Green Flowering	1 00
41 Calycanthus macrophyllus	Sweet-scented shrub, Californian large flowered	50
	Ditto, large plants	1 00
42 **Caragana** arborescens	**Siberian Pea tree**	50
43 Caragana chamlagu	**Caragana,** Chinese	50
44 Caragana grandiflora	Caragana, Great Flowered	50
45 **Ceanothus** americanus	**New Jersey tea**	25
46 **Cephalanthus** occidentalis	**White Globe flower**	25
47 **Ceratonia** siliqua	**Carob tree**	75
48 **Cercis** japonica	**Judas tree,** Japan, *splendid*	2 00
49 Cercis variegata	Judas tree, variegated leaved	2 00
50 **Chimonanthus** fragrans	**Japan Allspice**	50c to 1 00
51 **Clethra** alnifolia	**Clethra,** Fragrant	25
52 Clethra acuminata	Clethra, Acuminato leaved	25
53 Clethra paniculata	Clethra, Panicle flowered	25
54 Clethra tomentosa	Clethra, Downy leaved	25
55 **Colutea** arborescens	**Bladder Senna,** Yellow	20
56 Colutea Alepica	Bladder Senna, Aleppo orange	25
57 Colutea cruenta	Bladder Senna, Oriental Red	38
58 **Corchorus,** see Kerria		
59 **Coriaria** myrtifolia	**Coriaria,** Myrtle leaved	25
60 **Cornus** sanguinea	**Dogwood,** Red twig	20
61 Cornus stricta, *variegata*	Dogwood, Silver-striped	50
62 Cornus mascula	**Cornelian Cherry,** Scarlet	50
63 Cornus fructu lutea	Cornelian Cherry, Golden	50
64 **Coronilla** emerus	**Scorpion Senna**	25
65 **Cotoneaster** acuminate	**Cotoneaster,** Acuminato	50
66 Cotoneaster affinis	Cotoneaster, Affinite	50
67 Cotoneaster rotundifolia	Cotoneaster, Round leaved	50
68 **Cratægus** oxycantha	**Hawthorn,** English	50
69 Cratægus, *alba pleno*	Hawthorn, Double white	50
70 Cratægus, *rubra pleno*	Hawthorn, Double crimson	75
71 Cratægus, monogyna *rosea*	Hawthorn, Pink	50
72 Cratægus, *punicea*	Hawthorn, Crimson	50
73 Cratægus, *variegata*	Hawthorn, Variegated leaved	50

N. B.—Also, 10 other species of but little ornament.

Botanical Name.	Common Name.	Price
74 **Cydonia** (Pyrus) Japonica	**Quince,** Japan scarlet flowering	38 to 50
75 Cydonia *alba,*	Quince, Japan white or blush	50
76 Cydonia *rosea*	Quince, Japan roseate, many fruit	1 00
77 Cydonia *atrosanguinea*	Quince, Japan crimson	1 00
78 Cydonia *aurantiaca*	Quince, Japan orange	1 50
79 Cydonia *inermis*	Quince, Japan Thornless	1 00
80 Cydonia *gigantea*	Quince, Japan Large scarlet	1 50
81 Cydonia *rubra pleno*	Quince, Japan Double scarlet	1 00
82 Cydonia umbicillata	Quince, Japan Umbelled	1 00
83 **Cyrilla** racemiflora	**Cyrilla,** Racemed	75
84 **Cytisus** capitatus	**Cytisus,** Cluster flowered	25
85 Cytisus sessilifolius	Cytisus, Sessile leaved	30
86 Cytisus scoparius	**Scotch Broom**	25
	Ditto, large size	50
87 **Daphne** mesereum	**Mezereon,** Pink	25
88 Daphne album	Mezereon, White	50
89 **Deutzia** corymbosa	**Deutzia,** Corymbose	50
90 Deutzia gracilis	Deutzia, Graceful, neat,	50
91 Deutzia scabra	Deutzia, Scabrous, beautiful	25
92 Deutzia staminea	Deutzia, Large stamened	50
93 Deutzia undulata	Deutzia, Waved leaved	50
94 **Diervilla** lutea	**Honeysuckle,** Acadian	30
95 **Dirca** palustris	**Leatherwood**	20
96 **Edgworthia** chrysantha	**Edgworthia**	1 00
97 **Eleagnus** angustifolius	Silvery leaved Olive	50
98 Eleagnus Japonicus	Japan Oleaster	50
99 **Euonymus** americanus	**Strawberry Tree,** American Red	38
100 Euonymus atropurpureus	Strawberry Tree, Crimson fruited	38
101 Euonymus europeus	Strawberry Tree, European Scarlet	38
102 Euonymus ardens	Strawberry Tree, Bright Scarlet	50
103 Euonymus fructu albo	Strawberry Tree, White fruited	50
104 Euonymus atrorubens	Strawberry Tree, Deep Red fruited	75
105 Euonymus pallidus	Strawberry Tree, Pink fruited	75
106 Euonymus purpureus	Strawberry Tree, Purple fruited	75
107 Euonymus nanus	Strawberry Tree, Dwarf, Red fruit	38
108 Euonymus angustifolius	Strawberry Tree, Narrow leaved	50
109 Euonymus latifolius	Strawberry Tree, Broad leaved, large fruit	50
110 Euonymus hamiltonius	Strawberry Tree, Hamilton's Deep Crimson	50
111 Euonymus obovatus	Strawberry Tree, Obovate leaved	50
112 Euonymus sarmentosus	Strawberry Tree, Dwarf trailing	50
113 Euonymus verrucosus	Strawberry Tree, Warted barked	50
114 Euonymus pendula	Strawberry Tree, Weeping	1 00
115 **Fontanesia** phyllyrœides	**Fontanesia,** Syrian	50
116 **Forsythia** viridissima	Chinese Golden Bell	50
117 **Fortunea** sinensis	**Fortunea,** Chinese	2 00
118 **Fothergilla** alnifolia	**Fothergilla,** Fragrant	38
119 **Genista** hibernica	**Broom,** Irish	50
120 Genista juncea, *pleno*	Broom, Double Spanish	50
121 Genista tinctoria	Broom, Dyer's	30
122 Genista *flore pleno*	Broom, Double Dyer's	50
123 **Gordonia** pubescens	**Franklinia**	1 00
124 **Halesia** tetraptera	**Silver Bell,** or Snowdrop Tree	50
125 Halesia grandiflora	Silver Bell, Great flowered	1 00
126 Halesia parviflora	Silver Bell, Small flowered	50
127 Halesia *rosea*	Silver Bell, Rose tinted	1 00
128 Halesia diptera	Silver Bell, Two winged	50
129 **Helianthemum** appeninum	**Helianthemum,** Appenine	1 00
130 **Hibiscus** syriacus	**Althea frutex,** *or Rose of Sharon*	
131 Hibiscus, *bicolor*	Althea frutex, Single White, crims. center	25
132 Hibiscus *albus*	Althea frutex, Single, pure white	38
NOTE.—The following are all double flowering.		
133 Hibiscus *albo pleno*	Althea frutex, White	50
134 Hibiscus *niveo pleno*	Althea frutex, Snowy white	50
135 Hibiscus *rubro pleno*	Althea frutex, Red	38
136 Hibiscus *ardens*	Althea frutex, Bright red	38
137 Hibiscus *rosea*	Althea frutex, Roseate	50
138 Hibiscus *rubra compacta*	Althea frutex, Red Anemone	38

	Botanical Name.	Common Name.	Price.
139	Hibiscus *cerulescens*	Althea frutex, Blue	38
140	Hibiscus *ceruleo-compacta*	Althea frutex, Blue Anemone	50
141	Hibiscus *bicolor*	Althea frutex, Pheasant-eyed	38
142	Hibiscus *albo-varieg*	Althea frutex, White striped	38
143	Hibiscus *rosea-varieg*	Althea frutex, Roseate striped	50
144	Hibiscus *speciosa*	Althea frutex, Carnation striped	50
145	Hibiscus *rubra pallida*	Althea frutex, Pale red shaded	50
146	Hibiscus *rosea bicolor*	Althea frutex, Rose and red shaded	50
147	Hibiscus *atrorubens*	Althea frutex, Crimson shaded	75
148	Hibiscus *albicans*	Althea frutex, Incarnate, early flowering	75
149	Hibiscus *incarnata*	Althea frutex, Blush shaded	50
150	Hibiscus *ceruleo purpureo*	Althea frutex, Bluish purple	50
151	Hibiscus *lilacina*	Althea frutex, Lilac	50
152	Hibiscus *pœoncflora*	Althea frutex, Red Pœony flowered	75
153	Hibiscus *elegantissima*	Althea frutex, White, Pink, and Crimson	75
154	Hibiscus *fastuosa*	Althea frutex, Imperial red	75
155	Hibiscus *tricolor*	Althea frutex, Vermilion Tricolor, beautifully mottled and striped, very unique	75
156	Hibiscus *picta*	Althea frutex, Semi-double Painted Lady	50
157	Hibiscus *purpurea pallida*	Althea frutex, Semi-double light purple	50
158	Hibiscus *rubro fol. aureis*	Althea frutex, Double red, gold striped leaves	75
159	Hibiscus *folio variegato*	Althea frutex, Variegated leaved	50

N.B.—The above, with only four exceptions, will withstand the Northern winters.

160	**Hippophæ** argentea	Missouri Silver leaf	75
161	Hippophæ rhamnoides	Sea Buckthorn	38
162	**Hydrangea** arborescens	Hydrangea, White	38
163	Hydrangea hortensis	Hydrangea, Blue and Pink	25
164	Hydrangea *variegata*	Hydrangea, Striped leaved	1 00
165	Hydrangea japonica	Hydrangea, Japan blue	38
166	Hydrangea pubescens	Hydrangea, Pubescent	75
167	Hydrangea quercifolia	Hydrangea, Oak-leaved	50
168	Hydrangea radiata	Hydrangea, Ray-flowered	25
169	**Hypericum** Kalmianum	**St. John's wort,** Kalmi's	25
170	**Ilex** prinoides	Deciduous Holly	75
171	**Itea** virginica	Virginian Itea	50
172	**Indigofera** decora	**Indigo,** *Brilliant*	1 00
173	Indigofera dosua	Indigo, Dosua	1 00
174	**Jasminum** fruticans	**Jasmin,** Large leaved yellow	38
175	Jasminum humile	Jasmin, Italian small-leaved	38
176	**Kerria, or Corchorus**	**Corchorus,** Yellow	20
177	**Lagerstrœmia** indica	**Crape Myrtle,** Pink	50
178	Lagerstrœmia purpurea	Crape Myrtle, Purple	75
179	Lagerstrœmia corallina	Crape Myrtle, Splendid Coral	1 50
180	**Ligustrum** italicum	**Privet,** Italian, sub-evergreen	20
181	Ligustrum *variegatum*	Privet, Striped-leaved	38
182	Ligustrum japonicum	Privet, Japan Laurel-leaved	50
183	**Lycium** carolinianum	**Lycium,** Carolina	1 00
184	**Lonicera**	**Twining,** Honeysuckles. See page 45.	
185	**Magnolia** gracilis	**Magnolia,** Japan purple	1 00
186	Magnolia obovata	Magnolia, Chinese Purple and white	75
187	Magnolia Thompsoniana	Magnolia, Thompson's large white	2 00
188	**Pavia** macrostachya	**Chestnut,** Dwarf white	50
189	Pavia *florepleno*	Chestnut, Double flowering	2 00
190	**Philadelphus** coronarius	**Syringa,** European fragrant	25
191	Philadelphus *multiplex*	Syringa, Double flowered	50
192	Philadelphus Gordonianus	Syringa, Gordon's Oregon	38
193	Philadelphus grandiflorus	Syringa, Garland, large flowers	25
194	Philadelphus Hymalayensis	Syringa, Himalaya	1 00
195	Philadelphus gracilis	Syringa, Slender branched	38
196	Philadelphus nana	Syringa, Dwarf	30
197	Philadelphus nivalis	Syringa, Snow-flowered	50
198	Philadelphus Sartmanianus	Syringa, Japan, new	1 00
199	Philadelphus thyrsiflorus	Syringa, Thyrse flowered	50
200	Philadelphus virgatus	Syringa, Branching	50
201	Philadelphus Zeyherii	Syringa, Zeyher's beautiful	38
202	**Pistachia** vera	**Pistachia,** Chinese	1 00

Botanical Name.	Common Name.	Price.
203 **Potentilla** fruticosa	**Cinquefoil,** Shrubby	20
204 Potentilla floribunda	Cinquefoil, Profuse flowered	50
205 **Prinos** verticillatos	**Winterberry,** Scarlet	25
206 Prunus nigra, *pleno*	**Sloe,** Double flowering	50
Punica	**Pomegranate,** see page 26.	
Pyrus Japonica, see *Cydonia.*		
209 **Rhamnus** catharticus	**Buckthorn,** Purging	20
210 Rhamnus Carolinus	Buckthorn, Carolina, beautiful	1 00
211 Rhamnus Californicus	Buckthorn, California, beautiful	1 00
212 **Ribes** albidum	**Currant,** Snowy flowered	50
213 Ribes alpinum	Currant, Alpine scarlet fruited	50
214 Ribes Bridgesii	Currant, Bridge's	50
215 Ribes Gordonianum	Currant, Gordon's orange and scarlet	50
216 Ribes setosum	Currant, Missouri	
217 Ribes subvestitum	Currant, Californian, beautiful	1 00
218 Ribes cynosbati	Currant, Red prickly fruited	50
219 Ribes sanguineum	Currant, Scarlet flowering	50
220 Ribes *flore pleno*	Currant, Double flowering	1 00
221 Ribes speciosum	Currant, Fuchsia flowered	50
222 Ribes tenuifolium	Currant, Yellow fruited	50

N. B.—For other Species, see page 31.

223 **Robinia** hispida	**Acacia,** Rose	25
224 Robinia macrophylla	Acacia, Weeping rose	50
225 **Rubus** cuneifolius	**Bramble,** Cuneiform	50
226 Rubus nobilis	Bramble, Noble purple	50
227 Rubus nootkanus	**Raspberry,** Snowy	50
228 Rubus odoratus	Raspberry, Purple flowered	16
229 Rubus rosæfolius	Raspberry, Chinese Double white	38
230 Rubus spectabilis	Raspberry, Showy purple	50

N.B.—For other Species, see Vines and Creepers.

231 Salix, see Osiers	**Willow,** see Osiers.	
232 Sambucus *flore pleno*	**Elder,** Double flowering	50
233 Shepherdia argentea	Shepherdia, Silvery	50
Spartium, see *Cytisus* and *Genista.*		
235 **Spiræa** adiantoides	**Spiræa,** Adiantum-leaved dwarf	50
236 Spiræa alpina	Spiræa, Alpine	50
237 Spiræa amæna	Spiræa, Select cluster, white	50
238 Spiræa ariæfolia	Spiræa, Aria-leaved white	50
239 Spiræa argentea	Spiræa, Silvery-leaved	50
240 Spiræa bella	Spiræa, Chinese dwarf, pink	38
241 Spiræa betulæfolia	Spiræa, Birch-leaved	25
242 Spiræa Billardieri	Spiræa, Billard's bright rosy	1 00
243 Spiræa Blumei	Spiræa, Blume's bright pink	1 00
244 Spiræa callosa vel Fortunei	Spiræa, Chinese pink panicled	75
245 Spiræa candicans	Spiræa, Hoary	50
246 Spiræa chamœdrifolia	Spiræa, White Germander	25
247 Spiræa corymbosa	Spiræa, Corymbose white	20
248 Spiræa crenata	Spiræa, White crenate-leaved	25
249 Spiræa daurica	Spiræa, Daurian	50
250 Spiræa Douglassii	Spiræa, Douglass' fine red	38
251 Spiræa eximia	Spiræa, California pink, beautiful	1 00
252 Spiræa flexuosa	Spiræa, Flexile	50
253 Spiræa floribunda	Spiræa, Profuse-flowered	50
254 Spiræa grandiflora alba	Spiræa, Chinese large white	1 00
255 Spiræa grandiflora rosea	Spiræa, Large rose-colored	50
256 Spiræa Hookerii	Spiræa, Hooker's new	1 00
257 Spiræa hypericifolia	Spiræa, Hypericum-leaved	25
258 Spiræa lævigata	Spiræa, Siberian dwarf white	50
259 Spiræa Lindleyana	Spiræa, Lindley's white	25
260 Spiræa nepalensis	Spiræa, Nepal white	25
261 Spiræa nikandertii	Spiræa, Nikandert's white wreath, beautiful	50
262 Spiræa oblongifolia	Spiræa, Long-leaved	50
263 Spiræa opulifolia	Spiræa, Guelder Rose	25
264 Spiræa *fol. lutea*	Spiræa, Guelder Rose, yellow leaves	50
265 Spiræa ovata vel candida	Spiræa, Californian white	50

	Botanical Name.	Common Name.	Price.
266	Spiræa paniculata alba	Spiræa, White panicled	25
267	Spiræa paniculata rosea	Spiræa, Rose-panicled	25
268	Spiræa prunifolia pleno	Spiræa, Japan double white	25 to 50
269	Spiræa Reevesiana	Spiræa, Reeve's Chinese white, beautiful	25 to 38
270	Spiræa Reevesiana pleno	Spiræa, Reeve's Chinese double-white, beautiful	1 00
271	Spiræa rotundifolia	Spiræa, Round-leaved	38
272	Spiræa salicifolia alba	Spiræa, Willow-leaved white	20
273	Spiræa salicifolia rosea	Spiræa, Willow-leaved roseate	25
274	Spiræa salicifolia incarnata	Spiræa, Blush pink	25
275	Spiræa sinensis pendula	Spiræa, Chinese pendulous red	50
276	Spiræa sorbifolia	Spiræa, Sorb-leaved cluster	25
277	Spiræa sinensis alba	Spiræa, Chinese white cluster	50
278	Spiræa thalictroides	Spiræa, Thalictrum-leaved white	50
279	Spiræa tomentosa	Spiræa, Downy red-spiked	20
280	Spiræa trilobata	Spiræa, Three-lobe leaved	50
281	Spiræa ulmifolia	Spiræa, Elm-leaved white	20
282	Spiræa vaccinifolia	Spiræa, Vaccinium-leaved	50

N. B. *The Spiræas are exceedingly neat, and profuse-flowering Shrubs, of easy culture, and very hardy.* Those now priced $1 will be but 50 cents in October, 1857.

283	Staphylea trifolia	Bladdernut, Trinket flower	38
284	Staphylea pinnata	Bladdernut, Pinnated	50
285	**Stuartia** malacodendron	**Stewartia,** Virginian	1 00
286	Stuartia pentagynia	Stewartia, Maryland	75
287	**Styrax** officinale	**Storax,** Officinal, *beautiful flowers*	50
288	Styrax lævigatum	Storax, Dwarf white	50
289	**Symphoria** racemosa	Snowberry	18
290	Symphoria glauca	Snowberry, Dwarf	50
291	Symphoria glomerata	**Indian Currant**	18
292	Symphoria variegata	Indian Currant, Variegated	25
	Syringa	**Lilac.**	
294	Syringa vulgaris *cerulea*	Lilac, Purple or Blue	20
295	Syringa *purpurea plena*	Lilac, Double purple	1 00
296	Syringa *rubra*	Lilac, Red or Marly	25
297	Syringa *alba*	Lilac, Large white	25 to 50
298	Syringa *alba plena*	Lilac, Double white	1 00
299	Syringa *variegata*	Lilac, Variegated-leaved	1 00
300	Syringa *bicolor*	Lilac, Bicolor	1 00
301	Syringa *Versailliensis*	Lilac, Versailles double	1 50
302	Syringa *Caroli X.*	Lilac, Charles X., fine large purple	50
303	Syringa *grandiflora*	Lilac, Large flowering	50
304	Syringa Persica	Lilac, Persian purple	38
305	Syringa *alba-cerulea*	Lilac, Persian bluish white	50
306	Syringa *nivea*	Lilac, Persian snow-white	75
307	Syringa lasciniata	Lilac, Persian cut-leaved	50
308	Syringa chinensis	Lilac, Chinese bluish purple	25 to 50
309	Syringa *rothmagensis, vel Saugeana*	Lilac, Chinese red	50
310	Syringa *rothmagensis alba*	Lilac, Hybrid white	1 00
311	Syringa sinensis alba	Lilac, Chinese new white	1 00
312	Syringa Josikea	Lilac, Chionanthus-leaved	50
313	Syringa Emodii	Lilac, Nepal	50
314	Syringa Delepine	Lilac, Delepine	1 00
315	Syringa Valletteana	Lilac, Valettiana	50
316	**Tamarix** gallica	**Tamarisk,** French	25
317	Tamarix germanica	Tamarisk, German	25
318	Tamarix africana	Tamarisk, Algiers	25
319	Tamarix indica	Tamarisk, Red-flowering	50
320	Tamarix libanotica	Tamarisk, Manna-bearing	50
	Vaccinium, see page 32.		
322	**Viburnum** opulus	**Snowball**	25
		Ditto, large size	50
323	Viburnum lantana	**Wayfaring tree**	25
324	Viburnum lantanoides	Early white Viburnum	38
325	Viburnum oxycoccus	**Cranberry tree**	25
326	Viburnum crispum	**Viburnum,** Curled-leaved	25
327	Viburnum nepalense	Viburnum, Nepal	25
328	Viburnum rugosum	Viburnum, Rough-leaved	25

Botanical Name.	Common Name.	Price.
329 Viburnum nudum	Viburnum, Large white	25
330 Viburnum prunifolium	Viburnum, Snowy cluster	25
331 **Vitex** Agnus castus	**Chaste tree**	38
332 **Weigela** rosea	**Weigela,** Chinese rosy	50
333 Weigela amabilis	Weigela, Chinese pink, twice flowering	75
334 Weigela splendens	Weigela, Japan pale yellow	1 00
335 Weigela lutea	Weigela, Acadian yellow	50
336 **Xanthorhiza** apiifolia	**Xanthorhiza,** Parsley-leaved	20
337 **Xylosteum,** see Upright Honeysuckles, below on this page.		
338 **Zizyphus** jujuba	**Jujube tree**	1 00

SELECTIONS OF FLOWERING SHRUBS.

Most persons are so well acquainted with these, that we will only remark to those least acquainted, that for general ornament, amateurs usually select the different varieties of Double Althea, Azalea, Calycanthus, Deutzia, Hawthorn, Japan Quince, Euonymus, Forsythia, Groundsel tree, Magnolia, Clethra, Philadelphus, Rose Acacia, Spiræa, Lilac, Upright Honeysuckle, Weigela, Tamarisk, Viburnum, Flowering Currant, Hydrangea, Syringa, &c.

OSIER—BASKET WILLOW.

Plants $2 per dozen, and $12 per 100. Scions $1 per 100, and $4 to $5 per 1000; and Salix viminalis in quantities of 25,000 or more, $2 to $2 50 per 1000. No less than $1 worth will be supplied of any kind. N. B. Directions for culture therewith.

1 Alba, Bedford, or Fence Willow.
2 Alba fæmina.
3 Alba mascula.
4 Annularis.
5 Argentea.
6 Babylonica nigra.
7 Beveridge, for hedge (*a synonym*).
8 Bicolor.
9 Caprea.
10 Caprea variegata.
11 Daphnoides.
12 Decipiens.
13 Forbyana.
14 Helix.
15 Helix fæmina.
16 Holosericea.
17 Laurifolia.
18 Longskin (*a synonym*).
19 Nigra.
20 Pentandria.
21 Purpurea. (see Rubra,)
22 Rosmarinifolia.
23 Rubra, or Purpurea.
24 Rubra, or Purpurea mascula.
25 Russeliana.
26 Starkianum.
27 Stipularis.
28 Triandra fæmina.
29 Triandra mascula.
30 Viminalis fæmina.
31 Viminalis mascula.
32 Violacea.
33 Viridis.
34 Vitellina, or Aurea.

UPRIGHT HONEYSUCKLES.

Botanical Name.	Common Name.	Price.
35 **Diervilla** lutea	Acadian yellow	38
36 **Xylosteum** alpigenum	Swiss red-berried	38
37 Xylosteum alpinum	Alpine black-berried	50
38 Xylosteum caucasicum	Oriental, or Caucasian white	50
39 Xylosteum ceruleum	Blue-berried	38
40 Xylosteum ciliatum	Ciliated-leaved	50
41 Xylosteum Ledebourii	Californian yellow and red, very peculiar.	38
42 Xylosteum occidentale	Occidental	50
43 Xylosteum Sibiricum luteum	Siberian yellow, very beautiful	75
44 Xylosteum Thomasii	Thomas' new	1 00
45 Xylosteum tartaricum	Tartarian, early red	30
46 Xylosteum *albiflora*	Tartarian early white	38
47 Xylosteum *grandiflora*	Tartarian bright red, variegated, splendid.	50
48 Xylosteum officinale	European straw-colored	38
49 Xylosteum solonis	American yellow	50

TWINING HONEYSUCKLES.

Lonicera	**Honeysuckle.**	
51 Caprifolium rubrum	Early blush Italian	38
52 Caprifolium album	Early white Italian	50
53 Caprifolium sempervirens	Italian Evergreen	50
54 **Periclymenum**	English Woodbine	38
55 Belgicum	Striped monthly	38
56 Flavum	Yellowish Woodbine	50
57 Serotinum	Late red cluster	50

Botanical Name.	Common Name.	Price.
Periclymenum	**Honeysuckle, Twining.**	
58 Quercifolium	Oak-leaved white	50
59 Variegatum	Variegated oak-leaved	50
60 Macrophyllum	Large-leaved straw colored	50
61 Canescens	Algiers hoary-leaved white	50
62 Ciliata	Californian Ciliated	1 00
63 Confusa	Japan straw-colored	38
64 Etrusca	Etruscan, or Tuscany	50
65 Douglassii	Douglass' straw-colored	50
66 **Sempervirens**	Scarlet trumpet monthly	38
67 Sempervirens minor	Small deep scarlet trumpet, or Evergreen monthly	50
68 Brownii	Superb bright scarlet	38
69 Bicolor superba	Scarlet and yellow monthly	75
70 **Flava, vel Fraseri**	Yellow trumpet monthly	38
71 Occidentalis	Oregon orange-colored	1 00
72 Parviflora	Small dark yellow	38
73 Pubescens	Pubescent orange-colored	38
74 Flexuosum	Chinese Evergreen monthly, fragrant blush flowers	25 to 38
	Ditto, large size	50
75 Japonica alba	Japan Evergreen, bright green foliage, pure white flowers, new	50
76 Brachypoda	Brachypoda	50
77 Fragrantissima	Chinese Fragrant, new	1 00
78 Implexa	Minorca purplish	50
79 Fuchsoides	Fuchsia flowered	1 00
80 Magnevillei	Magneville's Chinese, new	50
81 Romana	Roman	50
82 Splendida	Splendid	1 00
83 Sulphurea	Sulphur-colored	38
84 Standishii	Standish's Fragrant	1 00
85 Villossissima	Velvet Tuscan, white	38

N. B. *Extra Large plants of several of the best varieties at 50 to 75 cents.*

VINES AND CREEPERS.

86 **Akebia** quinata	Chinese Evergreen Akebia	75
87 **Ampelopsis** hederacea	Virginia Creeper	20
88 Ampelopsis bipinnata	Bipinnate-leaved Creeper, delicate foliage	50
89 Ampelopsis Roylii	Royle's Creeper	1 00
90 Ampelopsis cordata	Cordate-leaved Creeper	38
91 Ampelopsis tricolor	Tricolor-leaved, beautiful	50
92 Apios (Glycine) tuberosa	Purple Cluster Glycine	25
93 **Aristolochia** sipho	Dutchman's Pipe vine	40
94 Aristolochia tomentosa	Downy-leaved Pipe vine	50
95 Aristolochia altissima	Lofty-growing Pipe vine	1 00
96 Aristolochia Kempferii	Kempfer's Pipe vine	1 00
97 Aristolochia serpentaria	Medicinal Pipe vine	25
98 **Asclepias** nigra	**Swallowwort,** Black flowered	38
99 **Atragene** alpina	**Atragene,** Alpine blue	1 00
100 Atragene americana	Atragene, American blue	50
101 Atragene sibirica	Atragene, Siberian white	1 00
102 **Berchemia** volubilis	**Berchemia,** Twining auriculate, beautiful.	75
103 **Bignonia** radicans	**Trumpet-flower,** Scarlet	20
104 Bignonia *coccinea vel præcox*	Trumpet-flower, Red	30
105 Bignonia *superba flammea* *Tecoma tutea.*	Trumpet-flower, Superb scarlet, or Golden	50
106 Bignonia grandiflora	Trumpet-flower, Chinese orange-colored	50
107 Bignonia *atrosanguinea*	Trumpet-flower, Chinese crimson	50
108 Bignonia *purpurea*	Trumpet-flower, Chinese deep crimson, new	1 00
109 Bignonia *Princei*	Trumpet-flower, Prince's large hybrid scarlet, a new hardy seedling	75
110 Bignonia alba	Trumpet-flower, White-flowering	75
Bignonia capreolata, see Evergreen Climbers.		
112 Brachybotria rosea	Glycine, Pale violet	1 00
113 **Celastrus** scandens	Bittersweet, American	20
114 Celastrus edulis	Bittersweet, Edible-fruited	75

Botanical Name.	Common Name.	Price.
Clematis	**Virgin's Bower.**	
Clematis Anemonæflora, see Hartwegi.		
117 Clematis *Azurea grandiflora*	Virgin's Bower, Japan large blue	50
118 Clematis campaniflora	Virgin's Bower, White bell-flowered	50
119 Clematis cerulea odorata	Virgin's Bower, Japan fragrant blue	1 00
120 Clematis crispa	Virgin's Bower, Curled Bell	30
121 Clematis flammula	Virgin's Bower, Vanilla-scented Evergreen, very vigorous, exquisite odor	25
	Ditto, large plants	50
122 Clematis Florida	Virgin's Bower, Japan white	75
123 Clematis Florida plena	Virgin's Bower, Japan double white	75
124 Clematis *Grahamii*	Virgin's Bower, Graham's Japan	1 00
125 Clematis *Helena*	Virgin's Bower, Helena	1 50
126 Clematis *Monstrosa*	Virgin's Bower, Monstrosa	1 50
127 Clematis Sophia	Virgin's Bower, Sophia	1 00
128 Clematis Hartwegi, vel Anemæflora vel montana	Virgin's Bower, Californian large white, blooms in May	50
129 Clematis Cylindrica	Virgin's Bower, Cylindric	50
130 Clematis Hendersoni	Virgin's Bower, Henderson's large red	75
131 Clematis Hybrida odoratissima	Virgin's Bower, Blue Vanilla-scented, exquisite	1 00
132 Clematis Mongolica tubulosa	Virgin's Bower, Mongolian	1 00
133 Clematis Nepalensis	Virgin's Bower, Nepal autumn-flowered	75
134 Clematis Orientalis	Virgin's Bower, Oriental yellow	1 00
135 Clematis Orientalis cerulea	Virgin's Bower, Oriental pale blue	50
136 Clematis Pallassii	Virgin's Bower, Pallas'	1 00
137 Clematis Shillingi	Virgin's Bower, Shilling's large blue hybrid	75
138 Clematis Siebeltii bicolor	Virgin's Bower, Siebolt's Japan bicolor	75
139 Clematis smilacifolia	Virgin's Bower, Smilax large-leaved	50
140 Clematis viorna	Virgin's Bower, Reflexed red	25
141 Clematis Virginiana	Virgin's Bower, Virginian white	20
142 Clematis vitalba	Virgin's Bower, Traveler's Joy	38
143 Clematis cirrhosa	Virgin's Bower, Dwarf evergreen	50
144 Clematis lanuginosa	Virgin's Bower, Woolly	75
145 Clematis revoluta	Virgin's Bower, Revolute petaled	50
146 Clematis viticella	Virgin's Bower, Purple	30
147 Clematis *atrorubens*	Virgin's Bower, Dark red	50
148 Clematis *cerulea*	Virgin's Bower, Blue	50
149 Clematis *purpurea plena*	Virgin's Bower, Double purple	50
150 Clematis *pulchella*	Virgin's Bower, Bright pink	50
151 Clematis *rubra*	Virgin's Bower, Red flowered	30
152 Calystegia pubescens	**Calystegia,** Pink and white striped	50
153 Calystegia *pubescens pleno*	Calystegia, Double Roseate	20
	Ditto, per dozen 75 cts, and per 100 $3	
154 **Coculus** Japonicus	Coculus, Japan	1 00
Cynanchum. (See Gonolobium.)		
156 **Dioscorea** villosa	Wild Yam, American	50
157 Dioscorea batatas	Chinese Potato	50
158 **Echites** difformis	Echites, Twining	50
159 **Convolvulus** panduratus	**Convolvulus,** Large white	50
160 Convolvulus *flore pleno*	Convolvulus, Double white	75
161 Convolvulus europeus albus	Convolvulus, European white	50
162 Convolvulus repens	Convolvulus, Trailing small white	25
Forsythia. (See Shrubs.)		
164 **Gelseminum** nitidum	Carolina Yellow Jasmine	50
Glycine. (See Wistaria.)		
166 **Gonolobium** læve	Twining Gonolobium	38
Hedera. (See Evergreen Climbers.)	**Ivy.** (See Evergreen Climbers.)	
168 **Humulus** lupulus	Hop vine	25
Jasminum	**Jasmine.**	
170 Officinale	Jasmine, White flowering Officinal	20
	Ditto, larger size	50
171 **Chrysophyllum**	Jasmine, Striped-leaved white	50
172 Ochroleucum	Jasmine Large Yellow	35
For others, see Evergreen Climbers.		
173 **Kadsura** Japonica	**Kadsura,** Japan yellow	1 50
174 Kadsura reticulata	Kadsura, Netted	1 50
Lonicera, see page 45	**Honeysuckle,** see page 45.	

Botanical Name.	Common Name.	Price.
176 **Lycium** barbarum	**Box Thorn,** or Blue Jasmine	20
177 Lycium europeum	Box Thorn, European scarlet-berried	50
178 **Mandevillea** suaveolens	**Mandevillea,** Fragrant	75
179 **Menispermum** canadense	**Moonseed,** Canadian	25
180 Menispermum Dauricum	Moonseed, Daurian	1 00
181 **Passiflora** incarnata	**Passion flower,** White flowered	50
182 Passiflora incarnata alba	Passion flower, Hardy blush	38
183 Passiflora palmata	Passion flower, Purple palmate	50
184 Passiflora cerulea	Passion flower, Blue flowered	35
185 Passiflora Shropeana	Passion flower, Shropean	50
For other species, see Green-House Catalogue.		
186 **Periploca græca**	Grecian silk vine	20
	Ditto, large size	50
Rosa	**Roses, Climbing varieties,** see Rose Catalogue.	
Rubus	**Flowering Bramble.** See Evergreen Climbers.	
Rubus	**Flowering Raspberry.** See page 43.	
190 **Schisandra** lutea	**Schisandra,** Japan yellow	1 50
191 Schisandra coccinea	Schisandra, Scarlet	75
192 **Smilax** tamnoides	**Smilax,** Carolina	38
193 Smilax peduncularis	Smilax, Peduncled	38
194 **Vinca,** see Evergreen Climbers.		
195 **Vitis** odoratissima	Grape, Mignonette scented	50
For other Grapes, see page 26.		
Wistaria, or Glycine	**Wistaria,** or Glycine.	
197 Wistaria frutescens	Wistaria, American purple	35
198 Wistaria frutescens nivea	Wistaria, American Snow-white, twice flowering	1 50
199 Wistaria floribunda	Wistaria, Large spiked cerulean, beautiful, blooms twice, the most vigorous of all	1 00
200 Wistaria sinensis	Wistaria, Chinese large blue, blooms twice	35 to 50
	Ditto, largest size	1 00
201 Wistaria sinensis alba	Wistaria, Chinese white	$3 to 4 00
202 Wistaria violacea	Wistaria, Violet colored	1 50
203 Wistaria Backousiana	Wistaria, Backousiana	1 50
204 Wistaria brachybotria	Wistaria, Pale violet	1 00
205 Wistaria rosea	Wistaria, Roseate	1 50
206 Wistaria purpurascens	Wistaria, Purplish	1 00
207 Wistaria serotina	Wistaria, Late flowering	1 00
208 Zizyphus volubilis	Climbing Zizyphus	50 to 1 00

EVERGREEN CLIMBERS.

209 **Aristolochia** sempervirens	**Birthwort,** Evergreen	50
210 Aristolochia Kempferii	Birthwort, Kempfer's	1 00
211 **Bignonia** crucigera	Orange-colored Trumpetflower	50
212 **Clematis** sempervirens	Fragrant white Clematis	50
213 **Decumaria** sarmentosa	Climbing Decumaria	50
214 **Dioclea** glycinoides	**Scarlet Dioclea**	1 00
215 **Hedera** helix	**Ivy,** European Evergreen	25
216 Hedera variegata	Ivy, Variegated-leaved	50
217 Hedera hibernica	Ivy, Irish, large foliage	25 to 38
	Ditto large plants	50
218 Hedera striata	Ivy, Striped-leaved Irish	50
219 Hedera arborescens	Ivy, Tree or shrubby	50
220 Hedera Algeriensis	Ivy, Algiers	50
221 Hedera Caucasica	Ivy, Caucasian	50
222 Hedera Ragueniana	Ivy, Large heart-leaved	50
223 Hedera Chrysocarpa	Ivy, Classic yellow-berried	50
224 Hedera Palmata	Ivy, Palmate-leaved	50
225 Hedera Ponderata	Ivy, Ponderous	50
Jasminum.	**Jasmine.**	
226 Jasminum fruticans	Jasmine, Broad-leaved yellow	38
227 Jasminum pubigerum	Jasmine, Nepal yellow	50
Wallichianum.		
228 Jasminum nudiflorum	Jasmine, Early yellow	38

Botanical Name.	Common Name.	Price.
229 Jasminum revolutum	Jasmine, Revolute, large yellow	38
230 Jasminum Fortuni	Jasmine, Fortune's Chinese	75
231 Jasminum Poiteau	Jasmine, Poiteau	1 00
232 **Lonicera** flexuosa	**Honeysuckle,** Chinese fragrant blush	25 to 38
233 Lonicera Japonica alba	Honeysuckle, Japan white	50
Rosa	**Roses,** *Climbing varieties,* see Rose Catalogue.	
235 **Rubus** lasciniatus	Parsley-leaved Blackberry	50
236 Rubus inermis	**Bramble,** Thornless	50
237 Rubus fruticosus plena	Bramble, Double white, resembling small roses	38
238 Rubus belledifiorus plena	Bramble, Double pink daisy-flowered, beautiful	50
239 **Ruscus** racemosus	Classic Laurel	1 00
240 **Ryncospermum** Jasminoides	Jasmine-leaved Ryncospermum	1 00
241 **Smilax** tamnoides	**Smilax,** Carolina	50
242 **Stauntonia** latifolia	**Stauntonia,** Broad-leaved, very rapid growth, and estimable	38
	Ditto, large plants	75
243 Stauntonia toluccensis	Stauntonia, Tolucca	1 00
244 **Vinca** minor	**Periwinkle,** or **Running Myrtle,** Blue-flowered	25
245 Vinca *cerulea plena*	Periwinkle, Double blue	50
246 Vinca *albiflora*	Periwinkle, White-flowered	25
247 Vinca *punicea*	Periwinkle, Purple-flowering	38
248 Vinca *punicea plena*	Periwinkle, Double purple	50
249 Vinca *cerulea variegata*	Periwinkle, Gold-striped, blue flowers	25
250 Vinca *variegata, alba*	Periwinkle, Gold-striped, white flowers	50
251 Vinca major	Periwinkle, Broad-leaved, large flowers	50

EVERGREEN TREES.—CONIFERÆ.

Including the new and rare species recently introduced. The trees of the older species are of good size, and many are of extra large size, but those of the newest species are of moderate or small size; but none less than four years old, unless so stated. Amateurs of the favorite family of Evergreen Trees, will not fail to notice the great superiority of this collection over any other offered for sale, and especially when fine Evergreens are so scarce and desirable. Extra large Spruces and Pines, and many other species, can be supplied at proportionate prices. Small Seedling trees, of 1, 2, and 3 years, being of much less value, will be supplied at very moderate rates. The different Catalogue prices for Evergreen Trees, form no criterion, as their value depends upon the age and size. We have a large stock of well-grown trees with which to supply applicants.

1 **Abies** Alba	**Spruce,** White American	50
Ditto, 4 to 8 feet, at proportionate rates.		
2 Abies Argentea	Spruce, White European, very beautiful	1 00
Ditto, 3 to 8 feet, at proportionate rates.		
3 Abies Amabilis	Spruce, Californian, beautiful	3 00
4 Abies Bracteata	Spruce, Californian Bracteate	3 00
5 Abies Brunoniana	Spruce, Alpine silvery Dwarf	2 00
6 Abies Canadensis	Spruce, Hemlock or weeping	25 to 50
Ditto, 4 to 8 feet, at proportionate rates.		
Abies Cephalonica. *See Picea.*		
8 Abies Cerulea	Spruce, Bluish European	1 00
9 Abies Clanbrasilliana	Spruce, Clanbrasill's dwarf	2 00
10 Abies Douglasii	Spruce, Douglass' Californian	1 50 to 2 00
11 Abies Eremita	Spruce, Eremita	3 00
12 Abies Excelsa	Spruce, Norway, according to size	25 to 1 00
Ditto, 6 to 15 ft. at proportionate prices.		
13 Abies Excelsa dumosa	Spruce, Dwarf Norway	2 00
14 Abies Gigantea	Spruce, Gigantic or lofty	$2 to 3 00
15 Abies Hudsonica	Spruce, Hudson's	1 50
16 Abies Jesoenis	Spruce, Japan	3 00
17 Abies Menziesii	Spruce, Menzies' Oregon	50 to 2 00
18 Abies Mexicana *Religiosa.*	Spruce, Sacred Mexican	2 00

Botanical Name.	Common Name.	Price.
19 Abies Morinda. *Smithiana.*	Spruce, Himalaya, 1 to 6 ft., $1 pr. foot	
20 Abies Mucronata	Spruce, Mucronate	2 00
21 Abies Nigra	Spruce, Black or double	25 to 50
22 Abies Nigra pumila	Spruce, Dwarf black	1 00
23 Abies Novæ Hollandiæ	Spruce, New Holland	2 00
24 Abies Orientalis	Spruce, Oriental	3 00
Abies Pinsapo. *See Picea.*		
25 Abies Pygmæa	Spruce, Pigmy or diminutive	1 50
26 Abies Rubra	Spruce, Red or Double	50
27 Abies Sabini	Spruce, Sabine's Californian	3 00
28 Abies Spectabilis. *See Picea Webbiana.*		
29 Abies Taxifolia	Spruce, Yew-leaved	1 00
30 Abies Tenuifolia	Spruce, Narrow-leaved	3 00
31 **Araucaria** Imbricata	Chili Pine	$1 to 2 00
32 Araucaria Lanceolata	Chinese lance-leaved pine	$2 to 5 00
33 Araucaria Braziliensis. *Ditto,* extra size, $4 to $6.	Brazil pine	2 50 to 3 00
34 Araucaria Bidwillii	Billwill's pine	3 00
35 Araucaria Cunninghamii	Moreton pine	$8 to 10 00
36 Araucaria Excelsa	Norfolk island pine	$10 to 12 00
37 Araucaria Gracilis vel elegans	Graceful pine	$5 to 8 00
N. B. The four last require protection north of Charleston.		
Biotia. See Thuya.		
38 **Cedrus** Africanus viridis	**Cedar,** African green, beautiful, most hardy, rapid growth	$1 to 2 00
Ditto, extra size, 3 to 10 feet, $1 per foot.		
39 Cedrus Deodara	Cedar, Deodar, Silvery foliage	$1 to 2 00
Ditto, extra size, 3 to 8 ft. 75 cts. per foot.		
40 Cedrus Deodara viridis	Cedar, Green Deodar	$2 to 3 00
41 Cedrus Libani	Cedar of Lebanon	50 to 2 00
Ditto, extra size, 3 to 8 ft., $1 per foot.		
42 Cedrus Libani argentea *Africana argentea.*	Mount Atlas Silvery Cedar	$1 to 2 00
Ditto, 3 to 10 feet, $1 per foot.		
43 **Cephalotaxus** adpressa	Japan dark green Yew	1 00
44 Cephalotaxus Drupacea	Drupe- bearing Yew	1 50
45 Cephalotaxus Fortunei	Fortune's Chinese Yew	$1 to 2 00
46 Cephalotaxus Montana	Mountain Yew	3 00
47 Cephalotaxus Pedunculata	Pedunculate Yew	2 00
48 Cephalotaxus Sinensis	Chinese Yew	1 00
49 **Cryptomeria** Japonica. Ditto, 4 to 8 feet. at 75 cts. per foot.	Japan weeping Cypress	$1 to 2 00
50 Cryptomeria Lobbiana	Japan dense-leaved Cypress	$3 to 4 00
51 Crytomeria Nana	Japan dwarf Cypress	2 00
52 **Cunninghamia Lanceolata.** *Cunninghamia sinensis*	Chinese lanceolate Cunninghamia	50 to 2 00
53 Cunninghamia Glauca	Glaucous-leaved	3 00
54 **Cupressus** Australis	**Cypress,** Australian	1 00
55 Cypressus Chinensis (pendula)	Cypress, Chinese pendulous	2 00
56 Cupressus Elegans	Cypress, Elegant	1 00
57 Cupressus Ericoides	Cypress, Heath-leaved	1 00
58 Cupressus Expansa. *Horizontalis.*	Cypress, Spreading	50 to 1 00
59 Cupressus Flagelliformis	Cypress, Flagelliform	$2 to 3 00
60 Cupressus Funebris	Cypress, Chinese funebral. (Droops when large)	50 to 1 50
61 Cupressus Goveniana	Cypress, Gowen's pale green	2 00
62 Cupressus Gracilis	Cypress, Graceful	3 00
63 Cupressus Knightiana elegans	Cypress, Knight's	2 00
64 Cupressus Lambertiana	Cypress, Lambert's	$1 to 2 00
65 Cupressus Lusitanica glauca	Cypress, Portuguese glaucous	1 00
66 Cupressus Macrocarpa	Cypress, Large-coned	$1 to 1 50
67 Cupressus Mexicana	Cypress, Mexican pyramid, 2 to 4 feet.	$1 to 2 00
68 Cupressus Pendula	Cypress, Weeping	1 00
69 Cupressus Pyramidalis	Cypress, Pyramidal, beautiful	50 to 1 00
70 Cupressus Religiosa	Cypress, Sacred	2 00
71 Cupressus Stricta	Cypress, Erect	50

Botanical Name.	Common Name.	Price.
72 Cupressus Thuyoides	American white cedar	50
73 Cupressus Thuyoides variegata	Gold variegated cedar	3 00
74 Cupressus Torulosa	Cypress, Twisted Nepal	75
75 Cupressus Tournefortii	Cypress, Tournefort's	$1 to 2 00
76 Cupressus Uhdeana	Cypress, Uhdeana	2 00
77 **Fitzroya Patagonica**	**Patagonian Fitzroy**	$3 to 5 00
78 **Dacrydium Franklini**	**Dacrydium,** Franklin's	2 00
79 **Juniperus** Argentea	**Juniper,** Silvery-leaved, beautiful, very hardy	1 50
Ditto, 3 to 8 feet, $1 per foot.		
80 Juniperus Bacciformis	Juniper, Berry-bearing	1 50
81 Juniperus Bedfordiana	Juniper, Bedford	75
82 Juniperus Bermudiana	Juniper, Bermudas Cedar	1 50
83 Juniperus Canescens	Juniper, Hoary-leaved	2 00
84 Juniperus Caroliniana	Juniper, Carolina Spiral	75 to 1 00
85 Juniperus Chinensis	Juniper, Chinese	75
Ditto, 3 to 6 feet, $1 per foot.		
86 Juniperus Communis	Juniper, English	50
87 Juniperus Communis pendula	Juniper, Weeping English	1 50
88 Juniperus Cracovia	Juniper, Cracow dark green	75
89 Juniperus Dealbata	Juniper, Dealbata	1 50
90 Juniperus Davurica	Juniper, Daurian	75
91 Juniperus Dioica	Juniper Dicœcious	1 50
92 Juniperus Dumosa, vel decumbens	Juniper, Dense-leaved dwarf, beautiful foliage	1 50
93 Juniperus Echinoformis	Juniper, Echinoform	1 00
94 Juniperus Elegans glauca	Juniper, Elegant Glaucous	1 00
95 Juniperus Ericoides	Juniper, Heath-like	1 00
96 Juniperus Excelsa	Juniper, Himalaya	75
97 Juniperus Flaccida	Juniper, Flaccid	1 25
98 Juniperus Gossanthanea	Juniper, Gossanthanea	2 00
99 Juniperus Hibernica	Juniper, Irish spiral, beautiful, exceedingly hardy	1 00
Ditto, 3 to 4 feet, 50 cts. per foot.		
Ditto, 5 to 8 feet, 75 cts. per foot.		
100 Juniperus Hudsonii	Juniper, Hudson's	1 00
101 Juniperus Japonica	Juniper, Japan	2 00
102 Juniperus Oblonga pendula	Juniper, Oblong Weeping	2 00
103 Juniperus Oxycedrus	Juniper, Brown-berried	1 50
104 Juniperus Phœnicea, or Lycia	Juniper, Phœnician	75
105 Juniperus Prostrata	Juniper, Trailing	50
106 Juniperus Recurva	Juniper, Recurved, or Pendulous	1 00
107 Juniperus Reevesiana *Flagelliformis.*	Juniper, Reeves' Flagelliform	$1 to 1 50
108 Juniperus Religiosa	Juniper, Sacred	1 75
109 Juniperus Sabina	European Savin	38
110 Juniperus Sabina variegata	Variegated Savin	75
111 Juniperus Sphœrica	Juniper, Spherical	5 00
112 Juniperus Squamata	Juniper, Scaly	50
113 Juniperus Suecica	Juniper, Swedish Conical, beautiful, exceedingly hardy	50 to 75
Ditto, 3 to 4 feet, 50 cts. per foot.		
Ditto, 5 to 10 feet, 75 cts. per foot.		
114 Juniperus Tamariscifolia	Juniper, Tamarisk-leaved Savin	50 to 75
115 Juniperus Thurifera	Juniper, Spanish Incense	75
116 Juniperus Virginiana	Juniper, Red Cedar	25
	Ditto, extra size	50 to 1 00
117 Juniperus Virginiana pendula	Juniper, Weeping Red Cedar	1 00
118 **Libocedrus** Chilensis	Chilian Libocedrus	$1 to 2 00
119 Libocedrus Decurrens (Torrey)	Californian Libocedrus	5 00
120 Libocedrus Doniana	Don's Libocedrus	$1 to 2 00
Picea amabilis, see *Abies.*		
121 Picea Balsamea	Balsam Fir	25 to 50
	Ditto, 4 to 14 feet	$1 to 4 00
122 Picea Cephalonica	Cephalonian	$1 to 2 00
123 Picea Fraseri	Fraser's Balsam Fir	75 to 1 50
Picea Grandis, see *Abies Douglassii.*		
124 Picea Nobilis	Californian Noble Fir	$1 50 to 2 00

	Botanical Name.	Common Name.	Price.
125	Picea Nordmaniana	**Fir,** or **Spruce,** Nordman's	2 00
126	Picea Pectinata	Fir, or Spruce, European Silver	50 to 75
		Ditto, 3 to 8 feet	$1 to 4 00
127	Picea Pectinata pendula	Fir, or Spruce, Weeping silver	$1 to 2 00
128	Picea Pindrow	Fir, or Spruce, Kumaon Pindrow	1 50
129	Picea Pichta—Sibirica	Fir, or Spruce, Altaic	$1 to 2 00
130	Picea Pinsapo	Fir, or Spruce, Mount Atlas	$1 to 2 00
131	Picea Webbiana	Fir, or Spruce, Nepal purple-coned	$1 to 1 50
	Ditto, larger size, $2 to $3.		
132	**Pinus** Austriaca	**Pine,** Austrian Black	50
		Ditto, 4 to 8 feet	$2 to 4 00
133	Pinus Benthamiana	Pine, Bentham's Californian, splendid tree, eatable fruit	3 00
	Ditto, 5 feet, $5.		
134	Pinus Calabriensis	Pine, Calabrian, splendid	$1 to 2 00
135	Pinus Californica	Pine, Monterey	3 00
136	Pinus Cembra	Pine, Siberian Cembran, grows slow	1 00
		Ditto, larger size	2 00
137	Pinus Cembroides	Pine, Cembra-like	3 00
138	Pinus Coulterii	Pine, Great-hooked	3 00
139	Pinus Devoniana	Pine, Long-leaved	3 00
140	Pinus Excelsa	Pine, Bhotan Lofty	50 to 1 00
141	Pinus Fremontiana	Pine, Fremont's Californian	5 00
142	Pinus Gerardiana	Pine, Nepal short-leaved	2 00
143	Pinus Haguensis	Pine, Hagueneau	1 00
144	Pinus Halepensis	Pine, Aleppo	75
145	Pinus Hartwegii	Pine, Hartweg's Californian	2 50
	Ditto, 5 feet, $5.		
146	Pinus Inops	Pine, New Jersey	25
147	Pinus Insignis	Pine, Californian remarkable	$1 to 2 00
148	Pinus Lambertiana	Pine, Lambert's gigantic	2 00
149	Pinus Laricio	Pine, Corsican	50 to 75
150	Pinus Macrocarpa, vel Sabiniana	Pine, Sabine's Californian	3 00
	Ditto, 5 feet, $5.		
151	Pinus Mitis	Pine, American yellow	50
152	Pinus Montezumæ	Pine, Montezuma's	$2 to 3 00
153	Pinus Monticola	Pine, Short-leaved Weymouth	2 50
154	Pinus Mughus, or Pumilio	Pine, Dwarf mountain	50 to 75
155	Pinus Muricata	Pine, Californian muricate	5 00
156	Pinus Nivea	Pine, Snowy-leaved	2 00
157	Pinus Oocarpa	Pine, Mexican Oocarpe	3 00
158	Pinus Pallassiana	Pine, Pallasian	2 00
159	Pinus Palustris, longifolia *Australis.*	Pine, Carolina pitch	$1 to 2 00
160	Pinus Patula	Pine, Mexican spreading-leaved	2 50
161	Pinus Pineaster	Pine, Cluster coned	50 to 1 00
		Ditto, 4 to 8 feet	$2 to 4 00
162	Pinus Pinea	Pine, Italian stone, (eatable nuts)	75 to 1 50
163	Pinus Ponderosa	Pine, Oregon, heavy wood	2 00
164	Pinas Pungens	Pine, Spiny-coned	1 50
165	P.nus Radiata	Pine, Californian radiate	3 00
166	Pinus Resinosa	Pine, American red, long beautiful foliage	50 to 1 00
167	Pinus Rigensis	Pine, Riga	50
168	Pinus Rigida	Pine, Prickly-coned, or Pitch	50
169	Pinus Spiralis	Pine, Californian spiral	3 00
	Ditto, 3 to 4 feet, $5.		
171	Pinus Strobus	Pine, White or Weymouth	25 to 50
	Ditto, 4 to 10 feet, $1 to $3.		
172	Pinus Strobus nana	Pine, Dwarf white	75
173	Pinus Sylvestris	Pine, Scotch pine, or fir	25 to 50
	Ditto, 4 to 10 feet, $1 to $3.		
174	Pinus Sylvestris variegata	Pine, Variegated Scotch pine, or fir	3 00
175	Pinus Tœda	Pine, Foxtail	75
176	Pinus Tuberculata	Pine, Californian tuberculate	3 00
177	**Podocarpus** Coreanus	**Chinese Yew,** Coreanus	2 00
178	Podocarpus Coriacea	Chinese Yew, Thick-leaved	50 to 75
179	Podocarpus Longifolius	Chinese Yew, Long-leaved	1 00

Botanical Name.	Common Name.	Price.
180 Podocarpus Mackii	Chinese Yew, Mackii	2 00
181 Podocarpus Macrophylla	Japan Yew, Large-leaved	1 00
182 Podocarpus Neriifolia	Chinese Yew, Oleander-leaved	1 25
183 Podocarpus Sinensis	Chinese Yew, Chinese Sylvan	1 50
184 Podocarpus Totara	Chinese Yew, Totara	2 00
185 **Saxegothea** conspicua	Showy Saxegothea	1 00 to 3 00
Taxodium (evergreen.)	**Yew-leaved Cypress.**	
186 Taxodium Horsfalliæ	Yew-leaved Cypress, Horsfall's	2 00
187 Taxodium Sempervirens	Californian red wood	50 to 1 00
Ditto, larger size, $2.		
Taxodium (deciduous.)	**Deciduous Cypress.**	
188 Taxodium Distichum	Deciduous Cypress, American	50
189 Taxodium Intermedium	Deciduous Cypress, Intermediate	1 00
190 Taxodium Japonicum	Deciduous Cypress, Japan	1 50
191 Taxodium Sinensis pendulum	Deciduous Cypress, Chinese weeping	1 50
192 **Taxus** Baccata	**Yew,** English	50 to 75
Ditto, 3 to 6 feet, $1 per foot.		
193 Taxus Baccata aureis	Yew, Gold-striped	1 00
194 Taxus Baccata argenteis	Yew, Silver-striped	1 50
195 Taxus Canadensis	Yew, American Trailing	50
196 Taxus Devoniana		
197 Taxus Dovastonii pendula	Yew, Weeping	75 to 1 00
198 Taxus Elegantissima	Yew, Elegant	1 00
199 Taxus Erecta, or Stricta	Yew, Erect	50 to 1 00
Ditto, 2 to 5 feet, $1 per foot.		
200 Taxus Ericoides	Yew, Heath-leaved	2 00
201 Taxus Hibernica fastigiata	Yew, Irish spiral	50 to 75
Ditto, 2 to 4 feet, $1 per foot.		
202 Taxus Imperialis	Yew, Imperial	2 00
N. B. For other species, see *Cephalotaxus.*		
203 **Thuya** Asplenifolia	**Arbor Vitæ,** Fern-leaved	50
204 Thuya Aurea	Arbor Vitæ, Gold-tipped, beautiful	75 to 1 00
Ditto, larger size, $2.		
205 Thuya Australis	Arbor Vitæ, Australian	1 25
206 Thuya Californica	Arbor Vitæ, Californian dark green	3 00
207 Thuya Dolobrata	Arbor Vitæ, Dolobrata	1 00 to 3 00
208 Thuya Doniana, see *Libocedrus.*		
209 Thuya Gigantea	Arbor Vitæ, Californian gigantic	5 00
210 Thuya Glauca (Biotia)	Arbor Vitæ, Glaucous	3 00
211 Thuya Hybrida	Arbor Vitæ, Hybrid	1 00
212 Thuya Japonica	Arbor Vitæ, Japan	75
213 Thuya Nepalensis *Tartarica.*	Arbor Vitæ, Nepal, or Tartarian	50 to 75
214 Thuya Occidentalis	Arbor Vitæ, American	25 to 50
Ditto, extra large and fine, 5 to 10 feet, $1 to $3.		
215 Thuya Occidentalis variegata	Arbor Vitæ, Variegated American	75
216 Thuya Orientalis	Arbor Vitæ, Chinese	25 to 50
Ditto, larger size, $1 to $1 50.		
217 Thuya Pendula filiformis	Arbor Vitæ, Weeping-thready	1 00
218 Thuya Plicata	Arbor Vitæ, Plaited-leaved	50 to 75
219 Thuya Sphœroidalis	Arbor Vitæ, Sphœroid	2 00
220 Thuya Stricta	Arbor Vitæ, Upright	25 to 2 00
221 Thuya Sibirica	Arbor Vitæ, Siberian, compact, very hardy	50 to 75
Ditto, 2½ to 4 feet, $1 to $2 50.		
222 Thuya Wareana	Arbor Vitæ, Ware's new	75
223 **Torreya** Californica	**Torreya,** Californian	5 00
224 Torreya Humboldtiana	Torreya, Humboldt's	5 00
225 Torreya Nucifera	Torreya, Nutbearing	1 00 to 2 00
226 Torreya Taxifolia	Torreya, Yew-leaved	50 to 1 00
227 **Washingtonia,** or Sequoia Gigantea	Great California tree, 1 and 2 years	

OTHER EVERGREEN TREES.

Note.—All these require some winter covering of straw, &c.

Botanical Name.	Common Name.	Price.
229 **Azara** crassifolia	Thick-leaved Azara	1 00
230 Cerasus Caroliniana	Wild Orange	50
231 **Eriobotrya** Japonica	Japan Medlar, large foliage	75 to 2 00
232 **Laurus** Camphora, requires some protection	Chinese Camphor	5 00
233 **Magnolia** grandiflora	Great flowered Magnolia	50 to 2 00
234 Magnolia Semiplena	Semidouble Magnolia	3 00
235 Magnolia Hartwicus	Hartweg's new evergreen Magnolia	5 00
236 Magnolia Oxoniensis	Exmouth Magnolia	$1 to 2 00
Ferruginea.		
237 Magnolia Gallisonari	Angiers Magnolia	1 50
238 Magnolia Præcox	Early Flowering Magnolia	1 50
239 Magnolia Undulata	Waved-leaved Magnolia	50 to 2 00

N. B. Some of the above of extra size, $3 to $5.

240 **Olea** Europea	Fruit-bearing Olive, 4 varieties	2 00
241 Olea Buxifolia	Box-leaved Olive	2 00
242 **Quercus** Californica	Californian Olive-leaved Oak	2 00

EVERGREEN SHRUBS.

N. B. Extra large Shrubs can be supplied of many kinds, at proportionate rates.

Note.—Those which require to be protected in this latitude during the winter, by a covering of straw, are designated by an asterisk.

Abelia. See page 39.		
1 **Andromeda** Axillaris	**Andromeda,** Axillary flowered	50
2 Andromeda Floribunda	Andromeda, Profuse flowered,	2 00
3 Andromeda polyfolia	Andromeda, Many-leaved	38
4 ***Arbutus** unedo	Evergreen Strawberry tree	50
5 *Arbutus Rubra	Red-flowered Strawberry tree	75
6 *Arbutus Rubra plena	Double-flowered Strawberry tree	1 00
7 *Arbutus Andrachne	Levant Strawberry tree	1 50
8 **Ardisia** Japonica, or Serrulata, very hardy	Ardisia, Japan	40 to 1 00
9 *Ardisia Crenulata	Chinese Crenulate Ardisia	40
10 **Aucuba** Japonica	Japan Gold-dust tree	50
Ditto, 2 to 4 feet, $1 to $3		
11 **Berberis** Aruacensis	Berberry, Aruacencis	2 00
12 *Berberis Darwinii	Patagonian Berberry	50 to 2 00
13 Berberis Fortunei. (*See* Mahonia)	Fortune's Chinese Berberry	1 00
14 Berberis Dulcis	Sweet-fruited Berberry	38
15 Berberis Jamesonii	Jameson's Berberry	1 00
16 Berberis Knightii	Knight's Berberry	1 00
For other species, *see* Mahonia.		
17 **Buxus** arborescens lancifolia	**Tree Box,** Lance-leaved, very hardy	25 to 50
18 Buxus Angustifolia	Tree Box, Narrow-leaved	50
19 Buxus Latifolia	Tree Box, Broad-leaved	50
20 Buxus Myrtifolia	Tree Box, Myrtle-leaved	1 00
21 Buxus Argentea	Tree Box, Silver-striped	50
22 Buxus Aurea marginata	Tree Box, Gold-striped	50

N. B. Plants of the 6 above varieties, 2 to 4 feet, $1 to $4.

23 Buxus Aurea maculata	Tree Box, Gold-blotched	1 00
24 Buxus Balearica	Tree Box, Minorca	1 00
25 Buxus Glauca	Tree Box, Glaucous-leaved	50
26 Buxus Thymifolia	Tree Box, Thyme-leaved	50
27 Buxus Suffruticosa	Dwarf Box, for borders. See page 33.	
28 ***Camellia** Japonica	**Camellia,** Japan, 250 splendid varieties.	
29 ***Cerasus** ilicifolia	Californian Holly-leaved Cherry	1 50
30 Cerasus Laurocerasus	English Laurel	25 to 1 00
31 Cerasus Variegata	English Striped-leaved Laurels	50 to 1 00

Botanical Name.	Common Name.	Price.
32 Cerasus Lusitanica	Portugal Laurel	50 to 1 00
33 *Cleyera Japonica	Japan Cleyera	1 50
34 *Cosbea coccinea	Cosbea, Scarlet	5 00
35 Cotoneaster Buxifolia	Cotoneaster, Box-leaved	40
36 Cotoneaster Marginata	Cotoneaster, Margined	50
37 Cotoneaster, Rotundifolia	Cotoneaster. Round-leaved	50
38 Cotoneaster Microphylla	Small-leaved Cotoneaster	50
39 Cotoneaster Thymifolia	Thyme-leaved Cotoneaster, and others.	50
40 Cratægus crenulata	Crenulate-leaved Thorn	1 50
41 Cratægus Sinensis (Stransvasia)	Chinese Thorn	1 00
42 Cratægus Pyracantha	Fiery Thorn	50
43 Daphne Alpina	Daphne, Alpine purple	1 00
44 *Daphne Indica	Daphne, Chinese fragrant	50
45 *Daphne Argentea	Daphne, Chinese Silver-striped	75
46 Daphne Fortunei	Daphne, Fortune's Chinese	1 50
47 Daphne, Japonica	Japan Daphne	1 00
48 Eleagnus Crispa	Oleaster, or Wild Olive, Curl-leaved	1 00
49 Eleagnus Argentea	Oleaster, Silvery-leaved	50
50 Eleagnus Parviflora	Oleaster, Japan small-leaved	1 00
51 Eleagnus Reflexa	Oleaster, Japan reflex-leaved	1 00
52 Erica vulgaris, &c	Scotch Heather, 8 varieties	50
53 Escallonia floribunda	Escallonia, Profuse-flowered	50
54 Escallonia macrantha	Escallonia, Large-leaved	40
55 Escallonia organensis	Escallonia, Organic	50
56 Escallonia rubra, &c	Escallonia, Red-flowering	35
57 Euonymus Japonicus	Euonymus, Japan green	25 to 30
58 Euonymus Argentea	Euonymus, Japan Silver-striped	25 to 30
59 Euonymus Aurea	Euonymus, Japan Gold-striped	50
60 Euonymus Citrifolius	Euonymus, Orange-leaved	1 00
61 Euonymus Fimbriatus	Euonymus, Chinese laurel-leaved	1 00 to 1 50
62 Euonymus Rosmarinifolia	Euonymus, Rosemary-leaved	50
63 *Fabiana imbricata	Fabiana, Imbricated	38
64 *Garreya Macrophylla	Garreya, Large-leaved	1 00
65 Gaultheria procumbens	Trailing Gaultheria	50
66 *Gaultheria Shallon	Californian Gaultheria	50
67 Genista, see *Spartium*.		
68 Hedera arborescens	Tree Ivy	50
69 Helianthemum apeninum	Helianthemum, Alpine	1 00
70 Ilex Altaclarense	Holly, Altaclarense	2 00
71 Ilex Aquifolium	Holly, European	50 to 1 00
Ditto, 3 to 5 feet, $2 50 to $4.		
72 Ilex Argentea	Holly, Silver-striped	50 to 1 00
73 Ilex Aurea	Holly, Gold-striped	75 to 1 00
74 Ilex Balearica	Holly, Minorca large-leaved, beautiful	1 00 to 1 50
75 Ilex Balearica variegata	Holly, Minorca variegated-leaved	1 50
76 Ilex Buxifolia	Holly, Box-leaved	1 00
77 Ilex Cassine	Holly, Cassine, small-leaved	75
78 Ilex Calimistrata	Holly, Twisted-leaved	1 00
79 Ilex Canadensis	Holly, Canadian	50
80 Ilex Contorta picta	Holly, Variegated Contort	1 50
81 Ilex Cornuta	Holly, Chinese Cornute, splendid	3 00
82 Ilex Crassifolia	Holly, Thick-leaved	1 00
83 Ilex Crispa	Holly, Curled-leaved	1 00
84 Ilex Dahoon	Holly, American Dahoon	75
85 Ilex Dipyrena	Holly, Dipyrena	2 00
86 Ilex Ferox	Holly, Green Hedgehog	75
87 Ilex Ferox variegata	Holly, Striped-leaved Hedgehog	1 00
88 Ilex Furcata	Holly, Chinese Furcate	3 00
89 Ilex Gigantea	Holly, Gigantic	3 00
90 Ilex Hibernica	Holly, Irish, dark green	1 00
91 Ilex Japonica latifolia	Holly, Japan broad-leaved	1 50 to 2 00
92 Ilex Laurifolia	Holly, Laurel-leaved	1 00
93 Ilex Marginata alba	Holly, White-edged	75
94 Ilex Marginata aurea	Holly, Gold-edged	75
95 Ilex Microcarpa	Holly, Chinese small-berried	3 00
96 Ilex Myrtifolia	Holly, Myrtle-leaved	1 00
97 Ilex Nigricans	Holly, Blackish-leaved	1 50
98 Ilex Opaca	Holly, American prickly	50

	Botanical Name.	Common Name.	Price.
99	Ilex Paraguensis	Holly, Paraguay Tea	2 00
100	Ilex Perado	Holly, Madeira thick-leaved	1 50
101	Ilex Scottica	Holly, Scotch pale green	50 to 1 00
102	Ilex Serratifolia	Holly, Serrated-leaved	75
103	Ilex Tarago of Japan	Holly, Japan Tarago, splendid foliage.	2 00 to 3 00
104	Ilex Tortuosa	Holly, Tortuose	50 to 1 00
105	Ilex Vomitoria	Holly, Yapan Tea	1 00
106	*Illicium floridanum	**Aniseed Tree,** Purple-flowered	50 to 1 00
107	*Illicium Japonicum	Aniseed Tree, Japan yellow	1 00
108	*Illicium Parviflorum	Aniseed Tree, Small-flowered	1 00
109	*Illicium Religiosum	Aniseed Tree, Chinese sacred	1 00
110	**Kalmia** latifolia	**Laurel,** American	25 to 50
111	Kalmia latifolia Nivea	Laurel, Snow white	2 00
112	Kalmia Angustifolia	Laurel, Narrow-leaved	50
113	***Laurus** regalis	Laurel, Californian Bay, fragrant	1 00 to 2 00
114	*Laurus Nobilis	Laurel, Sweet Bay, or Apollo's Laurel	35 to 75
115	Laurus *Undulata*	Laurel, Wave-leaved	75
116	**Lavendula** spica	**Lavendar**	25
117	**Ledum** latifolium	**Ledum,** Broad-leaved	50
118	Ledum Palustre	Ledum, Dwarf	50
119	**Leycesteria** formosa	Showy Leycesteria	50
120	**Ligustrum** italicum	**Privet,** Evergreen	20
121	*Ligustrum Japonicum	Privet, Chinese	50

N. B. The following is a most beautiful and unique family of Evergreens, with profuse clusters of spring flowers. Extra sized plants, $2 to $3.

122	**Mahonia** Aquifolia	**Mahonia,** Holly-leaved	25 to 50
123	Mahonia Diversifolia	Mahonia, Diverse-leaved	1 00
124	Mahonia Fascicularis	Mahonia, Californian cluster-flowered.	25 to 50
125	Mahonia Fortunei	Mahonia, Fortune's Chinese	1 00
126	Mahonia Glumacea	Mahonia, Dwarf Glumaceous	75
127	Mahonia Gracilis	Mahonia, Graceful	1 00
128	Mahonia Intermedia	Mahonia, Intermediate	1 00
129	Mahonia Japonica	Mahonia, Japan pinnate	5 00
130	Mahonia Nepalensis	Mahonia, Nepal large-leaved	3 50
131	Mahonia Repens	Mahonia, Creeping-rooted	50
132	Mahonia Rotundifolia	Mahonia, Round-leaved	1 00
133	Mahonia Serrata	Mahonia, Serrated-leaved	1 50
134	*Mahonia Tenuifolia	Mahonia, Narrow-leaved	1 50
135	*Mahonia Trifoliata	Mahonia, Trifoliate	1 50
136	**Myrica** cerifera	Wax Myrtle, fragrant	38
137	**Neillia** thyrsiflora	Thyrse-flowered Neillia	75
138	**Olea** fragrans	**Olive,** Chinese Fragrant	38 to 1 00
139	Olea Major latifolia	Olive, Chinese large-leaved	2 00
140	**Photinia** Californica	**Photinia,** Californian Laurel-leaved	2 00
141	Photinia Arbutifolia	Photinia, Arbutus-leaved	1 50
142	Photinia Serrulata	Photinia, Glossy dark-leaved	50
	Ditto, extra size, $1 to $2.		
143	***Philesia** buxifolia	**Philesia,** Box-leaved	2 50 to 3 00
144	***Phillyrea** angustifolia	**Phillyrea,** Narrow-leaved	50
145	*Phillyrea Latifolia	Phillyrea, Broad-leaved	50
146	*Phillyrea Media	Phillyrea, Intermediate	50
147	*Phillyrea Oleafolia	Phillyrea, Olive-leaved	50
148	*Phillyrea Serratifolia	Phillyrea, Serrate-leaved	75
149	***Pittosporum** tobira	**Pittosporum,** Chinese Fragrant	35
150	*Pittosporum tobira variegata	Pittosporum, Chinese striped	40
151	*Pittosporum Undulatum	Pittosporum, Waved-leaved	50 to 75
152	*Pittosporum Undulatum variegata	Pittosporum, Striped Wave-leaved	1 00
153	*Pittosporum Mayii	Pittosporum, Mayii	1 00
154	**Prinos** glaber	Olive-leaved Inkberry	50
155	**Prunus** *illicifolia*	Californian Plum	1 00
156	**Quercus** Ilex	**Oak,** English Evergreen	1 00
157	Quercus Suber	Oak, Spanish Cork	1 00
158	**Rhamnus** crocea	Californian Buckthorn	2 00
159	Rhamnus Alaturnus	Broad-leaved Alaturnus	1 00
160	**Rosmarinus** officinalis	Rosemary	25
161	**Ruscus** aculeatus	Butcher's Broom, singular	75

Botanical Name.	Common Name.	Price.
162 **Skimmia** Japonica	Japan Skimmia	5 00
163 **Spartium** scoparium	Scotch Broom	25
Ditto, large, 5 to 7 feet, 50 cts. to $1.		
164 **Ulex** europeus, pleno	Double Whin, or Furze	50
165 *Viburnum tinus	Laurustinus	38
166 *Viburnum Japonicum	**Viburnum,** Japan	1 00
167 *Viburnum Lucidum	Viburnum, Shining-leaved	50
168 *Viburnum Macrocephalum	Viburnum, Chinese Snowball	5 00
169 *Viburnum Odoratissimum	Viburnum, Fragrant	50
170 *Viburnum Plicatum	Viburnum, Chinese Plicate	3 00
171 ***Yucca** Aloefolia	**Adam's Needle,** Aloe-leaved	50
172 *Yucca Aloefolia variegata	Adam's Needle, Striped Aloe-leaved	75
173 Yucca Angustifolia	Adam's Needle, Narrow-leaved	1 00
174 Yucca Filamentosa	Adam's Needle, Thready-leaved	25 to 50
175 Yucca Filamentosa variegata	Adam's Needle, Striped-leaved Thready	2 00
176 Yucca Flaccida	Adam's Needle, Profuse-flowered	75
177 Yucca Glaucescens	Adam's Needle, Glaucous-leaved	1 00
178 Yucca Gloriosa	Adam's Needle, Erect	50 to 1 00
179 Yucca Japonica	Adam's Needle, Japan	5 00
180 Yucca Recurvifolia	Adam's Needle, Reflexed-leaved	50

RHODODENDRON, OR ROSE BAY.

	Price.		Price.
1 Atrovirens	$0 75	20 Blandum	$1 50
2 Azaloides	75	21 Candidissimum	1 50

4 Edgworthi	3 50 to 5 00		

SELECTIONS OF EVERGREEN TREES AND SHRUBS.

The Norway Spruce, as a beautiful broad conical tree, of extreme hardihood, and suited to almost any location, commands universal approbation. The Drooping variety, interspersed with the Upright growing one, presents an agreeable contrast. The European White and American White Spruces are still more beautiful, and assume a more spiral and less spreading form, as they advance in growth. The Hemlock, or Weeping Spruce, when allowed to branch from the ground, with ample space for expansion, is one of our most graceful trees. There are many other Spruces of great beauty, but, being more rare, they are not obtainable of sufficiently large size for immediate embellishment.

Of the Cedars, the most beautiful is the Silvery-leaved Deodar, of graceful form, with drooping branches, and of very rapid growth. Some trees of this species were partially injured here during the past unprecedented winter (55-56), but they have regained their vigor; and we may rest assured that, when such trees shall have attained size and strength, they will withstand the climate perfectly, and further to the South they will, of course, be permanently secure, even when of the smallest size. The deep-green Deodar forms a more spiral tree, of great beauty, and has proved itself the hardiest of its class, and is also of rapid growth. On this account it is destined to take precedence of the Cedar of Lebanon, whose growth is comparatively slow, with branches much more spreading. Among the species of Cypress, the most lofty and beautiful are the Pyramidalis and Expansa, so noted for ornamenting the cemeteries of Oriental Countries and of the south of Europe. These two are well suited to localities south of Washington, but are often injured severely in this latitude.

The most desirable Pines are the White and Red Pines of our own Country, and the Austrian, Pineaster, Scotch, Calabrian, Bhotan, and Cembran, and the Bentham, Sabine, and Spiral Californian Pines. Of the Junipers the most symmetrical and conical are the Silvery-leaved, Irish, and Swedish,—all of the most hardy character, capable of sustaining the severest northern winters. The Chinese is also quite ornamental, though attaining only a moderate height; but the Carolina Conical Juniper, or Cedar, will reach a height of thirty feet, with a beautiful head. The splendid Cryptomerias of Japan, with their most graceful drooping foliage, sustain our winters here, but will not succeed further to the north. The American, Siberian, and Chinese Arbor Vitæ are all well suited for general adornment, and also for screens and hedges. The two last do not attain to an equal size with the former. Of the Yew family the English Upright, English Spreading, and the Irish, are the principal species of interest; the former is much the most desirable, and grows more rapidly than any other of its class.

The Magnolia grandiflora and its varieties produce the most splendid flowers of all the Evergreen family; and, by binding them in straw, we have preserved fine trees, now of twenty years' growth.

Evergreen Shrubs.—The most desirable are the Mahonias and Rhododendrons, for their splendid foliage and profusion of bloom, the Aucuba, the various Hollies, Euonymus, and Photinias, and the Tree Box of the different varieties, for the beauty of their foliage, and for permanent ornament during winter, when they serve so greatly to cheer and enliven the "Winter Garden."

CHINESE TREE PÆONIES—PÆONIA MOUTAN.

These are the most splendid and showy of all Flowering Shrubs, and among the most rare.

All are double, unless denoted otherwise. They are also perfectly hardy, and will withstand the winters of our most Northern States.

Extra large plants, five to ten years' growth, of No. 1 and 2, and of several other varieties, can be supplied at $5 each, and upwards. All are on their own roots, and not ingrafted in the usual defective manner.

		Price.
1	BANKSII, double rosy, very large, magnificent, protuberant, fragrant	75 to 1 00
	DITTO, larger size	2 00
2	PAPAVERACEA, poppy flowered, very large, single white, with crimson center	75 to 1 00
	DITTO, larger size	2 00
3	ROSEA ODORATA, bright roseate, very large, semidouble, weak growth	2 00 to 3 00

The following eight very splendid varieties were originated by us from seeds:

5	Banksii pallida plenissima	Large rosy blush, splendid, protuberant, becomes nearly white	3 00
6	Banksii coronata plenissima	Coronet flowered	5 00
7	Banksii purpurascens minor	Purplish minor Banksian	3 00
8	Banksii rosacea plenissima	Roseate Banksian	3 00
9	Papaveracea carnea semiplena	Semidouble blush Poppy flowered	3 00

	Botanical Name.		Price.
11	Papaveracea rosea pallida plena	Imperial Poppy flowered	5 00
12	Papaveracea nova plena	Elegant Poppy flowered	3 00
13	Rosea carminea plena	Prince's splendid carmine	6 00

The following are rare imported varieties:

16	Alba plena	Belgian white	3 00
17	Arethusa	Exterior white, center bright crimson	4 00
18	Carlii	White, with purple center	4 00
20	Chauverii	Blush Lilac, very large	5 00
21	Incarnata	Flesh-colored	2 00
24	Heldii	Rosy white, tinged with purple	4 00
26	Le Soleil	Imbricated, pale roseate	4 00
27	Leodiense	Blush white, crimson center	4 00
28	Mirbellii	Double blush	3 00
29	Maxima plena	Large rosy blush, crimson center	2 50
32	Papaveracea carneo	Incarnate Poppy flowered	3 00
33	Papaveracea niveo	Single blush white, small	1 50
34	Phœnicea	Phœnician	2 50
36	Plenissima lilacina major	Large lilac, very double	5 00
37	Rosa odorata phœnicea	Phœnician rose colored	3 00
38	Schulthesii	Deep pink, center rosy crimson	3 00
39	Splendens	Rosy crimson with pale shade, protuberant, pleasant odor, extra	5 00
40	Victoria alba (Mathieu)	Double white	4 00
41	Violacea superba nova	Superb violet	4 00
42	Walnerii	Bright purplish lilac	4 00
43	Rosa Gallica	French roseate	3 00
45	Comte de Flandres	Rosy lilac	5 00
46	De Bugny	Blush white, fine	4 00
47	Downing	Bright roseate	6 00
48	Elizabeth	Bright red, splendid	8 00
49	Fragrans maxima	Very large, fine odor	5 00
50	Hissiana	White	4 00
51	Neumannii	Neumann's Carmine, splendid, extra	4 00
52	Papaveracea plena	Bicolor Poppy flowered	5 00
53	Purpurea plena undulata	Purple undulated	5 00
54	Rienzi	Blush roseate, crimson center, fine, distinct	6 00
55	Rosæformis	Rose form	3 00

87	Papaveracea purpurea pallida	*Pale purple*	5 00
88	Banksii purpurea pallida	*Large* pale purple	5 00

SPLENDID CHINESE HERBACEOUS DOUBLE PÆONIES.

These are varieties of Pæonia Sinensis, with the exception of No. 66 and 97. They are mostly very fragrant, and form the most brilliant appendage of the Garden at their season of flowering, which is in June and July. They are of the most easy culture, and will support the severest Canadian winters, the most of the species being natives of Siberia and Chinese Tartary, and none of them from warm latitudes. We supply blooming roots and not mere slips, such as are frequently sold, and the prices are much below the usual rates, our stock being by far the largest in the Union.

1	Alba patens	Beautiful white, yellow center	1 00
2	Albiflora rosea	Fine pale roseate	50
3	Amabilis	White, exterior rosy tinge	50
4	Amabilis grandiflora	Exterior incarnate, center pale straw	50
5	Amabilis lilacina	Exterior lilac, center yellowish white	75
6	Anemonæflora	Very large, white, center yellowish, rosy stamens	50

50 Roses, do do do	12 00

NEW AND SUPERIOR ROSES.

We have obtained from France, Belgium, and England all the new Roses that have been latterly brought to notice, comprising such as have been announced in various European and American periodicals; and we shall announce them in our forthcoming "Catalogue of Roses." In the mean time we will furnish them to applicants. The three following American Roses can also be supplied:

King of Prairies	$2 00
Beauty of Green Mount	2 00
Woodland Margaret	2 00

In October, 1857, the above three Roses will be reduced to $1 each.

FRUIT TREES SUITED TO THE SOUTH.

PEAR TREES on the Angers Quince stock.
CHERRIES on the Mahaleb stock.
APPLES on the Doucin and Paradise stock.

NEW CATALOGUES IN PRESS.

A CATALOGUE OF HERBACEOUS FLOWERING PLANTS, comprising all the new and extra varieties.

A CATALOGUE OF ALL BULBOUS FLOWERING PLANTS.

MEXICAN AND CALIFORNIAN TREES AND PLANTS.

A large number of species of Trees and Shrubs can be supplied, which were collected by one of the proprietors in the mountainous regions of the Cordilleras, and the Sierra Nevada; the Mexican species suited to the States south of 33 degrees, and the Californian species to all the States south of 40 degrees

SPLENDID ROSES.

All on their own roots, and none ingrafted, or budded.

A new Catalogue of this most favored class of flowers will be issued speedily, comprising the most select and choice assortments of the different classes that have ever been presented to the public. In the mean time, we can only refer to our Catalogues heretofore issued, with the remark that all the most beautiful Prize Roses that have been brought to notice in France and England for the last two years, have been added to our collection, and our correspondents cannot go amiss, when applying for such as have attracted their attention. The prices of all the older varieties have been greatly reduced, and all the *New Varieties* will be afforded at as reasonable rates as possible.

Double Prairie Roses, of 20 beautiful varieties, and other fine Climbing Roses, can be supplied 6 to 8 feet high, suitable for covering walls or arbors, or for ornamenting pillars or other positions.

Of other classes of Roses we can supply large plants, 3 and 4 years old, calculated to impart immediate ornament.

SPLENDID DOUBLE DAHLIAS.

A very select collection, of 150 varieties, comprising the most splendid, rare, and superb English and other prize varieties	50 cts. or $5 00 per dozen.
Superb varieties, less rare	38 cts. or $3 00 do.
Other fine varieties	$2 50 do.

JAPAN, NEPAL, AND OTHER LILIES.

A splendid collection, of above 30 species and varieties, will be found at page 26 of Catalogue No. 2, and also in the new edition which will be speedily published, with reduced prices.

GLADIOLUS.

A most brilliant collection, comprising 115 of the most splendid Belgian and French varieties, of surpassing beauty; see Catalogue of Bulbous Flowers.

OTHER BULBOUS FLOWERS.

The collection is very large, and comprises all the choice varieties of Hyacinths, Tulips, Crown Imperials, Fritillaries, Bulbocodium, Jonquils, Japan and other Lilies, Polyanthus Narcissus, Double and Single Narcissus, Crocus, Gladiolus, Snowdrop, Snowflake, Iris, Ornithogalum, Scilla, Allium, Ranunculus, Anemone, Cyclamen, Amaryllis, Ixia, Lachenalia, Zephyranthes, Oxalis, Antholyza, Alstræmeria, Arum, Colchicum, Brunsvigia, Calochortus, Crinum, Dens Canis, Feraria, Hæmanthus, Pancratium, Tuberose, &c., &c.

Every class will be supplied at very moderate rates, with a large discount to venders. All the details as to prices, descriptions, &c., will be found in Catalogues No. 2 and 9, and in a new one now preparing for publication.

NEW CHRYSANTHEMUMS.

Comprising the Newest Belgian and French Varieties.

200 of the most beautiful Large flowering, Pompone, and Liliputian or Daisy varieties, at $3 per dozen for the first class and most rare, and $2 for equally good kinds, but less rare.

NEW VERBENAS.

110 Select Prize varieties, at $1 50 to $2 per dozen.

CARNATIONS AND PICOTEES.

170 Beautiful French and Belgian varieties at $3 per dozen, or $20 per 100. Also 25 new Monthly varieties at $3 to $4 per dozen.

PHLOX.

All the most desirable varieties, including the new Belgian and French varieties, at $2 to $3 per dozen, or $8 for 50 varieties. Old varieties $1 50 per dozen,

IRIS.

115 Splendid named varieties, at $2 50 per dozen; $4 50 for 25, and $8 for 50 varieties.

POLYANTHUS, COWSLIP, AND PRIMROSE.

50 Beautiful varieties at $3 per dozen.

HEMEROCALLIS, OR DAY LILY.

10 Beautiful varieties for $2 50.

DOUBLE HOLLYHOCKS.

50 Finest double varieties at $2 50 per dozen.

A splendid assortment of each of the following, including the new European varieties.—Achimenes, Fuchsia, Salvia, Heliotrope, Scarlet Geranium, Petunia, Daisy, Lantana, Cineraria, Cuphea, Gesneria, Gloxinia, Sedum, Violet, Potentilla, Campanula, Lobelia, Asclepias, Veronica, Vinca, Hibiscus, Petunia, Portulacca, &c.

HERBACEOUS FLOWERING PLANTS.

Of this class of plants, our Collection is so rich and extensive, and the new acquisitions so frequent and numerous, that we shall publish them in a distinct Catalogue. A very large assortment was comprised in the 34th edition of our General Catalogue, to which amateurs can refer. Our present collection comprises not only all those usually found in other Catalogues, but several hundred rare varieties which are not in any other American collection, all of which will be supplied at the lowest rates.

SUMMER FLOWERING PLANTS, FOR BEDDING AND BORDERS.

A very extensive and select Assortment of the most rare and beautiful species, many of which are entirely new. They are enumerated in Catalogues Nos. 2 and 9.

GREENHOUSE PLANTS.

Assortments of the Camellia Japonica, the collection of which comprises 250 splendid varieties, and of Chinese Azalea, Fuchsia, Geranium, Achimenes, Nerium, Cineraria, Myrtle, Orange, Lemon, Citron, Acacia, Calceolaria, Passiflora, Gloxinia, Gladiolus, Amaryllis, Cactus, Erica, and of all other desirable genera, will be supplied at the lowest rates.

AGRICULTURAL, GARDEN, AND FLOWER SEEDS.

The Catalogue in this department is very extensive, and we announce to all vendors of Seeds that we will supply every variety desired at low wholesale rates, our desire being to present great inducements to those who will make prompt or sure arrangements for payment. We also supply them put up in a superior manner, in retail parcels, at $30 to $40 per 1000 parcels.

FRUIT AND ORNAMENTAL TREE SEEDS, ETC.

Apple, Pear, Peach, Cherry, Plum, Apricot, Quince, Grape, and other Fruit Seeds, can be supplied in quantities. Also Seeds of Pines, Spruces, and many other Evergreen Trees, and of many Deciduous Trees and Shrubs, and Flowering Plants. Orders for any of these should be given in advance of the season for obtaining them. See Catalogue No. 4.

AMERICAN SEEDS AND PLANTS FOR EUROPE.

Collections of Seeds of American Forest Trees and Shrubs, and of rare and beautiful American Plants, will be supplied, suitable to send to Europe and other countries.

FRUIT TREES.—REMARKS—PRICES.

We have Apple, Pear, Cherry, Plum, Peach, Nectarine and Quince trees of large sizes and vigorous growth. In addition to the kinds enumerated in the preceding part of this Catalogue, we have every variety of merit that has been latterly brought to notice in Europe and America. We ask purchasers to inspect our trees, as nowhere can a finer collection of large-sized, well-grown trees be found. It is, however, worthy of their notice, that the trees frequently offered are small and very inferior, and in many cases of common varieties, and they are, consequently, of little comparative value to the estimable trees which we send to our correspondents. These remarks will also especially apply to Ornamental Trees, Shrubbery, Roses, Pæonies, Chinese Azaleas, &c.. as many persons are selling mere slips of little *comparative* value.

CANDID ADVICE TO AMATEURS.

We make it a point to cultivate the largest stock of all the most estimable varieties, and consequently have larger and finer trees of these kinds. If, therefore, those persons who are desirous of adorning with promptitude their gardens and pleasure grounds, will transmit to us a general list of their wants, and leave the selection in some degree to us, we will send strong, well-grown specimen trees of the respective kinds, such as will be sure to succeed and realize their expectations.

GENERAL REMARKS.

Persons who may not have our whole set of Catalogues, or those of the latest edition, may, from not seeing some articles enumerated therein, infer that we cannot supply them. We have, therefore, to state, that we obtain all desirable new Fruit and Ornamental Trees, Shrubs and Plants, with the greatest dispatch, and are always among the first to have them for sale, whether announced in our Catalogues or not.

Transplanting Trees.

Before you remove the Trees intended to be transplanted, or before you unpack any you may have received, you should fully prepare the holes to receive them. But if, from any cause, delay is indispensably necessary in preparing the holes, the trees should be well wet over the roots and branches, and the roots be then entirely well covered in a trench, till you are ready to commence planting them. It is of great benefit to puddle the roots of Trees before planting, which operation should be performed thus:—Make a hole in the ground four feet in diameter, and two and a half deep, and fill it with water; then pulverize equal quantities of rich mould and old decomposed manure, and throw in, and mix the whole well, so as to form a thick puddle. At the time of planting, place the roots of each tree in the puddle, giving the tree two or three turns until the puddle adheres to every root, then proceed immediately to plant it, the holes having been previously prepared as follows: Make the holes full large in proportion to the size and spread of the roots of the trees, so that they may be spread out and in no wise cramped. The usual diameter will be three to four feet, and the depth two to three feet. In removing the earth, place the surface soil aside by itself, and cast away the poisonous bottom soil as useless. Mix in with the surface soil about an equal portion of rich mould, and of old well-rotted manure, in sufficient quantity to replace the inferior soil cast aside, and then pulverize the whole. This done, then spread a portion of the prepared compost at the bottom of the hole, and after having pared any bruised or broken parts of the roots of the tree, place it in position, and at a depth of one inch below that at which it had previously stood. Then whilst one person holds the tree erect, let another fill in the prepared compost till the roots are covered, treading it down well; then fill up the remainder without treading, as the surface should be loose in order to receive the rains. Make a slight cavity around the tree for the same object, and to receive waterings. When thus planted, water the tree plentifully, and do the same occasionally afterwards, and especially if the weather should prove dry. Evergreen Trees are usually transplanted with balls of earth, and, therefore, the puddling will be dispensed with, unless some of the roots should become bare.
